New York Times bestselling author The remarkable history of how college presidents shaped the struggle for racial equality  
Some of America s most pressing civil rights issues desegregation equal educational and employment opportunities housing  
discrimination and free speech have been closely intertwined with higher education institutions Although it is commonly  
known that college students and other activists as well as politicians actively participated in the fight for and against civil  
rights in the middle decades of the twentieth century historical accounts have not adequately focused on the roles that the  
nation s college presidents played in the debates concerning racism Based on archival research conducted at a range of  
colleges and universities across the United States The Campus Color Line sheds light on the important place of college  
presidents in the struggle for racial parity Focusing on the period between 1948 and 1968 Eddie Cole shows how college  
presidents during a time of violence and unrest strategically yet often silently initiated and shaped racial policies and  
practices inside and outside of the educational sphere With courage and hope as well as malice and cruelty college

presidents positioned themselves sometimes precariously amid conflicting interests and demands Black college presidents challenged racist policies as their students demonstrated in the streets against segregation while presidents of major universities lobbied for urban renewal programs that displaced Black communities near campus Some presidents amended campus speech practices to accommodate white supremacist speakers even as other academic leaders developed the nation's first affirmative action programs in higher education The Campus Color Line illuminates how the legacy of academic leaders' actions continues to influence the unfinished struggle for Black freedom and racial equity in education and beyond
