Law Making In The Global Community:

Law-Making in the International Community G.M. Danilenko, 2024-01-15 As the world approaches the end of the twentieth century it becomes clear that the global legal system governing relations between the members of the international community is passing through a period of profound change The traditional lawmaking techniques established largely at the beginning of this century were constituted so as to provide for only gradual reforms within a limited and homogeneous community of states Faced with a growing number of global problems the international community has discovered that the traditional legal system lacks effective procedures for rapid generation of new international legal norms Law Making in the International Community examines to what extent the transformations in the social and the legal infrastructures of the international community have affected the traditional rules determining how international law is to be made or changed By focusing on actual state practice official statements of governments and the pronouncements of the World Court this book seeks to clarify the content and significance of the existing community consensus concerning the authoritative methods of lawmaking The Global Community Yearbook of International Law and Jurisprudence 2023 GLOBAL COMMUNITY: YEARBOOK OF INTERNATIONAL LAW AND JURISPRUDENCE., 2024-11-05 The Global Community Yearbook of International Law and Jurisprudence features an annual review of global issues and legal developments from international courts and tribunals The 2023 edition explores threats to democracy and the environment international reparations issues the implications of the Russia Ukraine and Israel Palestine conflicts pertaining to international law and the legality of the ECOWAS s intervention in Niger among other topics *Sustainable Development in International Law Making and Trade* Elisabeth Bürgi Bonanomi, 2015-09-25 This timely book provides an accessible insight into how the concept of sustainable development can be made operational through its translation into legal terms Understood as a multidimensional legal principle sustainable development facilitates coherent international law making Using this notion as an analytical lens on the WTO Agreement on Agriculture the book considers the unresolved question of what a sustainable and coherent agricultural trade agreement could look like **The Global Community Yearbook of International Law and Jurisprudence 2014 (Volume 1)** Giuliana Ziccardi Capaldo, 2015-09-15 The 2014 edition of The Global Community Yearbook both updates readers on the important work of long standing international tribunals and introduces readers to more novel topics in international law This edition includes expert introductory essays by prominent scholars in the realm of international law on topics as diverse and current as the intervention of the United States and coalition partners in territories under the control of the Islamic State of Iraq and the Levant ISIL to the weak area in the institutional and normative framework of the Revised Treaty of Chaguaramas *Democracy in International Law-Making* Salar Abbasi, 2021-12-20 This book provides a critique of current international law making and draws on a set of principles from Persian philosophers to present an alternative to influence the development of international law making procedure The work conceptualizes a substantive notion of democracy

in order to regulate international law making mechanisms under a set of principles developed between the twelfth and seventeenth centuries in Persia What the author here names democratic egalitarian multilateralism is founded on the idea of egalitarian law by Suhrawardi the account of substantial motion by Mulla Sadra and the ideal of intercultural dialectical democracy developed by R m Following a discussion of the conceptual flaws of the chartered and customary sources of international law it is argued that democratic egalitarian multilateralism could be a source for a set of principles to regulate the procedures through which international treaties are made as well as a criterion for customary international law ascertainment Presenting an alternative drawn from a less dominant culture to the established ideas of international law making the book will be essential reading for researchers and academics working in public international law history of law legal theory comparative legal theory Islamic law and history

Law-Making and Legitimacy in International Humanitarian Law Püschmann, Jonas, 2021-10-19 International Humanitarian Law IHL is in a state of some turbulence as a result of among other things non international armed conflicts terrorist threats and the rise of new technologies This incisive book observes that while states appear to be reluctant to act as agents of change informal methods of law making are flourishing Illustrating that not only courts but various non state actors push for legal developments this timely work offers an insight into the causes of this somewhat ambivalent state of IHL by focusing attention on both the legitimacy of law making processes and the actors involved
