Law Of The Sea In A Nutshell:

The Law of the Sea in a Nutshell Louis B. Sohn, Kristen Gustafson, 1984 The Law of the Sea in a Nutshell Louis B. Sohn, Kristen Gustafson Juras, John E. Noyes, Erik Franckx, 2010 Softbound New softbound print book The Exclusive Economic Zone Charles Quince, 2019-02-15 Traditionally the law of the sea was divided into the territorial sea and the high seas which accounted for the application of different rules under different circumstances Concerning the territorial sea the coastal state enjoys full sovereignty to the right of innocent passage while under the high seas rules all countries enjoy multifaceted uses of the sea qualified only by the limitations imposed by international law The development of the exclusive economic zone ended this traditional dualism and ushered in guidelines that are embodied within the text of the LOS Convention The Exclusive Economic Zone presents to academia and the general reading public a comprehensive study of the EEZ concept as it relates to the LOS Convention and state practice The Exclusive Economic Zone shows that even through coastal states have the right to develop a 200 miles EEZ and that this right is an integral part of contemporary international relations it is also true that the EEZ concept is shrouded in legal ambiguities Using qualitative and inductive methods the scholarship draws on treaties official proclamations government archives and scholarly works that are germane to the development of the EEZ Students scholars and members of the general public with an interest in international law will find that The Exclusive Economic Zone deepens their understanding of the evolution of the EEZ concept The Interception of Vessels on the High Seas Efthymios Papastavridis, 2014-08-28 The principal aim of this book is to address the international legal questions arising from the right of visit on the high seas in the twenty first century This right is considered the most significant exception to the fundamental principle of the freedom of the high seas the freedom in peacetime to remain free of interference by ships of another flag It is this freedom that has been challenged by a recent significant increase in interceptions to counter the threats of international terrorism and WMD proliferation or to suppress transnational organised crime at sea particularly the trafficking of narcotics and smuggling of migrants The author questions whether the principle of non interference has been so significantly curtailed as to have lost its relevance in the contemporary legal order of the oceans The book begins with an historical and theoretical examination of the framework underlying interception This historical survey informs the remainder of the work which then looks at the legal framework of the right of visit contemporary challenges to the traditional right interference on the high seas for the maintenance of international peace and security interferences to maintain the bon usage of the oceans navigation and fishing piracy j ure gentium and current counter piracy operations off the coast of Somalia the problems posed by illegal unregulated and unreported fishing interdiction operations to counter drug and people trafficking and recent interception operations in the Mediterranean Sea organised by FRONTEX *International Maritime Boundaries* Coalter Lathrop, 2025-03-24 Prepared by regional experts Volume IX provides critical commentary on international maritime boundary agreements concluded since the previous

volume The International Maritime Boundaries series is the foremost authority on maritime boundaries and is used and referenced widely by practitioners and scholars of international law International Maritime Boundaries is also available online

The World Court in Action Howard N. Meyer, 2002 Traces the World Court from the Hague Conference of 1899 and shows its development through World War I the League of Nations World War II and the cold war up to the contemporary challenges of East Timor and Kosovo Also distinguishes between the nation state oriented work of the World Court and the work of the International Criminal Court which was proposed in 1998 to prosecute individual war criminals like Milosevic and others coming out of the conflicts of the former Yugoslavia and Rwanda Discusses the common problem that World Court and the ICC have resistance in Washington to the international rule of law especially when it comes to authority surrounding the use of force

Freedom of Navigation in the Exclusive Economic Zone Thuy Van Tran, 2022-01-05 This book looks into ship source pollution from an EU perspective and in view of recent far reaching initiatives undertaken by this regional organization These constitute the first regional approach with respect to ship source pollution in the context of the freedom of navigation in the exclusive economic zone where criminalization beyond generally accepted international standards is arguably envisaged With respect to the freedom of navigation of other States in this exclusive economic zone this book confirms that it is closely related to and at times serves as a prerequisite for the exercise of their other freedoms and lawful uses of the sea therein and that any impact on the freedom of navigation of other States in the exclusive economic zone may affect their other freedoms or associated rights

Sohn, Noyes, Gustafson Juras and Franck's The Law of the Sea in a Nutshell, 2d Louis Sohn, Kristen Juras, John Noyes, Erik Franck, 2010-01-05 This comprehensive guide summarizes the current principles and rules governing the international law of the sea Topics include the rights and responsibilities of states in various zones of the oceans fisheries and nonliving resources vessel nationality and jurisdiction over vessels maritime terrorism and security maritime boundary delimitation and baselines marine environment and dispute settlement mechanisms The text discusses the widely accepted United Nations Convention on the Law of the Sea and other relevant treaties legislation and jurisprudence including U S and European laws cases and practice

Coastal State Jurisdiction over Ships in Need of Assistance, Maritime Casualties and Shipwrecks Iva Parlov, 2022-08-01 In Coastal State Jurisdiction over Ships in Need of Assistance Maritime Casualties and Shipwrecks Iva Parlov offers a comprehensive analysis of the rights and obligations of coastal States over ships in need of assistance maritime casualties and shipwrecks under international customary law treaty law and other international instruments Important regime interactions are discussed in depth most extensively the interaction between the 1982 United Nations Convention on the Law of the Sea and regulations adopted at the International Maritime Organization but also between conventional and customary law public and private law In contrast to the existing literature that mostly

focuses on separate issues such as intervention places of refuge salvage and wreck removal this book takes a systemic approach to consider from the coastal State's perspective jurisdictional problems at each stage of a maritime occurrence deteriorating into a maritime casualty and ultimately into a wreck Particular attention is given to legal differences associated with maritime zones and the physical state of a ship Adding a temporal scale to the analysis the book provides an insight into the legal developments since the Torrey Canyon 1967 disaster and offers some reflections on the directions in which the tide is flowing not least in light of the recent European Union's proposal for amendments of the IMO Guidelines on Places of Refuge

The Environmental Rule of Law for Oceans Froukje Maria Platjouw, Alla Pozdnakova, 2023-04-20 Our oceans need a strong and effective environmental rule of law to protect them against increased pressures and demands including climate change pollution fisheries shipping and more The environmental rule of law for oceans requires the existence of a set of rules and policies at multiple governance levels that appropriately regulate human activities at sea and ensure that pressures on the marine ecosystem are tackled effectively Adhering to the rule of law through clear predictable coherent and legitimate rules and their implementation and enforcement is timely and urgent In this book we are searching for ways to improve strengthen and further develop the environmental rule of law for oceans The book provides future oriented perspectives on how law should evolve to better preserve the oceans All chapters incorporate novel insights and ideas for legal solutions that might inspire scholars actors authorities citizens and communities around the globe This title is Open Access

The International Legal Protection of Migrants at Sea Niba Fontoh, 2023-11-20 Faced with the migration crisis which has turned the sea into a graveyard for sea migrants this book addresses the issue by examining the international legal framework which enjoins States and other actors at sea to come to the rescue of migrants in distress at sea The book seeks to provide a legal argument which obliges the international community to protect even illegal migrants who willingly and intentionally endanger their lives at sea while ensuring that these rights and obligations are not abused Multifarious branches of International Law defend this position

Governing Biodiversity through Democratic Deliberation Mikko Rask, Richard Worthington, 2015-05-15 This book discusses political controversies involved in global biodiversity policy and the practical opportunities that are opened up in solving them through increased citizen participation and democratic deliberation It examines the emerging practice of deliberative global governance and its political consequences The collection focuses on the intersection of global biodiversity policy and the promise of deliberative democracy In doing so it examines how new discursive logics emerge in global citizen deliberation that might destabilize the impasses encountered in biodiversity negotiations how a global citizens voice emerges in deliberative processes despite the dominance of national institutions in the lives of those citizens the most effective and innovative ways to amplify the results of large scale

deliberations to policy makers and broader audiences and how future citizen deliberations can be designed to make them fair feasible and consequential processes in general and for biodiversity issues in particular This highly original contribution to the field provides theoretical discussions empirical analyses and local experiences of biodiversity policy making it an invaluable resource for students and scholars of environmental politics governance and sociology particularly those interested in deliberative democracy citizen participation and biodiversity
