Edna Manley: Fifty Years a Sculptor Basil McFarlane, 1972 **Edna Manley** Wayne Brown, 1976 **Edna Manley, the Seventies** Edna Manley, David Boxer, 1980 *EDNA MANLEY*, 1973 After the Postcolonial Caribbean Brian Meeks, 2023-01-20 Examines the history and possible futures of radical politics in the postcolonial Caribbean A book of rare beauty Bill Schwarz Professor at Queen Mary University of London Across the Anglophone Caribbean the great expectations of independence were never met From Black Power and Jamaican Democratic Socialism to the Grenada Revolution the radical currents that once animated the region recede into memory More than half a century later the likelihood of radical change appears vanishingly small on the horizon But what were the twists and turns in the postcolonial journey that brought us here And is there hope yet for the Caribbean to advance towards more just democratic and empowering futures After the Postcolonial Caribbean is structured into two parts In Remembering Brian Meeks employs an autobiographical form drawing on his own memories and experiences of the radical politics and culture of the Caribbean in the decades following the end of colonialism In Imagining he takes inspiration from the likes of Edna Manley George Lamming and Stuart Hall in reaching toward a new theoretical framework that might help forge new currents of intellectual and political resistance Meeks concludes by making the case for reestablishing optimism as a necessary cornerstone for any reemergent progressive movement **Edna Manley** Edna Manley, 1989 *Life and Work of Ludwig Lewisohn* Ralph Melnick, 2018-02-05 Lewisohn's efforts would later bear fruit in the Jewish renewal movement of the next generation Women in Jamaican Music Heather Augustyn, 2020-06-09 As the ubiquitous Jamaican musician Bob Marley once famously sang half the story has never been told This rings particularly true for the little known women in Jamaican music who comprise significantly less than half of the Caribbean nation's musical landscape This book covers the female contribution to Jamaican music and its subgenres through dozens of interviews with vocalists instrumentalists bandleaders producers deejays and supporters of the arts Relegated to marginalized spaces these pioneering women fought for their claim to the spotlight amid oppressive conditions to help create and shape Jamaica's musical heritage **Modernism, the Visual, and Caribbean Literature** Mary Lou Emery, 2007-02-15 This ambitious study offers a comprehensive analysis of the visual in authors from the Anglophone Caribbean Mary Lou Emery analyses works by George Lamming C L R James Derek Walcott Wilson Harris Jamaica Kincaid and David Dabydeen This study is an original and important contribution to both transatlantic and postcolonial studies **Jamaica in Pictures** Janice Hamilton, 2005-01-01 Discusses the land history government people and economy of Jamaica **Race, Class, and Political Symbols** Anita M. Waters, 1985-01-01 Dr Waters is one of a new breed of analysts for whom the interpenetration of politics culture and national development is key to a larger integration of social research Race Class and Political Symbols is a remarkably cogent examination of the uses of Rastafarian symbols and reggae music in Jamaican electoral campaigns The author describes and analyzes the way Jamaican politicians effectively employ improbable strategies for electoral success

She includes interviews with reggae musicians Rastafarian leaders government and party officials and campaign managers Jamaican democracy and politics are fused to its culture hence campaign advertisements reggae songs party pamphlets and other documents are part of the larger picture of Caribbean life and letters This volume centers and comes to rest on the adoption of Rastafarian symbols in the context of Jamaica's democratic institutions which are characterized by vigorous campaigning electoral fraud and gang violence In recent national elections such violence claimed the lives of hundreds of people Significant issues are dealt with in this cultural setting race differentials among Whites Browns and Blacks the rise of anti Cubanism the Rastafarians response to the use of their symbols and the current status of Rastafarian ideological legitimacy

The Oxford History of Western Art Martin Kemp, 2000 The Oxford History of Western Art is the new authority on the development of visual culture in the West over the last 2700 years from the classical period to the end of the twentieth century OHWA is an innovative and challenging reappraisal of how the history of art can be presented and understood None of the currently available general histories of art offers the wealth of perspectives and cross media references of this book Through a carefully devised modular structure readers are given insights not only into how and why works of art were created but also how works in different media relate to each other across time Here uniquely is not the simple linear story of art but a rich series of stories told from varying viewpoints The founding principle of the book has been to use carefully selected groupings of pictures to give readers a sense of the visual texture of the various periods and episodes covered The 167 illustration groups supported by explanatory text and picture captions create a sequence of visual tours not merely a procession of individually great works viewed in isolation but juxtapositions of significant images that powerfully convey a sense of the visual environments in which works of art need to be viewed in order to be understood and appreciated The aim throughout has been to make the shape and nature of these visual presentations a stimulating and rewarding experience allowing readers to become active participants in the process of interpretation and synthesis Another key feature of the narrative is the re definition of traditional period boundaries Rather than relying on conventional labels such as Medieval

Renaissance Baroque etc five major phases of significant historical change are established that unlock longer and more meaningful continuities The art of classical antiquity from c 600 BC to the fall of Rome in AD 410 The establishment of visual culture in Europe from 410 to 1527 the sack of papal Rome European visual regimes from 1527 to 1770 The era of revolutions 1770 to 1914 Modernism and after 1914 to 2000 This new framework shows how the major religious and secular functions of art have been forged sustained transformed revived and revolutionized over the ages how the institutions of Church and State have consistently aspired to make art in their own image and how the rise of art history itself has come to provide the dominant conceptual framework within which artists create patrons patronize collectors collect galleries exhibit dealers deal and art historians write The text has been written by a team of 50 specialist authors working under the direction of Professor Martin Kemp one of the UK's most distinguished art historians Whilst bringing their own expertise and vision to their sections each author was also asked to relate their text to a number of unifying themes and issues including written evidence physical contexts patronage viewing and reception techniques gender and racial issues centres and peripheries media and condition the notion of art and current presentations Though the coverage of topics focuses on European notions of art and their transplantation and transformation in North America space is also given to cross fertilizations with other traditions including the art of Latin America the Soviet Union India Africa and Afro Caribbean Australia and Canada Professor Kemp and his team similarly deal generously with the applied arts and reproductive media such as photography and prints The result is a vibrant vigorous and revolutionary account of Western art serving both as an inspirational introduction for the general reader and an authoritative source of reference and guidance for students

Palmer, 2014-02-03 Freedom's Children is the first comprehensive history of Jamaica's watershed 1938 labor rebellion and its aftermath Colin Palmer argues that a hundred years after the abolition of slavery Jamaica's disgruntled workers challenged the oppressive status quo and forced a morally ossified British colonial society to recognize their grievances The rebellion produced two rival leaders who dominated the political life of the colony through the achievement of independence in 1962 Alexander Bustamante a moneylender founded the Bustamante Industrial Trade Union and its progeny the Jamaica Labour Party Norman Manley an eminent barrister led the struggle for self government and with others established the People's National Party Palmer describes the ugly underside of British colonialism and details the persecution of Jamaican nationalists He sheds new light on the nature of Bustamante's collaboration with the imperial regime the rise of the trade union movement the struggle for constitutional change and the emergence of party politics in a modernizing Jamaica

The BBC and the Development of Anglophone Caribbean Literature, 1943-1958 Glyne A. Griffith, 2016-11-23 This book is the first to analyse how BBC radio
