## **Educating The Right Way:**

**Educating the "right" Way** Michael W. Apple, 2006 In this book Apple explores the conservative restoration the rightward turn of a broad based coalition that is making successful inroads in determining American and international educational policy It takes a pragmatic look at what critical educators can do to build alternative coalitions and policies that are more democratic Apple urges this group to extricate itself from its reliance on the language of possibility in order to employ pragmatic analyses that address the material realities of social power **Educating the "right" Way** Michael W. Apple, 2001 American schools are undergoing a dramatic political shift to the right This book uncovers the roots of this conservative swing and sheds light on the dramatic changes they are causing **Ideology and Curriculum** Michael W. Apple, 2004 To celebrate the 25th anniversary of its publication Michael W Apple has thoroughly updated his influential text and written a new preface The new edition also includes an extended interview circa 2001 in which Apple relates the critical agenda outlined in *Ideology and Curriculum* to the more contemporary conservative climate Finally a new chapter titled *Pedagogy Patriotism and Democracy* *Ideology and Education After 9 11* is also included **Volatile Knowing** Kaia Tollefson, 2010-02-01 *Volatile Knowing* refers to the positive change that can result when parents and teachers talk together about the politics of school reform Based on a study of teachers and parents who researched aspects of the accountability movement typically censored in mainstream media *Volatile Knowing* reveals the hidden power behind current reform efforts that serve private not public interests It is aimed at provoking a new child centered movement for accountability and creativity in the nation s schools **Ideology, Curriculum, and the New Sociology of Education** Lois Weis, Greg Dimitriadis, Cameron McCarthy, 2013-01-11 For more than three decades Michael Apple has sought to uncover and articulate the connections among knowledge teaching and power in education Beginning with *Ideology and Curriculum* 1979 Apple moved to understand the relationship between and among the economy political and cultural power in society on the one hand and the ways in which education is thought about organized and evaluated on the other This edited collection invites several of the world s leading education scholars to reflect on the relationships between education and power and the continued impact of Apple s scholarship Like Apple s work itself the essays will span a range of disciplines and inequalities emancipatory educational practices and the linkage between the economy and race class and gender formation in relation to schools **Education as Enforcement** Kenneth Saltman, David A. Gabbard, 2010-09-13 The first volume to focus on the intersections of militarization corporations and education *Education as Enforcement* exposed the many ways schooling has become the means through which the expansion of global corporate power are enforced Since publication of the first edition these trends have increased to disturbing levels as a result of the extensive militarization of civil society the implosion of the neoconservative movement and the financial meltdown that radically called into question the basic assumptions undergirding neoliberal ideology An understanding of the enforcement of these corporate economic imperatives remains imperative to a

critical discussion of related militarized trends in schools whether through accountability and standards school security or other discipline based reforms Education as Enforcement elaborates upon the central arguments of the first edition and updates readers on how recent events have reinforced their continued original relevance In addition to substantive updates to several original chapters this second edition includes a new foreword by Henry Giroux a new introduction and four new chapters that reveal the most contemporary expressions of the militarization and corporatization of education New topics covered in this collection include zero tolerance foreign and second language instruction in the post 9 11 context the rise of single sex classrooms and the intersection of the militarization and corporatization of schools under the Obama administration

**Ideology and Curriculum** Michael Apple, Michael W. Apple, 2018-12-07 Since 1979 Ideology and Curriculum has been a path breaking statement on the relationship between cultural and economic power in education The new edition of this now classic text has been updated by celebrated author and activist Michael W Apple to include a full new chapter on the book s lasting critical agenda in the context of the contemporary conservative climate A new substantive preface introduces the fourth edition reflecting on earlier arguments and developments from the intervening years while a concluding interview details the author s background and continuing efforts toward building a more equitable society In celebration of the 40th anniversary of its publication this highly anticipated new edition firmly situates Ideology and Curriculum as one of the most important education titles of our time

**Envisioning a Critical Race Praxis in K-12 Education Through Counter-Storytelling** Tyson E.J. Marsh, Natasha N. Croom, 2016-08-01 While critical race theory is a framework employed by activists and scholars within and outside the confines of education there are limited resources for leadership practitioners that provide insight into critical race theory and the possibilities of implementing a critical race praxis approach to leadership With a continued top down approach to educational policy and practice it is imperative that educational leaders understand how critical race theory and praxis can assist them in utilizing their agency and roles as leaders to identify and challenge institutional and systemic racism and other forms manifestations of oppression Stovall 2004 In the tradition of critical race theory we are charged with the task of operationalizing theory into practice in the struggle for and commitment to social justice Though educational leaders and leadership programs have been all but absent in this process given their influence and power educational leaders need to be engaged in this endeavor The objective of this edited volume is to draw upon critical race counter stories and praxis for the purpose of providing leaders in training and practicing K 12 leaders with tangible narratives that demonstrate how racism and its intersectionality with other forms of oppression manifest within K 12 schooling An additional aim of this book is to provide leaders with a working knowledge of the central tenets of critical race theory and the tools that are required in recognizing how they might be complicit in the reproduction of institutional and systemic racism and other forms of oppression More precisely this edited volume intends to draw upon and center the lived experiences and voices of contributors that have experienced racism in K 12 schooling Through the use

of critical race methodology and counter storytelling Sol rzano Yosso 2002 contributors will share and interrogate their experiences while offering current and future educational leaders insight in recognizing how racism functions within institutions and how they can address it The intended goal of this edited volume is to translate critical race theory into practice while emphasizing the need for educational leaders to develop a critical race praxis and anti racist approach to leadership

Critical Race Theory in Education Adrienne D. Dixson, Celia K. Rousseau, Celia Rousseau Anderson, 2006 This edited volume brings together several scholars from both law and education to provide some clarity on the status and future directions of Critical Race Theory answering key questions regarding the what and how of the application of CRT to education

*China's Mongols at University* Zhenzhou Zhao, Wing On Lee, 2010-04-09 Minority students in China often receive preferential treatment for access to universities However very little is known about minority student experiences and perceptions on campus after they are accorded what s called meaningful access to university The Mongols emerged as a distinct ethnic group in China starting in the 11th century and in the centuries that followed conquered a large part of the world However in modern times this nomadic people s influence has declined and even their survival in China has been threatened This decline is evidenced by the fact that increasing numbers of Mongols have abandoned their native language and traditional customs especially those who live in cities How do Mongol university students who form the backbone of the Mongol intellectual community identify themselves in a modern Chinese context How do they react as university students to the way in which their culture is recognized and represented Do Mongol students suffer from injustice in the cultural dimension of campus life China s Mongols at University Contesting Cultural Recognition seeks to answer these questions Zhenzhou Zhao addresses these issues by comparing the university discourse on minority culture policy institutional structure and daily life and the Mongol student discourse concerning their experiences perceptions of recognition and dedication to self representation on campus Additionally Gao compares three universities in China Located in Inner Mongolia Autonomous Region Beijing and Hubei Province respectively each of these universities represents one of three types of higher education accessible to minority students in China universities located in ethnic areas standard universities and universities for nationalities China s Mongols at University explores and discusses an intrinsic connection between marketization and globalization and the disadvantages faced by minority groups This book argues that China must move from a policy of preferential tre

**Teacher Power in the Digital Age** Matt Reichel, 2025-07-11 This book is an examination of the confluence of social political and communicative forces animating recent teachers uprisings beginning with the accession of a militant slate to the Chicago Teachers Union CTU in 2011 and continuing with myriad strikes walkouts and other protest actions taken throughout the country since then During this time thousands of teachers have participated in protest actions in dozens of states and jurisdictions throughout the country thus ending a lengthy period of relative dormancy on the part of teachers unions as a political organizing force This movement is situated amongst the other digitally enabled movements of

the squares that have occurred in recent years including the Occupy movement and the Arab Spring which all emerge out of the ongoing crisis of neoliberal capitalism though this book argues that the teachers movement has been central to this wave of contestation due its institutional grounding This book will be of interest to readers with a background in Political Sociology Education Policy Political Communication and related fields      *Corporate Elites and the Reform of Public Education* Gunter, Helen M.,Hall, David,2017-03-08 Just what is the role and impact of corporate elites in contemporary reforms of public sector universities and schools Providing fresh perspectives on matters of governance and vibrant case studies on the particular types of provision including curriculum teaching and professional practices Gunter Hall and Apple bring together contributions from Argentina Australia England Indonesia Singapore and US to reveal how corporate elites are increasingly influencing public education policy provision and service delivery locally nationally and across the world Leading scholars including Patricia Burch Tanya Fitzgerald Ken Saltman and John Smyth scrutinise the impact elites are having on opportunity access and outcomes through political and professional networks and organisations      **Symposium on Michael Apple's Educating the Right Way and the State and the Politics of Education** ,2007      **Forgotten Pedagogues of German Education** Ralf Koerrenz,Sebastian Engelmann,2019-10-15 This book introduces six pedagogues from the German context to an English speaking audience and demonstrates their significant contribution to the field of alternative education First and foremost the authors emphasise the importance of understanding the history of education to realise that in fact what we understand as normal today is by no means the only course history could have taken The quest for alternative ways of schooling goes back to the late eighteenth century where educational thinkers advocated various approaches in the face of rapid societal change The chosen six thinkers are not well known in the English speaking scientific community and some are even infrequently cited in the German context In offering an historic and systematic introduction to concepts that can frame Alternative Education in different ways this book allows the reader to critically reevaluate present forms of education by using the past as a mirror      Theory and Philosophy in Education Research John Quay,Jennifer Bleazby,Steven Stolz,Maurizio Toscano,R. Scott Webster,2018-04-09 The issue of methodology is a fundamental concern for all who engage in educational research Presenting a series of methodological dialogues between eminent education researchers including Michael Apple Gert Biesta Penny Enslin John Hattie Nel Noddings Michael Peters Richard Pring and Paul Smeyers this book explores the ways in which they have chosen and developed research methods to style their investigations and frame their arguments These dialogues address the specialized and technical aspects of conducting educational research conceptualize the relationship between methodology and theory and provide in depth discussion of concerns including falsifiability openness interpretation and researcher judgement Foregrounding the researchers first hand experience and knowledge this book will provide future and current researchers with a deeper comprehension of the place of theory in education research An illuminating resource for undergraduate and postgraduate researchers alike Theory and Philosophy in Education

Research confronts the intricate complexities of conducting education research in a highly engaging and accessible way

**Handbook of Research in the Social Foundations of Education** Steven Tozer, Bernardo P. Gallegos, Annette Henry, Mary Bushnell Greiner, Paula Groves Price, 2011-07-05 This groundbreaking volume helps readers understand the history evolution and significance of this wide ranging often misunderstood and increasingly important field of study

**Locke's Education for Liberty** Nathan Tarcov, 1999-01-01 Locke's Education for Liberty presents an analysis of the crucial but often underestimated place of education and the family within Lockean liberalism Nathan Tarcov shows that Locke's neglected work Some Thoughts Concerning Education compares with Plato's Republic and Rousseau's Emile as a treatise on education embodying a comprehensive vision of moral and social life Locke believed that the family can be the agency not the enemy of individual liberty and equality Tarcov's superb reevaluation reveals to the modern reader a breadth and unity heretofore unrecognized in Locke's thought

Curriculum, Spirituality and Human Rights towards a Just Public Education Rogério C. Venturini, 2023-05-08 Curriculum Spirituality and Human Rights towards a Just Public Education examines the integration of spirituality not religion into U S public education and curriculum The volume challenges celebratory curricularized forms of human rights and frames spirituality as a counter hegemonic human right Drawing on autobiography as inquiry Rogério Venturini unpacks his spiritual struggles from within and experiences as a progressive spiritual person and educator The volume examines the subjectivity and objectivity of spirituality exploring the lethal social impact triggered by the absence of spirituality at the table of the so called curriculum conversations This volume places the struggle for spirituality in our field as a political struggle and challenges the epistemicidal nature of such conversations Venturini draws on critical anti colonial and decolonial frameworks and argues for an epistemological move towards an itinerant curriculum theory one that responds to the world's endless epistemological diversity and difference by assuming a non derivative non abyssal approach

Philippine Education, 1911

The Protection of the Right to Education by International Law Klaus Dieter Beiter, 2005-11-01 A trend has emerged of not defining education as a human right anymore but of rather calling it a human need This has paved the way for an ever increasing commercialisation of education excluding the poor from access to education A problem at a different level is that states often do not know what is expected of them when realising the right to education as protected by international law This relates to the complex nature of this right which is simultaneously a civil and political and an economic social and cultural right This book seeks to affirm education as a human right and to describe the various state duties flowing from the right to education It refers to the provisions on the right to education found in instruments of international law and systematically analyses article 13 of the International Covenant on Economic Social and Cultural Rights The book is of interest to students teachers researchers legal practitioners and state and international officials dealing with international human rights law
