Critical Issues in Mathematics Education Bharath Sriraman, Paul Ernest, Brian Greer, 2009-06-01 The word critical in the title of this collection has three meanings all of which are relevant One meaning as applied to a situation or problem is at a point of crisis A second meaning is expressing adverse or disapproving comments or judgments A third is related to the verb to critique meaning to analyze the merits and faults of The authors contributing to this book pose challenging questions from multiple perspectives about the roles of mathematics in society and the implications for education Traditional reasons for teaching mathematics include preparing a new generation of mathematics researchers and a cadre of technically competent users of mathematics training students to think logically and because mathematics is as much part of cultural heritage as literature or music These reasons remain valid though open to critique but a deeper analysis is required that recognizes the roles of mathematics in framing many aspects of contemporary society that will connect mathematics education to the lived experiences of students their communities and society in general and that acknowledges the global ethical responsibilities of mathematicians and mathematics educators The book is organized in four sections 1 Mathematics education For what and why 2 Globalization and cultural diversity 3 Mathematics education and society and 4 Social justice in and through mathematics education The chapters address fundamental issues such as the relevance of school mathematics in people's lives creating a sense of agency for the field of mathematics education and redefining the relationship between mathematics as discipline mathematics as school subject and mathematics as part of people's lives

Educating Our Children for the Common Good* Joel Westheimer,2014-04-16 How can schools teach the skills required for a strong democracy to flourish What Kind of Citizen asks readers to imagine the kind of society they would like to live in and then shows the ways in which schools can be used to make that vision a reality Westheimer draws on groundbreaking research on school programs and policies to sharply critique the current direction of school reform He points to the many varied and powerful ways to teach children and young adults to engage critically to think about social issues and to participate in authentic debate that acknowledges that intelligent adults can have different opinions But today s teachers are being forced

to abandon these practices in favor of test preparation in only a very narrow set of academic subjects How did this happen What can we do to set schools back on the right track How can we realign school goals with what research shows parents children and teachers actually care about How can we save our schools from today's myopic interpretation of what constitutes an education Westheimer answers these questions and makes a powerful call for schools to become more engaging more democratic and more educative Among the many casualties of a preoccupation with rigor and accountability is the prospect of education for meaningful democratic citizenship In this refreshingly accessible book Westheimer not only makes that point but explains the importance of helping students to think critically and question tradition He issues a welcome invitation to connect our conception of the ideal school to its impact on our broader society Alfie Kohn bestselling author What does it mean to be a democratic citizen And what kind of education produces one For the past 2 decades Joel Westheimer has been one of North America's most knowledgeable and able guides to these critical issues Along the way he has forced us to reconsider the larger goals and purposes of our public schools His book will provide an invaluable roadmap for anyone who asks the big questions no matter what they think of his answers Jonathan Zimmerman New York University In this highly readable persuasive book Joel Westheimer reminds us that in our zeal for higher test scores we seem to have forgotten the highest aim of education to produce better people more thoughtful citizens Nel Noddings Stanford University

Homeschooling Black Children in the U.S. Khadijah Ali-Coleman, Cheryl Fields-Smith, 2022-01-01 In 2021 the United States Census Bureau reported that in 2020 during the rise of the global health pandemic COVID 19 homeschooling among Black families increased five fold However Black families had begun choosing to homeschool even before COVID 19 led to school closures and disrupted traditional school spaces Homeschooling Black Children in the US Theory Practice and Popular Culture offers an insightful look at the growing practice of homeschooling by Black families through this timely collection of articles by education practitioners researchers homeschooling parents and homeschooled children Homeschooling Black Children in the US Theory Practice and Popular Culture honestly presents how systemic racism and other factors influence the decision of Black families to homeschool In addition the book chapters illustrate in different ways how self-determination manifests within the homeschooling practice Researchers Khadijah Ali-Coleman and Cheryl Fields-Smith have edited a compilation of work that explores the varied experiences of parents homeschooling Black children before during and after COVID 19 From veteran homeschooling parents sharing their practice to researchers reporting their data collected pre COVID this anthology of work presents an overview that gives substantive insight into what the practice of homeschooling looks like for many Black families in the United States *The Routledge International Companion to Emotional and Behavioural Difficulties* Ted Cole, Harry Daniels, John Visser, 2012-10-12 Responding to disruptive or troubled pupils with emotional and behavioural difficulties EBD remains a highly topical issue The challenges these children present relate to wider issues of continuing political concern the perceived declining discipline in schools school and social exclusion the limits

to inclusion for children with special needs increasing mental health difficulties in children youth crime and parenting skills It s little wonder that the EBD often known as BESD or SEBD category is one of the most common forms of SEN around the world This topical and exhaustively researched Companion examines the difficulties of defining EBD and the dangers of allocating this imprecise label to children Bringing together the work of contributors from fifteen countries and across four continents this book features the research of leading experts in the global field of EBD who discuss and debate educators key concerns by looking at the overlaps between EBD ADHD and mental health difficulties outlining the types of appropriate schooling for children with EBD urging readers to look beyond pupils challenging behaviour in order to understand and respond to the social biological and psychological causation considering the key areas of assessment whole school and targeted approaches that help pupils with EBD in mainstream and in special settings outlining helpful work with families the crucial contribution of effective multi agency working and the importance of supporting and developing teachers who work with challenging pupils Containing contrasting views on controversial topics this Companion s approachable style makes it an essential reference book for academics policy makers practitioners educators and students who are working towards a higher degree in education [Becoming A Teacher: Issues In Secondary Education](#) Dillon, Justin, Maguire, Meg, 2011-07-01

book remains my umbilical cord to those pivotal principals that I cherish in education integrity passion critical engagement and transformation Gerry Czerniawski Professor of Education University of East London UK An excellent contribution to the Teacher Education and development literature Many of the authors are leading thinkers in their field and as such the book offers a significant breadth depth and coherence to the teacher development discourse Professor David Spendlove School of Environment Education and Development The University of Manchester UK *Handbook of Cultural Politics and Education*, 2010-01-01 In academia the effects of the cultural turn have been felt deeply In everyday life tenets from cultural politics have influenced how people behave or regard their options for action such as the reconfiguration of social movements protests and praxis in general Many authors writing in this field are known for their scholarship and social activism both of which are arguably guided by principles of cultural politics about the nature of representation and the deployment of power in political discourses The Handbook of Cultural Politics and Education is less an attempt to standardize contemporary educational scholarship and more a collection that engages the problems and promises of recent themes in social and cultural thought which require our attention and demand a response In other words it opens doors to questions rather than convenient answers to difficult educational dilemmas The Handbook is part of the appraisal of an opening created by interdisciplinary writings on such themes as representation civil society cultural struggle subjectivity and media within the context of education Indeed cultural politics troubles traditional frameworks in search of critical explanations concerning education's place within society The contributions in the collection support this endeavor *Balancing Acts* Natasha Kumar Warikoo, 2011-02-09 In this timely examination of children of immigrants in New York and London Natasha Kumar Warikoo asks Is there a link between rap hip hop influenced youth culture and motivation to succeed in school Warikoo challenges teachers administrators and parents to look beneath the outward manifestations of youth culture the clothing music and tough talk to better understand the internal struggle faced by many minority students as they try to fit in with peers while working to lay the groundwork for successful lives Using ethnographic survey and interview data in two racially diverse low achieving high schools Warikoo analyzes seemingly oppositional styles tastes in music and school behaviors and finds that most teens try to find a balance between success with peers and success in school Perspectives on the Educational Experiences of African/Caribbean Boys Nisheet Gosai, 2011-09-22 This study critically explores contemporary African Caribbean boys 15 16 years old educational experiences in the UK It focuses on their lives from both within and outside the school Various research methods are employed in order to gain a comprehensive picture that includes the accounts of African Caribbean boys parents teachers and youth workers The study explores both the boys positive and negative experiences of school life At one level the boys narratives suggest a nothing but the same old story of racial exclusion and subordination within urban secondary schools At another level we hear of the importance of education in their lives Of particular significance is the evidence of how black supplementary schools and youth organisations are providing an

educational space that positively supports them in their transition into adulthood The study makes recommendations for educationalists and policy makers based on the findings This includes the need to understand the boys experiences of racial exclusion and the complexities around the intersection of race gender and class for a younger generation at the start of the twenty first century In comparing mainstream and supplementary educational spaces the boys identify the need to build an inclusive mainstream curriculum that represents the historical past and cultural present of their lives Importantly the study vividly highlights contrasting teacher pupil interactions between these two educational spaces suggesting what the former can learn from the latter

Critical Literacy and Its Impact on Black Boys' Reading Readiness Shawn Anthony

Robinson, Antonio L. Ellis, 2023-03-01 Academic success for African American boys in Special Education is frequently elusive as the United States continues to endure the legacy of academic discrimination Blanchett 2010 Skiba et al 2008

Consequently educational policies have not fully protected the equal rights or adequately responded to the learning needs of students academic shortcomings or taken advantage of their strengths Parkinson Tatum 2005 This persistent reading gap has not closed in generations which is deeply harmful to our American democracy Wolf 2019 With every passing year that goes by without alleviating problems affecting the reading gap the damage is costly and no failure is more expensive than the failure to educate African American males in the PK 12 pipeline Robinson Robinson Ford Ellis Wolf 2007 Reading instruction must be culturally relevant which can strengthen the reader s identity and capacity for critical thinking Arya Flowers 2007 Robinson 2017 Critical literacy is grounded in the sociocultural perspective and way of thinking about curriculum literacies and honoring students lived experiences especially within the contexts of Special Education Brooks 2006 Gay 2002 Norman 2011 This edited book will fill a needed gap in scholarly research as manuscripts adopts a critical analysis that brings together the latest theoretical conceptual quantitative qualitative and mixed methods research studies Chapters will have clear and explicit implications for educational practice and make a significant contribution to the field of special education and reading instruction

Exploring Caribbean Boys' Achievement in Secondary Education Janet Graham, 2017-07-19

This book explores underachievement of boys and girls in secondary education The author focuses her empirical study on the alarming underachievement of African Caribbean boys in British schools in comparison to other groups She also adopts a historical perspective to compare West Indian children who arrived in Britain in the 1960s and 1970s many labeled as ESN Coard 1971 to problems faced by black boys in today's classrooms Janet Graham also explores the impact of globalization population movement government policies and diversity on black boys education provision in inner city schools in Britain She investigates masculinity subcultures peer group pressures and exclusion from school and their impact on black boys education The institutional focus study sets the context for the empirical study and provides a perspective from voices of black boys in one inner London school to find out what they think about school learning subcultures peer group pressures and teachers As a contrast teachers views of the boys are also provided This book will be of interest to educationalists

teachers parents school management and government bodies interested in race diversity achievement who want to bring about change to improve life chances *Diversifying the Teaching Force in Transnational Contexts* Clea Schmidt, Jens Schneider, 2016-10-26 Diversifying the teaching force has become a priority in many migrant receiving jurisdictions worldwide with the growing mismatch between the ethnic backgrounds cultures languages and religions of teachers and those of students and families Arguments for diversification tend to be couched in terms of disproportionate representation and students from minority backgrounds needing positive role models yet research identifies other compelling reasons for diversification including the fact that teachers of migrant backgrounds often possess outstanding qualifications when multilingualism and internationally obtained education and experience are taken into account and the fact that all students including majority background students benefit from a diversity of role models in schools Nevertheless the process of diversification is fraught with complexity Depending on the context systemic discrimination an oversupply of teachers in the profession generally and outdated hiring policies and practices can all impede efforts to diversify the teaching force This volume comprises original research from Canada the U S Germany Ireland Scotland and England that problematizes issues of diversifying the teaching force and identifies promising practices A foreword written by Charlene Bearhead of the National Centre for Truth and Reconciliation questions the very purpose of education in and for diverse societies An introduction written by the editors defines key concepts and establishes a rationale for diversifying the teaching force in migrant receiving contexts Following this key international scholars offer empirical perspectives using a range of methodologies and theories rooted in critical social science paradigms The volume informs future research programming and policy development in this area div div *The Praeger Handbook of Urban Education* Philip M. Anderson, Kecia Hayes, Joe Kincheloe, Karel Rose, 2006-03-30 Maintaining that urban teaching and learning is characterized by many contradictions this work proposes that there is a wide range of social cultural psychological and pedagogical knowledge urban educators must possess in order to engage in effective and transformative practice It is necessary for those teaching in urban schools to be scholar practitioners rather than bureaucrats who can only follow rather than analyze understand and create Ten major sections cover the myriad issues of urban education as it exists today *Education in an Altered World* Michelle Proyer, Wayne Veck, Fabio Dovigo, Elvira Seitinger, 2023-01-12 This book brings together world leading researchers and scholars in the fields of inclusive education disability studies refugee education and special education to examine critical and original perspectives of the meaning and consequences of educational and social exclusion Drawing together the contributors consider how children already vulnerable to exclusion might be supported and educated in and through times of global pandemic and crisis They also identify broad prospects for education and inclusion in through and beyond times of global pandemic and crisis *Equality and Ethnic Identities* Alice Akoshia Ayikaaley Sawyerr, Christopher Adam Bagley, 2017-07-13 This book combines history sociology psychology and educational policy in research on a 40 year crucial phase of

development of ethnic identity ethnic relations and educational and social policies for children in England from pre school to secondary school The authors show how nursery children of different ethnicities interact in beginning their identity journeys in a culture of both inequality and evolving ethnic relationships and patterns of harmony in Britain s developing multicultural society In looking at self concept development in secondary school children through the lens of various kinds of child maltreatment Alice Sawyerr and Christopher Bagley argue that ethnic minority children are psychological survivors and African Caribbean girls especially are making strong identity steps it is the poor whites who will make up the precariat the reserve army of labour who are left behind in structures of inequality
