Education For Freedom:

Freedom of Choice in Education Virgil C. Blum, 1958 A roman Catholic priest explains his view that all students should be able to attend private schools of their own choosing and that this should be effected by means of government subsidy to the students or their parents *Education for Freedom* Robert Maynard Hutchins, 1965 On education and freedom Harold Taylor, 1954 **Education for Freedom and Responsibility** Edmund Ezra Day, 1971 Education for Freedom Alvin Christian Eurich, 1943 The Dialectic of Freedom Maxine Greene, 1988 Special 2018 Edition From the new Introduction by Michelle Fine Graduate Center CUNY Why now you may ask should I return to a book written in 1988 Because in Maxine s words When freedom is the question it is always time to begin In *The Dialectic of Freedom* Maxine Greene argues that freedom must be achieved through continuing resistance to the forces that limit condition determine and too frequently oppress Examining the interrelationship between freedom possibility and imagination in American education Greene taps the fields of philosophy history educational theory and literature in order to discuss the many struggles that have characterized Americans quests for freedom in the midst of what is conceived to be a free society Accounts of the lives of women immigrants and minority groups highlight the ways in which Americans have gone in search of openings in their lived situations learned to look at things as if they could be otherwise and taken action on what they found Greene presents a unique overview of American concepts and images of freedom from Jefferson s time to the present She examines the ways in which the disenfranchised have historically understood and acted on their freedom or lack of it in dealing with perceived and real obstacles to expression and empowerment Strong emphasis is placed on the focal role of the arts and art experience in releasing human imagination and enabling the young to reach toward their vision of the possible The author concludes with suggestions for approaches to teaching and learning that can provoke both educators and students to take initiatives to transcend limits and to pursue freedom not in solitude but in reciprocity with others not in privacy but in a public space

Education for Freedom and World Understanding Conference on the ideals of american freedom and the international dimensions of education (1962. Washington), 1962 **Freedom to Learn** Carl Ransom Rogers, 1969 Focuses on the real problems of contemporary man family stability crime personal growth peace the good life Poses vital foundation questions Approaches science as a human concern not one of rigid rules and approved procedures Cites defects in present methods of educating scientists Deals with the question of human values in science **Teach Freedom** Charles M. Payne, Carol Sills Strickland, 2008-04-12 The self conscious use of education as an instrument of liberation among African Americans is exactly as old as education among African Americans This dynamic anthology is about those forms of education intended to help people think more critically about the social forces shaping their lives and think more confidently about their ability to react against those forces Featuring articles by educator activists this collection explores the largely forgotten history of attempts by African Americans to use education as a tool of collective liberation Together these contributions explore the variety of

forms those attempts have taken from the shadow of slavery to the contradictions of hip hop Contributors address Lessons from the Past and discuss Citizenship Schools in the South Ella Baker and the Harlem Y Mississippi Freedom Schools and Black Panther Liberation Schools Contemporary models are covered as well demonstrating the depth and tenacity of the tradition in such efforts as the Freedom Schools established by the Children s Defense Fund Educational Freedom in Eastern Europe Charles Leslie Glenn,1995 The story of the Communist takeover of education and the *Freedom for Education* John Fentress Gardner,1976 **Dutch School Freedom** Mason Ross,AI,2025-02-21 Dutch School Freedom explores the Netherlands unique educational choice system and its effects on student achievement and social equity This academic study examines how Dutch policies balance educational freedom with equitable student outcomes The book highlights the historical development rooted in religious pluralism and parental rights leading to a diverse educational landscape Intriguingly while the Dutch system grants substantial freedom to parents the book argues that the impact on student achievement varies based on socioeconomic factors and school choice can exacerbate existing inequalities if equity isn t carefully considered The book provides a comprehensive data driven assessment of the Dutch model moving beyond ideological debates to offer an evidence based understanding It begins with the historical and philosophical underpinnings of Dutch school freedom then explores the contemporary landscape detailing various school types funding and governance The core presents a comparative analysis of student achievement data using national datasets to evaluate the effects of school choice on diverse student populations before concluding with policy implications and practical applications for other contexts

Today's Guide to Educational Policy Joel Spring,2021-04-12 In his latest book Joel Spring covers major political economic and social issues affecting US and global education policy today Crafted to evoke classroom discussion this book explores contemporary issues such as the pandemic institutional racism religious controversies nationalism and immigration increased reliance on online instruction climate change economics of education and the deep state in education Giving students the opportunity to engage in critical thinking and explore the growing sense that US and global education is in distress and in need of fundamental transformation this book forces readers to examine their own values and how they might apply this thinking to their own education policy and practice *Educating for Freedom* Edward Octavius Sisson,1925 **Liberty and Learning in the Schools** Commission on Academic Freedom and Pre-College Education,1986 Rousseau on Education, Freedom, and Judgment Denise Schaeffer,2014-01-02 In Rousseau on Education Freedom and Judgment Denise Schaeffer challenges the common view of Rousseau as primarily concerned with conditioning citizens passions in order to promote republican virtue and unreflective patriotism Schaeffer argues that to the contrary Rousseau s central concern is the problem of judgment and how to foster it on both the individual and political level in order to create the conditions for genuine self rule Offering a detailed commentary on Rousseau s major work on education Emile and a wide ranging analysis of the relationship between Emile and several of Rousseau s other works Schaeffer explores Rousseau s understanding of

what good judgment is how it is learned and why it is central to the achievement and preservation of human freedom The model of Rousseauian citizenship that emerges from Schaeffer's analysis is more dynamic and self-critical than is often recognized This book demonstrates the importance of Rousseau's contribution to our understanding of the faculty of judgment and more broadly invites a critical reevaluation of Rousseau's understanding of education citizenship and both individual and collective freedom *Educational Freedom in Urban America* David F. Salisbury, Casey Lartigue, 2004 This book offers a prescription for reform that includes freedom of choice among public and private schools *Progress to Freedom* Agnes Elizabeth Benedict, 2013-03 **The Philosophical Bases of Education** Robert Robertson Rusk, 1929
