## **Education The Challenge Ahead:**

*Education. The Challenge Ahead. D., Pref. by C[yril] Scott Fletcher....* Cyril Scott Fletcher, 1962      **Education: the Challenge Ahead** Cyril Scott Fletcher, 1962      "Education Has Nothing to Do with Theology" Edward J. Newell, 2006-08-01

Does education have any relation to theology How do the educator s worldview commitments speak to his or her practice of education James Michael Lee brought a definite answer to these questions a firm no to the relations question and an advocacy for empirical findings over and against any speculative or theoretical positions in reply to the commitments question Lee claimed to have a universal neutral metatheory for all religious education a theory that would apply to all religious educators in any and every religion But in proposing his theory he overlooked the way that empirical facts express worldviews This book is a detective story tracing commitments that lay underneath empirical neutrality In the process the reader will see avenues that unmistakably link education to theology Education turns out to be a thoroughly worldview conditioned process This new work is essential reading for professors and students in both religious and general education
