Education Under Siege:

Public Education Under Siege Michael B. Katz, Mike Rose, 2013-05-22 Proponents of education reform are committed to the idea that all children should receive a quality education and that all of them have a capacity to learn and grow whatever their ethnicity or economic circumstances But though recent years have seen numerous reform efforts the resources available to children in different municipalities still vary enormously and despite landmark cases of the civil rights movement and ongoing pushes to enact diverse and inclusive curricula racial and ethnic segregation remain commonplace Public Education Under Siege examines why public schools are in such difficult straits why the reigning ideology of school reform is ineffective and what can be done about it Public Education Under Siege argues for an alternative to the test driven market oriented core of the current reform agenda Chapters from education policy experts and practitioners critically examine the overreliance on high stakes testing which narrows the content of education and frustrates creative teachers and consider how to restore a more civic centered vision of education in place of present dependence on questionable economic models These short jargon free essays cover public policy teacher unions economic inequality race language diversity parent involvement and leadership collectively providing an overview of the present system and its limitations as well as a vision for the fulfillment of a democratic egalitarian system of public education Contributors Joanne Barkan Maia Cucchiara Ansley T Erickson Eugene E Garcia Eva Gold Jeffrey R Henig Tyrone C Howard Richard D Kahlenberg Harvey Kantor Michael B Katz David F Labaree Julia C Lamber Robert Lowe Deborah Meier Pedro Noguera Rema Reynolds Claire Robertson Kraft Jean C Robinson Mike Rose Janelle Scott Elaine Simon Paul Skilton Sylvester Joi A Spencer Heather Ann Thompson Tina Trujillo Pamela Barnhouse Walters Kevin G Welner Sarah Woulfin **Education Still Under Siege** Stanley Aronowitz, Henry A. Giroux, 1993-08-30 Cultural differences are not asserted through the specificity of dominant notions of race gender and class but through a commitment to expanding dialogue and exchange across cultural lines as part of a wider attempt to deepen and develop democratic public life This revised edition of the 1985 best seller speaks eloquently to the need to attend to ever present inequalities of education in the light of new political correctness technology and curricula

The History of Education Under Apartheid, 1948-1994 Peter Kallaway, 2002 *Education Under Siege* Arthur Shapiro, 2013-10-21 We Americans seem prone to bandwagon onto fads particularly now that reforming education has become a national priority Unfortunately many of those fads now caroming across our continent are outright frauds some are fantasies even fictions Even more unfortunately many are undermining our public schools teachers kids and communities and

pillaging our tax dollars in the process This book analyzes each major reform No Child Left Behind Common Core State Standards grading schools evaluating teachers failing students vouchers charters online virtual charters and finds them seriously wanting We conclude with reforms that work actually helping teachers kids parents and communities **The Abandoned Generation** Henry A. Giroux, 2003-04-19 Henry Giroux continues his critique of the US political and popular culture s influence on the lives of our children In his controversial new book Giroux argues that the US is at war with young people No longer seen as the future of a democratic society youth are now derided by politicians looking for quick fix solutions to crime and demonized by the popular media This perception of fear and disdain is being translated into social policy Instead of providing a decent education to young people we offer them the increasing potential of being incarcerated Instead of guaranteeing them decent health care we serve them more standardized tests There s a war on in the US these days and Giroux sees our youth as the target The Critical Turn in Education Isaac Gottesman, 2016-03-17 The Critical Turn in Education traces the historical emergence and development of critical theories in the field of education from the introduction of Marxist and other radical social theories in the 1960s to the contemporary critical landscape The book begins by tracing the first waves of critical scholarship in the field through a close contextual study of the intellectual and political projects of several core figures including Paulo Freire Samuel Bowles and Herbert Gintis Michael Apple and Henry Giroux Later chapters offer a discussion of feminist critiques the influx of postmodernist and poststructuralist ideas in education and critical theories of race While grounded in U S scholarship The Critical Turn in Education contextualizes the development of critical ideas and political projects within a larger international history and charts the ongoing theoretical debates that seek to explain the relationship between school and society Today much of the language of this critical turn has now become commonplace words such as hegemony ideology and the term critical itself but by providing a historical analysis The Critical Turn in Education illuminates the complexity and nuance of these theoretical tools which offer ways of understanding the intersections between individual identities and structural forces in an attempt to engage and overturn social injustice

Mukdani,2013-12-01 Today s ecclesial praxis has to add something to human capacity in order for the church to envision itself whole This book addresses multiple struggles as creative acts theologically for rethinking a possibly constructive ecclesial praxis that addresses God s new creation in its relation to God s people By examining it in broader paradigms Herry Mukdani proposes an Other praxis as a critical option for ecclesial freedom An Other Praxis searches not only new impulses for theological practices but the extension of voices from the margins that have contributed both to fresh ideas and to new opportunities for life It also demands ecclesial praxis to put all existing voices into account and responsibly re discover the subaltern or subordinated others Thus this praxis helps the subaltern communities of faith claim their own identities as border crossers in the midst of cultural and religious plurality They will be active subjects of new theological productions from and for the church They are able to prove theological creativity possible today that expands beyond its ecclesial limits An Other Praxis will be of interest to readers not merely because they want to learn something beyond the existing forms of praxis Rather it will always give them refreshing energies capable of making rich and sometimes risky responses to the ministry possible and real It will also give them attitude and perspective to improve a culturally diverse conversation in theology and thus it adds divers al ity in ministry and leadership in today s church *The Truth About Our Schools* Melissa Benn,Janet Downs,2015-11-06 A superb crucial blistering expose of all the myths about our education system that are all too often used to attack it Melissa Benn again proves why she is one of country s most formidable education campaigners and why the powerful should fear her Owen Jones Guardian columnist and best selling author Never has it been more urgent to publicise the truth about what works and doesn t work in our education system Debunking the ideology of marketisation and exposing the half truths that pass for objective reporting Benn and Downs meticulously lay out the evidence that a national system of comprehensive schools delivers the best outcomes This hugely important book should be required reading for each new Education Secretary Caroline Lucas MP Opinions about comprehensive education are often made into easy to swallow sound bites by media and politicians alike and whilst the benefits of a genuinely comprehensive education for all pupils are obvious untruths have unwittingly evolved into hard facts Based on Melissa Benn and Janet Downs work as part of the pioneering Local Schools Network *The Truth About Our Schools* calls for us to urgently and articulately challenge unquestioned myths about state education Benn and Downs have meticulously built an argument for its still enormously vital role and rigorously challenge assumptions that Comprehensive education has failed Local authorities control and hold back schools Choice competition and markets are the route to educational success Choice will improve education in England the free school model Academies raise standards Teachers don t need qualifications Private schools have the magic DNA Progressive education lowers standards Anyone who thinks that comprehensive education cannot deliver that local

authorities are the chief block to improving our school system that competition and markets are the route to educational success and that private schools hold the magic DNA that can simply be transferred to other state schools will have their beliefs shaken by this blisteringly incisive book *Women, War, Violence and Learning* Shahrzad Mojab, 2013-09-13 This anthology provides fresh theorization of gendered dimensions of learning war and violence with a view to offering new insights on the impact of violence on women's learning and well being The collection is an important contribution to emerging interdisciplinary approaches to the role and effectiveness of civil society especially women's NGOs working in war and post conflict zones and to the relationship between neoliberal global feminist projects and the re emergence of colonial and imperial feminisms This collection is also an exploration of the plausibility of current peace education strategies augmenting the political and leadership role of women and their civic engagement This collection is designed to create a space for conversation across disciplines on such issues as how to advance our conceptualization of gender related education and conflict how to provide empirically based case studies and transnational analyses that improves our understanding of the impact of war and violence on women's learning and how to contribute to national and international policy analyses to improve education for women and girls through related policy reforms or humanitarian aid programs in post war reconstruction efforts This book was published as a special issue in the International Journal of Lifelong Education

Hermeneutics and Education Shaun Gallagher, 1992-10-01 Shaun Gallagher is Associate Professor of Philosophy at Canisius College and co editor of the forthcoming book *Merleau Ponty Hermeneutics and Postmodernism* which will be published by SUNY Press *Hegemony and Education Under Neoliberalism* Peter Mayo, 2015-03-12 Based in a holistic exposition and appraisal of Gramsci's writings that are of relevance to education in neoliberal times this book rather than simply applying Gramsci's theories to issues in education argues that education constitutes the leitmotif of his entire oeuvre and lies at the heart of his conceptualization of the ancient Greek term hegemony that was used by other political theorists before him Starting from this understanding the book goes on to compare Gramsci's theories with those of later thinkers in the development of a critical pedagogy that can confront neoliberalism in all its forms [Schooling and the Struggle for Public Life](#) Henry A. Giroux, 2015-12-03 This book examines the relationship between democracy and schooling and argues that schools are one of the few spheres left where youth can learn the knowledge and skills necessary to become engaged critical citizens Not only is the legacy of democracy addressed through the work of John Dewey and others but the democratic possibilities of schooling are analyzed through a range of issues extending from the politics of teacher authority to the importance of student voices These issues have only become more vital in an era of neoliberalism and smaller government as Giroux discusses at length in this new updated edition
