

Educational Development

Shirley Booth, Laurie Woollacott

Educational Development:

Pathways to the Profession of Educational Development Jeanette McDonald, Denise Stockley, 2010-07-13 The contributors to this volume are academics working directly or indirectly with teaching and learning centers and professional communities serving in the capacity of educational developer researcher or specialist unit manager or director or senior administrator Drawing on survey and interview data individual experience or perspective and familiarity with the educational literature they offer a context to understand and appreciate how the field of educational development practice and individual pathways have evolved further highlighting what territory remains to be explored and uncovered Over the last fifty years educational development has evolved from an informal set of instructional improvement activities championed by individuals to a scholarly field of study and practice that aims to advance teaching and learning at the individual institutional and more recently sector levels During this time educational development work has moved from the fringes to the mainstream of the higher education landscape bringing to the community a diverse group of dedicated academic professionals This volume draws on their experience and insight to provide an invaluable guide to future challenges and issues This is the 122nd volume of the Jossey Bass higher education quarterly report series *New Directions for Teaching and Learning* which offers a comprehensive range of ideas and techniques for improving college teaching based on the experience of seasoned instructors and the latest findings of educational and psychological researchers

Educational Development Through Information and Communications Technology Rakesh Bhanot, Stephen Fallows, 2003-12-16 Information and Communications Technology ICT has proved to be one of the key drivers of change in education In higher education particularly ICT is enabling educators educational developers and institutions to reach out to learners using innovative approaches based on the flexibility accessibility and diversity that it offers This book is based on the experiences of expert educational developers from the UK United States Canada South Africa and Malaysia It considers the ways in which ICT can be used to enhance learning both on and off campus and how educators and institutions have tackled the issues associated with the adoption of new approaches and technologies However as the development of new technology is relentless the book recognizes that ICT is not a panacea in itself good teaching remains crucial to good education With this in mind the contributors address issues beyond technology looking at the importance of teaching and at the skills of teachers themselves if ICT is to be truly successful Coverage is grouped into four key themes strategic issues for ICT initiatives introducing ICT into the classroom using ICT in practice using ICT in learning and educational support International in scope and written by educators and educational developers rather than by technologists this book is intended to be accessible to anyone with a critical interest in improving education through the use of ICT It will be of particular interest to staff and educational developers ICT coordinators course leaders and course developers

The Progress of Educational Development Henry Philip Tappan, 1855 *Enhancing Staff and Educational Development* David Baume, Peter Kahn, 2004-06-10 Systematic support for improving education and

learning in further and higher education has moved to centre stage in recent years a phenomenon reflected in the booming membership of professional development bodies This title complements the authors introductory Guide to Staff and Educational Development also in this series This book provides a more detailed consideration of the fundamental issues in staff and educational development analysing the context in which it functions the roles undertaken by practitioners and ways in which staff and educational development can be promoted and managed at senior and institutional levels as well as for individuals Written in an engaging accessible style it is rooted in practice with a wealth of case study material and practical advice The book covers areas such as how professionals learn and develop developing institutional policy and strategy for development leading an educational development unit programmes in learning and teaching in higher education areas of specialist expertise career pathways Enhancing Staff and Educational Development combines the insights of seasoned developers with the innovations of new developers and will be a compelling read for anyone dedicated to the improvement of teaching and learning

International Handbook on Education Development in the Asia-Pacific Wing On Lee, Phillip Brown, A. Lin Goodwin, Andy Green, 2023-11-20 The Springer International Handbook of Educational Development in Asia Pacific breaks new ground with a comprehensive fine grained and diverse perspective on research and education development throughout the Asia Pacific region In 13 sections and 127 chapters the Handbook delves into a wide spectrum of contemporary topics including educational equity and quality language education learning and human development workplace learning teacher education and professionalization higher education organisations citizenship and moral education and high performing education systems The Handbook is grounded in specific Asia Pacific contexts and scholarly traditions using unique country specific narratives for example Vietnam and Melanesia and socio cultural investigations through lenses such as language identity or colonisation while offering parallel academic discourse and analyses framed by broader policy commentary from around the world

Chinese Research Perspectives on Educational Development, Volume 4 Dongping Yang, 2019-09-24 This collection of articles selected from Blue Book of Chinese Education 2015 published in Chinese reviews the condition of China's education development in 2014 The wide range of topics covered in this volume fall under two major themes reform and equity Chapters on reform focus on the college entrance exam Gaokao secondary vocational education senior high school education provincially and locally funded colleges private universities and junior high school admissions policies Chapters in the second half of the book provide readers with an in depth account of efforts made to improve equity in special and early childhood education study abroad preparation classes and rural education The appendix includes a report of budgetary expenditure on education and chronology of major events

Routledge Handbook of International Education and Development Simon McGrath, Qing Gu, 2015-07-24 This timely Handbook takes stock of the range of debates that characterise the field of international education and development and suggests key aspects of a research agenda for the next period It is deliberately divergent in its approach recognising the major ideological

and epistemological divides that characterise a field that draws on many traditions. Leading and emergent voices from different paradigms and contexts are afforded a space to be heard and each section puts current debates in larger historical contexts. The Handbook is divided in four parts and book ended by an introduction and a conclusion the latter oriented towards the implications that the volume has for future research agendas. The first part explores major strands of debates about education's place in development theory. The second acknowledges the disciplining of the field by the education for all movement and examines the place that learning and teaching and schools play in development. Part three looks beyond schools to consider early years adult and vocational education but focuses particularly on the return to thinking about higher education's role in development. The final part considers the changing but still important role that international cooperation plays in shaping education in developing countries. Featuring over thirty chapters written by leading international and interdisciplinary scholars, the Routledge Handbook of International Education and Development offers the first

comprehensive and forward looking resource for students and scholars. **Learning Development in Higher Education** Peter Hartley, John Hilsdon, Christine Keenan, 2010-11-17 This book shows how Learning Development enhances the student experience and promotes active engagement. Written by staff from the UK's largest collaborative Centre for Excellence in Teaching and Learning CETL, the book includes important insights for everyone interested in supporting student retention, progression and success. **Resources in Education**, 2000-10 **Higher Education Management** Warner,

David, Palfreyman, David, 1996-08-01 Many higher education institutions are like small towns meeting the needs of their members by providing not only specialist teaching and research activities but also residential accommodation, catering, telecommunications, counselling, sports facilities and so on. The management of these institutions is very complex, requiring both generalist and specialist knowledge and skills, and the move to formal strategic planning means that it is no longer acceptable for higher education managers to be aware only of their own relatively narrow areas of expertise. All new managers would benefit from an holistic perspective on managing a whole institution. As such individuals are promoted, such helicopter vision becomes a precondition of their and their institution's success. Higher Education Management provides the first comprehensive account of non-academic higher education management contributions from distinguished practitioners of university management, a key resource for all aspiring trainee and practising managers in higher education. **Catalog of**

NIE Education Products, 1978 **Research in Education**, 1974 **Education Fever** Michael J. Seth, 2002-09-30 In the half century after 1945, South Korea went from an impoverished, largely rural nation ruled by a succession of authoritarian regimes to a prosperous democratic industrial society. No less impressive was the country's transformation from a nation where a majority of the population had no formal education to one with some of the world's highest rates of literacy, high school graduates and university students. Drawing on their premodern and colonial heritages as well as American education concepts, South Koreans have been largely successful in creating a schooling system that is comprehensive, uniform in

standard and universal The key to understanding this educational transformation is South Korean society's striking nearly universal preoccupation with schooling what Koreans themselves call their education fever This volume explains how Koreans' concern for achieving as much formal education as possible appeared immediately before 1945 and quickly embraced every sector of society Through interviews with teachers, officials, parents, and students and an examination of a wide range of written materials in both Korean and English, Michael Seth explores the reasons for this social demand for education and how it has shaped nearly every aspect of South Korean society He also looks at the many problems of the Korean educational system: the focus on entrance examinations which has tended to reduce education to test preparation; the overheated competition to enter prestige schools; the enormous financial burden placed on families for costly private tutoring; the inflexibility created by an emphasis on uniformity of standards; and the misuse of education by successive governments for political purposes

Advances in Education and Management Mark Zhou, 2011-07-22 This four volume set CCIS 208 209 210 211 constitutes the refereed proceedings of the International Symposium on Applied Economics Business and Development ISAEBD 2011 held in Dalian, China, in August 2011 The papers address issues related to Applied Economics Business and Development and cover various research areas including Economics Management Education and its Applications

World Yearbook of Education 2006 Jenny Ozga, Terri Seddon, Thomas S. Popkewitz, 2013-01-11 This volume considers the ways in which educational research is being shaped by policy across the globe Policy effects on research are increasingly influential as policies in and beyond education drive the formation of a knowledge based economy by supporting increased international competitiveness through more effective evidence based interventions in schooling education and training systems What consequences does this increased steering have for research in education How do transnational agencies make their influence felt on educational research How do national systems and traditions of educational research and relations with policy respond to these new pressures What effects does it have on the quality of research and on the freedom of researchers to pursue their own agendas The 2006 volume of the World Yearbook of Education explores these issues focusing on three key themes: globalising policy and research in education; steering education research in national contexts; global local politics of education research The 2006 volume has a truly global reach incorporating transnational policy perspectives from the OECD and the European Commission alongside national cases from across the world in contrasting contexts that include North and South America, Canada, France, Singapore, China, Russia, and New Zealand The range of contributions reflect how pervasive these developments are, how much is new in this situation, and to what extent evidence based policy pressures on research in education build on past relationships between education and policy This book considers the impact of the steering processes on the work and identities of individual researchers and considers how research can be organised to play a more active role in the politics of the knowledge economy and learning society

The Scholarship of Teaching and Learning in Higher Education Shirley Booth, Laurie

Woollacott,2015-12-31 This book makes a significant contribution to the literature on the Scholarship of Teaching and Learning SoTL It provides both theoretical and practical insights that should be of interest to many SoTL scholars and practitioners worldwide The theme of teaching and learning and SoTL as fundamentally communicative acts connects the entire volume and will be picked up by SoTL scholars elsewhere as a useful and critical frame for future scholarship The cases from South Africa and Sweden offer new perspectives on teaching learning and SoTL **Tribal Education in India**

Macharlla Ramesh,2018-04-30 India has the largest tribal population in the world A major factor that can bring transformation in the overall condition among tribal population is education Education is the only primary agent which can help individuals overcome income barriers and expand the horizon of the community when it comes to making career choices personal growth build confidence and a sustained development Education alone is a chief avenue that will upgrade the economic and social stature of the Scheduled Tribes Indian state has taken measures to raise the literacy levels among Scheduled Tribes however there are many miles to reach out as the issues and challenges faced by them remain unaddressed in terms of attaining education and development This book tried to fill the gap and made a modest attempt to understand the concerns and problems faced by them in accessing the state sponsored modern educational system Modern Methods of Lifelong Learning and Distance Education Shaloo Sharma,2002 A Handbook for Teaching and Learning in Higher Education Heather Fry,Steve Ketteridge,Stephanie Marshall,2003-12-16 First Published in 2002 Routledge is an imprint of Taylor Francis an informa company **The Routledge International Handbook of Teacher and School Development**

Christopher Day,2012 The contributions are authoritative and of high quality This is an important resource The Teacher Trainer A seminal state of the art critical review of teacher and school development which touches upon and discusses issues at both policy and practice levels
