Grossman, John J. Cogan, 2012-09-01 This book originates from a collaborative research initiative to examine how various societies in the Asia Pacific Region construct moral and civic education and to what extent these systems achieve the democratic objective of creating socially responsible citizens In many western societies there is at least a rhetorical tendency to separate the moral and civic dimensions of citizenship education and in some cases to exclude the moral dimension from the discourse of preparing citizens However as cross societal dialogues and research about citizenship education have increased in the past two decades scholars have identified differences in the emphasis put on the moral dimension of citizenship education across the Asia Pacific region In many predominantly Confucian Islamic and Buddhist societies for example the emphasis on the moral dimension of citizenship education is explicit and in some cases central While awareness of a divide or perhaps more appropriately a continuum in the role of moral versus civic education in democratic societies has been recognized for some time to our knowledge this book marks the first effort of this scope to address the issue of the moral civic divide in citizenship education Thus through a cross cultural dialogue across societies in the Asia Pacific Region this book addresses the issue of whether elements of both civic and moral education can be

effectively joined to create a socially responsible citizen The Bloomsbury Handbook of Ethics of Care in Transformative Leadership in Higher Education Mary Drinkwater, Yusef Waghid, 2024-11-14 The Bloomsbury Handbook of Ethics of Care in Transformative Leadership in Higher Education explores how the use of different ethic of care lenses can be used to nurture and sustain relationships within between and beyond humans as part of the role and responsibilities of HEIs in addressing local and global crises and change With contributions from four continents the handbook brings together multi contextual perspectives to explore ethics of care in the development of the field Topics explored include leadership praxis pedagogy well being cultivating and sustaining relationships within and between institutions post human relationships and responsibilities Countries covered include Australia Canada Guyana South Africa the UK and the USA The book forms part of the Bloomsbury Handbooks of Crises and Transformative Leadership in Higher Education collection brought together by Mary Drinkwater

Building Democracy through Education on Diversity Suzanne Majhanovich, Régis MALET, 2015-12-01 This book weaves together voices of faculty residents mentors administrators community organizers and students who have lived together in a third space urban teacher residency program in Newark as they reinvent math and science teaching and teacher education through the lens of inquiry Each chapter includes narratives from multiple perspectives as well as tools we have used within the program to support and build change providing readers with both real cases of how an urban teacher residency can impact school systems and concrete tools and examples to help the reader understand and replicate aspects of the process Capturing both the successes but also the tensions and challenges we offer a kaleidoscopic view of the rich complex and multi layered ways in which multiple stakeholders work together to make enduring educational change in urban schools Our third space NMUTR has been a fragile utopian enterprise one that has relied on a shared commitment of all involved and a deep sense of hope that working collaboratively has the potential even if not perfect to make a difference

Perspectives on Transitions in Refugee Education Seyda Subasi Singh, Olja Jovanović Milanović, Michelle Proyer, 2022-11-14 Fl chtlinge sind in ihrem Leben mit berg ngen konfrontiert auf individueller sozialer und kultureller Ebene Dieses Buch behandelt verschiedene Aspekte dieser berg nge und ihre berschneidungen mit Bildungserfahrungen Studien aus unterschiedlichen L nderkontexten zeigen die komplexen Beziehungen zwischen Individuum Kultur Gesellschaft und Institutionen Die Untersuchung dieser Beziehungen und Erfahrungen w hrend der bergangsprozesse soll zu einem tieferen Verst ndnis der verschiedenen Arten von berg ngen im Zusammenhang mit Bildung beitragen was in der Zukunft zur Verbesserung von Unterst tzungsstrukturen genutzt werden kann Teaching for Democracy in an Age of Economic Disparity Cory Wright-Maley, Trent Davis, 2016-07-01 Teaching for Democracy in an Age of Economic Disparity addresses the intersections between democratic education and economic inequality in American society Drawing upon well established theoretical constructs in the literature on democratic citizenship as well as recent events this volume outlines the ways in which students can not only be educated about democracy but become actively engaged in the social issues of their time The

collection begins with an examination of how the confluence of capitalism and education have problematized the current model of democratic education before transitioning into discussions of how teachers can confront economic disparity both economically and civically in the classroom The authors then introduce a variety of ways in which teachers can engage and empower students civic action at all grade levels As a final component the volume explores new avenues for civic action including the use of social media for democratic engagement in schools and opportunities for critical reflection and cross cultural dialogue This book is a valuable resource for both scholars interested in the research on democratic education and practicing teachers wishing to turn their students into critical active citizens

Teachers as Servant Leaders Joe D.

Nichols,2010-12-16 In today s political environment with the emphasis on testing standards and accountability teachers can easily feel frustrated by the amount of time and resources left over for teaching for guiding students not only in academics but also in character education Educators can find themselves losing focus of what initially inspired them to teach Teachers as Servant Leaders provides pre service teachers and those currently in the profession with a renewed perspective of not just being a content expert or classroom behavioral manager but leaders within their own classrooms school buildings and local communities Building on Servant Leadership A Journey into the Nature of Legitimate Power and Greatness by Robert Greenleaf this book applies the concept of servant leadership to the classroom teacher where the focus is on service to students parents colleagues the school and community

The Discourse of Special Populations Ahmet Atay,Diana

Trebing,2017-09-22 The term special population occupies a particular purpose and has a particular role in the discourse of higher education This book uses the term as an umbrella term for any student who tends to be underrepresented on college campuses and has a very specific set of unique needs among others individuals with physical and learning disabilities international students ethnic minorities LGBTQ students single parents and first generation and other non traditional student groups Sometimes these special student groups are visible to educators however quite often they are hidden in plain sight which makes it difficult for educators to work effectively and meaningfully with these student groups This book uses the framework of critical intercultural communication pedagogy to generate a discussion about pedagogical issues surrounding students who are categorized as special populations focusing on culturally sensitive pedagogical methods to educate all students

The Passion of Teaching Robert Lee Smith,James Hurst,Denise Skarbek,2005 Here the authors offer a deeper understanding of the various concepts and relevance of dispositions to teaching and other professions that serve in school settings This book provides a broad basis for conceptualizing the what and how of dispositions Features Historical and definitional perspectives of dispositions as traits and beliefs Pragmatic application Contemporary views of dispositions in teaching and teacher education An overview of the various methods that have been utilized to incorporate dispositions and dispositional concepts in educational curricula Strategies for identifying features of effective professionals Discussions on issues in the selection and retention of candidates in professional preparation programs and critical dispositions A valuable

reference given the current emphasis on dispositions as expected components in many state and professional organization standards it also presents the legal and political implications and religious traditions of dispositions in teacher education programs a model for the classification of research related to dispositions Will be of interest to teacher educators administrators teachers and others in school related professions *More Like Life Itself* Cory Wright-Maley, 2018-10-01 John Dewey wrote in multiple places that education should be an experience of the content and processes of life itself Too often social studies is taught in a way that tells students about real life but fails to engage them in the process of life for which Dewey advocated The core purpose of simulations is to reflect the processes events and phenomena expressed in a variety of real life domains They engage students in these reflections of real life meaningfully as active agents who have the power to make decisions that impact the direction of events and that lead to both intended and unintended consequences Because of the nature of simulations students who participate in them are able to build their capacities to think in complex and critical ways Today despite the growing evidence that simulations have an important role to play in the teaching of social studies they remain an underutilized and undervalued approach to the discipline One of the key obstacles to their widespread adoption is the limited availability of training resources available to social studies teachers Teachers need support to develop a new vision of social studies teaching and learning coupled with practical guidance necessary to implement simulations effectively This volume provides teachers with both When teachers are able to weave simulations effectively into the fabric of social studies teaching and learning they help to promote social studies experiences that are both powerful and purposeful They offer students an experience of the discipline that is indeed *More Like Life Itself*
