Professional Development for Leaders and Managers of Self-Governing Schools David Gamage, 2006-08-05 Current Context Currently self governing schools SGS or school based site based management SBM or local management of schools LMS identifies the individual school as the primary unit of improvement It relies on the redistribution of decision making authority to stimulate and sustain improvements in a school For this purpose varying degrees of formal authority to make decisions in the domains of school mission goals priorities and school policies relating to financial material and human resources are not simply delegated but transferred by legislation to a representative governing body called the school council or board Accordingly it is the position of the principal or the head teacher previously at the apex of the hierarchical structure of the school which undergoes the most radical reform Under the new concept authority is shifted to the corporate body that is to the council or board while the principal becomes an ex officio member of that body and the chief executive officer CEO of the school Traditionally and legally the principal or the head teacher was vested with the full authority for the total management of the school But in terms of SGS or SBM the principal becomes a partner with the representatives of other relevant stakeholders in a democratic structure When the bureaucratic model of a school gets modified with the school governing body occupying the apex of the school hierarchy it becomes the key power centre with legal authority

Effective Leadership Management Dr. Michael Adewale Adeniyi, Ph.D.,2007-10-12 Effective Leadership Management is about theory and practice of integrating styles skills and character of today s chief executive officers It is about what a leader or a manager does to bring about staff efficiency and effectiveness A leader or a manager is effective when he or she brings about the desired results for the organization by using different approaches to the development of personal and interpersonal effectiveness of the staff by daily decision making staffing planning forecasting nurturing coaching directing organizing marketing encouraging and controlling quality Effective Leadership Management emphasizes leadership as the intersection of character knowledge skill and desire Management supervises tasks but leadership deals with people who supervise tasks In other words management is doing things right while leadership is doing the right things Effective Leadership Management styles are achievable by using mixtures of different styles as situation arises Each leader has to choose style s that suits his or her personality and that best represents the values of the organization In all a leader has to be transparent with all daily dealings communicates effectively be honest with staff members showing an unbending integrity at the same time be knowledgeable or skillful about the tasks at hand and be easy to follow When an employee is encouraged

motivated and positively appraised his or her performance will be enhanced This book strongly emphasizes theory Z by Dr Ouchi in which a management or leadership style focuses on a strong company philosophy a distinctive corporate culture long range staff development and consensus decision making When decisions and policies that relate to customers are being made by an organization it is important to understand that others such as customers community staff suppliers and stake holders opinions should be considered This is called a holistic view approach to decision making It is my hope that readers will find this book useful either as a church leader school principal or university president hospital or nursing home administrator nurse manager or departmental head company owners or CEO that an effective and efficient leader or manager cannot lead or manage alone by skills or knowledge but with styles character personality and by example The Literature of Education W.
