Educational Psychology Windows On Classrooms 4th Package Edition By Eggen:

Educational Psychology Paul D. Eggen, Donald P. Kauchak, 2014-09 Educational Psychology Windows on Classrooms Ninth Edition will help you increase student learning and development. It is the most applied book in the field. If you are looking for a book that gives you a sound theoretical and research-based foundation and then provides specific and concrete illustrations and guidelines for applying this theory and research with your students, this is the book for you. The book uses an integrated case approach. Each chapter begins with a case study taken from actual classroom practice. But instead of stopping there, Eggen and Kauchak then weave the case throughout each chapter, extracting specific illustrations from it and in some instances even taking dialogue from the lesson to illustrate classroom applications of sometimes abstract and hard-to-understand theory and research.

Educational Psychology Paul D. Eggen, Donald P. Kauchak, 2006-05-01 For courses in Introduction to Educational Psychology. Long recognized as very applied and practical, Eggen and Kauchak's *Educational Psychology Windows on Classrooms* seventh edition is now even more applied and concise, giving students exactly what they need to know in the course. The author's hallmark cases remain in both written and videotape format to introduce real-world applications in a way that no other text can. Along with expanded applications to diversity, urban, suburban, and rural areas, technology, and a new pedagogical system that completely restructures how information is delivered in the book, it will help students really understand what they should be getting out of every single chapter. The text now comes with two new DVDs of video material and an access code for the new Teacher Prep Website that will be automatically shrinkwrapped with all new copies of the text. *Educational Psychology Windows on Classrooms* once again truly fulfills the promise of its title, giving students a window on the classrooms in which they will someday teach.
