**Gender, Orientalism and the Jewish Nation** Lynne M. Swarts,2020-01-23 Ephraim Moses Lilien 1874 1925 was one of the most important Jewish artists of modern times As a successful illustrator photographer painter and printer he became the first major Zionist artist Surprisingly there has been little in depth scholarly research and analysis of Lilien s work available in English making this book an important contribution to historical and art historical scholarship Concentrating mainly on his illustrations for journals and books Lynne Swarts acknowledges the importance of Lilien s groundbreaking male iconography in Zionist art but is the first to examine Lilien s complex and nuanced depiction of women which comprised a major dimension of his work Lilien s female images offer a compelling glimpse of an alternate independent and often sexually liberated modern Jewish woman a portrayal that often eluded the Zionist imagination Using an interdisciplinary approach to integrate intellectual and cultural history with issues of gender Jewish history and visual culture Swarts also explores the important fin de si cle tensions between European and Oriental expressions of Jewish femininity The work demonstrates that Lilien was not a minor figure in the European art scene but a major figure whose work needs re reading in light of his cosmopolitan and national artistic genius *Jewish Women* Katharina Galor,2023-12-15 *Jewish Women Between Conformity and Agency* examines the concepts of gender and sexuality through the primary lens of visual and material culture from antiquity through to the present day The backbone of this transhistorical and transcontextual study is the question of Jewish women s agency in four different geographical chronological and methodological contexts beginning with women s dress codes in Roman Byzantine Syro Palestine continuing with rituals of purity in medieval Ashkenaz worship in papal Avignon and the Comtat Venaissin and ending with marriage and divorce in Israeli film Each of these explorations is interested in creating a dialogue between the patriarchal legacy of the traditional texts and the chronologically corresponding visual and material culture The author challenges traditional approaches to the study of Jewish culture by employing tools from art history archaeology and film and media studies In each of these different contexts there is ample evidence that women despite persistent overall structural discrimination have found ways to challenge male constructs of gender norms Ultimately these examples from past and present times highlight women s eminence in shaping Jewish history and culture Bringing a new interdisciplinary lens to the study of the history of gender and sexuality the book will be of interest to students and
