The Kennedy Years Joseph M. Siracusa, 2014-05-14 An A to Z reference guide to the people places policies and events significant during the presidency of John F Kennedy

Encyclopedia of the Kennedys Joseph M. Siracusa, 2012-09-07 An expansive reference that overviews John F Kennedy's presidency covering the people places and events that comprised the political landscape of the Kennedy era The Kennedy family has played a leading role in the annals of American politics for over 100 years no greater than when John F Kennedy JFK became the 35th president of the United States The celebrity surrounding the circumstances of his presidency particularly his sudden assassination made JFK the object of many enduring myths that he might have been one of the country's greatest leaders had he lived that he would have kept the United States out of Vietnam and that he was a martyr to right wing assassins Encyclopedia of the Kennedys The People and Events That Shaped America is a three volume reference set that provides an in depth look at JFK's presidency including his foreign and domestic policies political allies and enemies and major events and speeches This A Z encyclopedia also contains entries on the events of the 1960s that changed our nation forever such as JFK's assassination and the Warren Commission report the space program and the My Lai Massacre as well as the individuals who defined the time such as writers Norman Mailer and James Baldwin folk musicians Bob Dylan and Joan Baez and activists Cesar Chavez and Martin Luther King Jr Appendices provide a substantial archive of primary documents and identify officeholders during JFK's presidency while an annotated bibliography supplies sources for additional research

The Kennedy Half-Century Larry J. Sabato, 2013-10-15 An original and illuminating narrative revealing John F Kennedy's lasting influence on America by the acclaimed political analyst Larry J Sabato John F Kennedy died almost half a century ago yet because of his extraordinary promise and untimely death his star still resonates strongly On the anniversary of his assassination celebrated political scientist and analyst Larry J Sabato himself a teenager in the early 1960s and inspired by JFK and his presidency explores the fascinating and powerful influence he has had over five decades on the media the general public and especially on each of his nine presidential successors A recent Gallup poll gave JFK the highest job approval rating of any of those successors and millions remain captivated by his one thousand days in the White House For all of them and for those who feel he would not be judged so highly if he hadn't died tragically in office The Kennedy Half Century will be particularly revealing Sabato reexamines JFK's assassination using heretofore unseen information to which he has had unique access then documents the extraordinary effect the assassination has had on Americans of every modern generation through the most extensive survey ever undertaken on the public's view of a historical figure The full and fascinating results gathered by the accomplished pollsters Peter Hart and Geoff Garin paint a compelling portrait of the country a half century after the epochal killing Just as significantly Sabato shows how JFK's presidency has strongly influenced the policies and decisions often in surprising ways of every president since Among the hundreds of books devoted to JFK The Kennedy Half Century stands apart for its rich

insight and original perspective Anyone who reads it will appreciate in new ways the profound impact JFK's short presidency has had on our national psyche

The Kennedys: America's Emerald Kings Thomas Maier, 2009-03-25 Meticulously researched both here and abroad The Kennedys examines the Kennedy's as exemplars of the Irish Catholic experience Beginning with Patrick Kennedy's arrival in the Brahmin world of Boston in 1848 Maier delves into the deeper currents of the often spectacular Kennedy story and the ways in which their immigrant background shaped their values and in turn twentieth century America for over five generations As the first and only Roman Catholic ever elected to high national office in this country JFK's pioneering campaign for president rested on a tradition of navigating a cultural divide that began when Joseph Kennedy shed the brogues of the old country in order to get ahead on Wall Street Whether studied exercise in cultural self denial or sheer pragmatism their movements mirror that of countless of other albeit less storied American families But as much as the Kennedys distanced themselves from their religion and ethnic heritage on the public stage Maier shows how Irish Catholicism informed many of their most well known political decisions and stances From their support of civil rights to Joe Kennedy's tight relationship with Pope Pius XII and FDR the impact of their personal family history on the national scene is without question and makes for an immensely compelling narrative Bringing together extensive new research in both Ireland and the United States several exclusive interviews as well as his own perspective as an Irish American Maier's original approach to the Kennedy era brilliantly illustrates the defining role of the immigrant experience for the country's foremost political dynasty

The Kennedys Thomas Maier, 2003-10-15 A meticulously researched chronicle of five generations of the Kennedy dynasty explains how their Irish Catholic roots informed their lives and political beliefs and reveals how the immigrant experience shaped both their remarkable success and many tragedies 100 000 first printing

The Kennedy Family S. J. Fuller, 2007 America has no official royalty by design Yet there have been the Roosevelts the Adams the Bushes the wannabee Clintons and most intriguing of all the Kennedys The Kennedys have so far only reached the presidency once but the assassination of JFK and his brother Robert and the trials and tribulations of the family members and society in general continue to fascinate the world This new book presents more than 1200 citations of books and related materials arranged by family member The accompanying CD ROM offers ready access and easy searching

The Kennedy White House Carl Sferrazza Anthony, 2002-10-08 Focusing exclusively on Kennedy family life in the White House Carl Sferrazza Anthony illuminates in words and pictures the domestic details special events private celebrations and personal tragedies that marked John F Kennedy's term from Inauguration Day to the final departure of Jackie and the children in December 1963 337 photos many in color

[The Kennedy Legacy](#) Vincent Bzdek, 2024-06-04 John Robert and Ted Kennedy's individual stories can be seen as essentially one each successive brother striving to fulfill the interrupted promise of the brother before The closing of Ted Kennedy's chapter in America's political and cultural life means that for the first time perhaps the real measure of the Kennedy legacy can finally be taken This is a story of a brotherhood in three acts Act I is

John F Kennedy's presidency as seen from Ted's front row seat Act II is Robert Kennedy's five brief years as the family standard bearer including his tenure in the Senate with his brother Ted and the memorable 82 day presidential campaign that redefined the Kennedy legacy Act III is Ted's 40 plus years in the Senate as keeper of the flame How did the brothers pass the torch to each other What have the three brothers left us collectively And who carries the torch forward now The Kennedy Legacy compellingly answers these questions and much more **Kennedy & Nixon** Chris Matthews, 2011-11-01 In this compelling smart and well researched dual biography Chris Matthews shows how the contest between the charismatic John F Kennedy and the talented yet haunted Richard Nixon propelled America toward Vietnam and Watergate John F Kennedy and Richard Nixon each dreamed of becoming the great young leader of their age First as friends then as bitter enemies they were linked by a historic rivalry that changed both them and their country Fresh entertaining and revealing Kennedy Nixon reveals that the early fondness between the two men Kennedy for example told a trusted friend that if he didn't receive the Democratic nomination in 1960 he would vote for Nixon degenerated into distrust and bitterness Using White House tapes this book exposes Richard Nixon's dread of a Kennedy restoration in 1972 drove the dark deeds of Watergate Matthews tells his stories well and Americans have a seemingly bottomless need to have these stories retold The New York Times Book Review **Kennedy** Hugh Brogan, 2014-07-10 This invaluable account provides an excellent introduction to the Presidency of John F Kennedy To understand Kennedy's aims and achievements in the White House it looks at Kennedy the man and outlines his background and early career and the influences upon him Hugh Brogan shows Kennedy as a credible statesman a man of solid achievement His record as President was broadly impressive and would have been more so had he lived Jet, 2001-03-19 The weekly source of African American political and entertainment news **The Record** United States. National Archives and Records Administration, 1995 **America in the Sixties** John Robert Greene, 2010-10-21 In America in the Sixties Greene goes beyond the clichés and synthesizes thirty years of research writing and teaching on one of the most turbulent decades of the twentieth century Greene sketches the well known players of the period John F Kennedy Lyndon B Johnson Martin Luther King Jr Malcolm X and Betty Friedan bringing each to life with subtle detail He introduces the reader to lesser known incidents of the decade and offers fresh and persuasive insights on many of its watershed events Combining an engrossing narrative with intelligent analysis America in the Sixties enriches our understanding of that pivotal era **The National Archives** United States. National Archives and Records Administration, 1995 **National Archives and Records Administration Annual Report** United States. National Archives and Records Administration, 1995 **Victura** James W. Graham, 2015-09 How one small sailboat taught the Kennedys about life family leadership and winning *John F. Kennedy* Michael O'Brien, 2006-05-16 John F Kennedy creates an absorbing insightful and distinguished biography of one of America's most legendary Presidents While current fashion in Kennedy scholarship is to deride the man's achievements this book describes Kennedy's strengths explains his shortcomings and offers many new revelations There are

many specialized books on Kennedy's career but no first class modern biography one that takes advantage of the huge volume of recent books and articles and new material released by the JFK library Ten years in the making this is a balanced and judicious profile that goes beyond the clash of interpretations and offers a fresh nuanced perspective **Myth of Liberal Ascendancy** G. Williams Domhoff, 2015-11-17 Based on new archival research G Williams Domhoff challenges popular conceptions of the 1930's New Deal Arguing instead that this period was one of increasing corporate dominance in government affairs affecting the fate of American workers up to the present day While FDR's New Deal brought sweeping legislation the tide turned quickly after 1938 From that year onward nearly every major new economic law passed by Congress showed the mark of corporate dominance Domhoff accessibly portrays documents of the Committee's vital influence in the halls of government supported by his interviews with several of its key employees and trustees Domhoff concludes that in terms of economic influence liberalism was on a long steady decline despite two decades of post war growing equality and that ironically it was the successes of the civil rights feminist environmental and gay lesbian movements not a new corporate mobilisation that led to the final defeat of the liberal labour alliance after 1968

Managing the American Economy, from Roosevelt to Reagan Nicolas Spulber, 1989 Describes and evaluates the views of theorists and practitioners directly involved with four major economic events in American history **The Rise of Big Government** Harold G. Vatter, John F. Walker, 2015-02-24 The Rise of Big Government chronicles the phenomenal growth of local state and federal government over the last 100 years The authors explain this growth by arguing that public and social acceptance of government intervention has allowed government to maintain a presence at all levels of the economy The authors take issue with the opposing argument that government has grown by itself and by the bureaucracy's constant push for its own expansion
