Keralas Economy Performance Problems Prospects:

Kerala's Economy B. A. Prakash, 1994 The unique development experience of the Indian state of Kerala has attracted widespread interest However no serious attempt has so far been made to comprehensively assess both the positive and negative features of Kerala's economy This timely volume amply fills this lacuna by providing a detailed examination of the development growth and problems of the state's economy over the period 1956 to 1991 while also outlining the prospects Twenty two leading economists discuss in this volume a number of crucial issues such as the decline in the rate of growth of the state's economy the alarming rise in unemployment the repatriation of Gulf migrants agricultural stagnation industrial backwardness and the financial crisis presently afflicting Kerala Divided in six parts the volume begins with an overview of broad trends in Kerala's economy The second section contains essays on demographic trends the changing structure of the workforce poverty and migration The next part deals with issues pertaining to the agricultural and allied sectors including marine fisheries The fourth section comprises papers on both small scale and heavy industry and the power sector while the next one discusses trade unionism educational development and Kerala's external economy The last section examines recent trends in the state's finances Presenting a data based and analytical account of the most recent trends in Kerala's economy this comprehensive book will be of considerable interest not only to students and scholars of economics political economy and development studies but also to policy makers and organisations involved in development work *Kerala: the Development Experience* Govinda Parayil, 2000-08-12 At a time when disillusion with neo liberal development nostrums is mounting alternative models of development are being revisited Kerala's 30 million people may not have experienced rapid growth in GDP per capita but they have for the past several decades achieved a remarkable social record in terms of adult literacy infant mortality life expectancy stabilising population growth and narrowing gender and spatial gaps What are the implications of the disjuncture between human development and economic growth What are the political social and cultural factors responsible for Kerala's success Does its human development record necessarily relate to sustainability in environmental terms How inclusive has the Kerala model been particularly for the fishing community and other socially marginalised groups Can the new people's campaign for decentralised development from below make Kerala's development experience more enduring What realistic view can be taken of its replicability elsewhere in India or further afield in the South These are among the most important questions explored in this timely reassessment Rethinking Development, 1999 Papers presented at the International Conference on Kerala's Development Experience organized in New Delhi from 8 to 11 December 1996 *Social Development in Kerala: Illusion or Reality?* Sundar Ramanathaiyer, Stewart MacPherson, 2018-02-05 This title was first published in 2000 There has been considerable academic interest in the innovative development programme taking place in Kerala India Much has been published on the specific achievements of the programme such as literacy health care communication and demographic indicators However lurking beneath the

surface are the harsh realities of chronic unemployment poverty and deprivation among the elderly and weaker sections of the society the oppression of women and the inefficiency of the government These problems are revealed in this book through in depth empirical research undertaken by a native Keralan In the light of this material this text questions whether the Kerala model of development should indeed be regarded as worth emulation Kerala's Economic Development B A Prakash,2004-09-22 This entirely new edition of a successful textbook provides a detailed understanding of Kerala s economic backwardness the reforms required and the performance of the economy during the post liberalisation period This collection of 17 original essays focusing on current economic problems and development issues affecting Kerala will serve as a basic textbook for graduate and post graduate students of Kerala s economy *Political Economy of Development in India* Darley Kjosavik,Nadarajah Shanmugaratnam,2015-06-05 In the Global South indigenous people have been continuously subjected to top down and often violent processes of post colonial state and nation building This book examines the development dilemmas of the indigenous people adivasis of the Indian state of Kerala It explores the different facets of change in their lives and livelihoods in the context of modernisation under different political regimes As part of the Indian Union Kerala followed a development approach in tune with the Government of India with regard to indigenous communities However within the framework of India s quasi federal polity the state of Kerala has been tracing a development path of its own which has come to be known as the Kerala model of development Adopting a historical political economic approach the book locates the adivasi communities in the larger contextual shifts from late colonialism through the post independence years and critically analyses the Kerala model of development with particular reference to the adivasis changing political status and rights to land It pays special attention to policy dynamics in the neoliberal phase and the actual practices of decentralisation as a way of including the socially excluded and marginalised Offering a theoretical elaboration of the interaction between class and indigeneity based on intensive fieldwork in Kerala the book addresses adivasi development in relation to the general development experience of Kerala and goes on to relate this particular study to the global context of indigenous people s struggles It will be of interest to those working in the fields of South Asian Development Political Economy and South Asian Politics Social Mobility in Kerala Filippo Osella,Caroline Osella,2000-12-20 The Izhavas are an ex untouchable community in the southern Indian state of Kerala Politically and economically weak stigmatised as toddy tappers and devil dancers and considered unapproachable by clean caste Hindus a century ago Izhavas were associated with other manual labouring untouchable castes In recent decades they have sought to improve their position by accumulating economic symbolic and cultural capital through employment religion politics migration marriage education and have tried to assert their right to mobility often in the face of opposition from their high status Christian and Nayar neighbours This study examines how Izhavas through repudiation of their nineteenth century identity and search for mobility have come into complex relationships with modernity colonialism and globalisation Filippo Osella and Caroline Osella highlight the

complexities and contradictions of modern identity both locally and globally The authors approach builds upon and goes beyond a south Asian focus showing how the Izhavas represent the rise of formerly stigmatised groups who remain at the same time trapped by stereotype and material disadvantage Absolute mobility they argue has not led to relative mobility within a society which remains stratified and prone to new forms of social exclusion *Kerala Development Report* India. Planning Commission,2008 Full of data on various sectors and issues among them finance tourism foreign trade agriculture and governance this report on the state of Kerala is designed to benefit businesses NGOs and policy makers While Kerala has a strong economy and is India s most literate state areas such as human rights and the treatment of women and minorities leave room for improvement This extensive reference discusses the constraints and challenges faced by Kerala and provides a blueprint for its socioeconomic progress *Entrepreneurs of Kerala* Shally Joseph,2003 Studies on growth and development of SSI s have always occupied a very prominent position in scientific research During recent times scientists have been interested in understanding how the growth and development of SSI s are governed by the entrepreneurship of the people The study investigates various aspects of entrepreneurs It explores the effects of socio psychological background of the entrepreneur on the success and failure of the enterprise the author also highlights the motivational factors that induce the entrepreneur to the field The book also draws the personal characteristics of a successful Kerala entrepreneur The findings will prove an essential reading to those who are engaged in training the entrepreneurs It would be most useful for academicians planners bureaucrats politicians and the various persons concerned in the development of SSI s and entrepreneurship It is our hope that the book will provide a fresh stimulus for the researchers and scholars alike *Issues in Indian Economy* K.R. Gupta,1995 During The Last Four Years The Indian Economy Has Been Undergoing Phenomenal Changes Licensing And Controls Are Being Dismantled Nationalisation Is Giving Place To Privatisation Import Of Capital And Technology Is Being Liberalised Terms And Conditions For The Import Of Capital And Technology Are Being Eased Attractive Terms Are Being Offered To Multinationals To Induce Them To Set Up Production Units In India Fast Progress Is Being Made In The Direction Of Making The Rupee Completely Convertible Imports Have Been Liberalised Import Duties Have Been Drastically Reduced More And More Items Have Been Added To The Ogl List Bank Interest Rates Have Been Freed In Order To Make A Critical Analysis Of The Changes That Are Taking Place In Various Fields Of The Indian Economy We Have Planned To Bring Out Five Volumes Covering Different Fields And Including Different Shades Of Opinions The Present Is The First Volume Of The Planned Five Volumes The Contributors Of This Volume Are Leading Experts In Their Respective Fields It Is Hoped That The Book Would Be Found Useful By The Researchers And Students Of Economics Businessmen Government Executives Concerned With The Formulation And Execution Of Economic Policies Parliamentarians And Legislators And The General Readers Interested In Knowing The Changes That Are Taking Place In Our Economy

Dynamics of Rural Labour Babu P. Remesh,2010 Study on the economic aspects of Rubber tappers of Kerala and the

industry's trade issues **Land Rights in India** Varsha Bhagat-Ganguly, 2015-12-14 This volume engages with the topical issue of land rights in neoliberal India. It examines government policies, laws, land governance and land reforms from the perspective of social justice and people's response to dispossession of land. Looking beyond the dominant discourse of land acquisition and the conception of land as a commodity for economic growth, the book explores critical themes including issues of social identity, culture, livelihood and food security through a study of land reform, reviews existing land policies and legal dimensions and discusses issues and challenges of land governance and land dependents as well as perspectives from people's movements. Lucidly written, based on empirical research and comprehensive in its treatment of a contentious concern, this volume will be useful to scholars and researchers of economics and public policy, development studies, political science and political economy. It will also interest scholars of South Asian studies and sociology.

Social Work Research
 Alex Akhup, Biswaranjan Tripura, Bipin Jojo, 2025-07-25 This book, sourced from the experience of the social work researchers, educators and practitioners, offers for the first time from the Indian context a reflexively situated and insightful pathway to social work research and theorising practice that underlines the importance of methodologies in fields of practice, epistemologies, localities and positionalities embedded at varied sites of practices. This understanding is built on the observation that research capturing specific fields of subjectivities, rural tribal communities, women, children and youth and persons with disabilities located in the Indian contexts, responds to social issues in complex and diverse situations, a relational ontology. It underscores the scope and new possibilities of research in the Social Work discipline and its function in contextualizing fields of practice. The strength of the book lies in capturing and visibilizing these varied sites of practices through research practice continuum approach while demonstrating the primacy of methodologies of practice in building a social work knowledge, i.e. democratic, emancipatory and locally empowering. Accordingly, the book suggests that strengthening of social work research and theorising practice would entail recognition of methodologies in fields of practice in the context. In doing so, the book underlines the need to take a decolonial approach and intends to strengthen practice-based knowledge for an immediate reference point for social work scholars, researchers, educators, practitioners, administrators and policymakers.

India's Villages in the 21st Century Surinder S. Jodhka, Edward Simpson, 2019-09-05 Post India's economic liberalization in the 1990s, the village ceased to be central to ongoing sociological concerns. As a result, the period saw a marginalization of rural life and agrarian economy in the national imagination. However, in the 21st century, as India transforms, so does its rural life. This book revisits the realities of contemporary rural India, exploring the trajectories of change across regions such as those in rural economies, the relationship of villages to the outside world and the dynamics of caste inequalities. The volume puts together 14 papers based on empirical studies carried out by sociologists, social anthropologists and economists over the past 15 years to begin a holistic conversation on contemporary rural India, which continues to be an important site of social, political and economic activities. *India's Villages in the 21st Century* stresses

diversity as a fundamental structure of Indian economy and society and illustrates the point by focusing on the economies patterns of settlements and organization of social and political life in India s villages

Democracy at Work in an Indian Industrial Cooperative Richard W. Franke,Pyralal Raghavan,T. M. Thomas Isaac,2018-05-31 The authors tell the story of a democratic workers cooperative that makes hand rolled cigarettes known as beedis in the unorganized sector of a fiercely competitive capitalist economy in India For decades beedi workers have been among the most exploited and impoverished of India s work force In 1969 in the southwestern Indian state of Kerala several thousand workers banded together to form a worker owned beedi cooperative The authors argue that their skill and determination combined with Kerala s generally leftist political culture allowed them to beat the odds The cooperative surprised the private sector beedi barons by creating an enterprise that has lasted and prospered offering the best wages and benefits in the business while making a profit and contributing to the local economy The authors analyze the major features of the cooperative assessing its overall structure worker elected management shop floor democracy and progress in providing a better life for its worker owners Tensions are also discussed including the complaints of women workers and the need for diversification from tobacco

Modernization and Effeminization in India Anna Lindberg,2005 Although Kerala is well known for being one of India s most progressive states processes of modernization have had an ambiguous impact on women This innovative study combines archival research with in depth fieldwork to trace changes since the 1930s in gender relations among low caste men and women by examining organization of work trade union activities and ideologies regarding marriage and family life

The Indian Economy Since 1991: Economic Reforms and Performance Prakash Alwin,2008 The Indian Economy Since 1991 Economic Reforms and Performance is an edited volume based on the UGC s model curriculum for Indian Economic Policy meant for all universities in India Each chapter is contributed by an expert in the specific area being addressed and this book presents the policies formulated in each sector or sub sector and the resultant changes during the post reform period 1991 2008 This volume examines the impact of economic reforms on fronts as varied as the fiscal situation of government of India state finances money capital market external sector agriculture industry power health education employment unemployment and poverty

Democratization in the Third World Lars Rudebeck,Olle Törnquist,Virgilio Rojas,2016-07-27 Democratization in the Third World addresses many current issues of development democratization and civil society in countries in Asia Africa and Latin America against the background of theoretical introductions and comparisons with the Swedish historical experience of democratisations The authors from seven different continents examine civil society and its relation to the state throughout the world and assess prospects for sustainable democratization

The Indian Economy Since 1991: Economic Reforms and Performance, 2/e B. A. Prakash,2011 The Indian Economy Since 1991 Economic Reforms and Performance is the outcome of a collaborative effort by 28 experts who have made significant contributions in research toward the Indian economy Using a data based analytical approach to key economic issues and problems coupled

with extensive coverage and a critical and in depth analysis of the developments in all major sub sectors of the Indian economy this edited volume examines the impact of the reforms on various fronts such as economic performance employment unemployment planning process financial and fiscal sectors external sector agriculture industry infrastructure health education poverty and federal finance since 1991 Economic Exclusion and Discrimination: The Experiences of Minorities and Indigenous Peoples Patricia Justino, Julie Litchfield, 2003-08-08 This issues paper aims to evaluate the link between economic exclusion and discrimination against ethnic religious and linguistic minorities and indigenous peoples Non discrimination is one of the most fundamental human rights recognized in international law and most national constitutions yet discrimination against minorities persists This implies huge costs for individuals and communities that are discriminated against and society in general Although as the authors of this paper point out there are difficulties over definitions and data limitations there is evidence to show that across diverse regions minorities and indigenous peoples experience higher levels of poverty less access to education health care and basic services and have fewer employment opportunities than the general population Hence minorities and indigenous peoples are more likely to suffer economic and social and political exclusion than other groups Development actors do not well understand the relationship between discrimination and poverty This paper argues that discrimination is an important element in economic exclusion and must be addressed to establish sustainable development
