Key Moments Of The Italian Renaissance

Lionel Gossman

Key Moments Of The Italian Renaissance:

Imagined Histories Anthony Molho, Gordon S. Wood, 2018-06-05 This collection of essays by twenty one distinguished American historians reflects on a peculiarly American way of imagining the past At a time when history writing has changed dramatically the authors discuss the birth and evolution of historiography in this country from its origins in the late nineteenth century through its present more cosmopolitan character In the book s first part concerning recent historiography are chapters on exceptionalism gender economic history social theory race and immigration and multiculturalism Authors are Daniel Rodgers Linda Kerber Naomi Lamoreaux Dorothy Ross Thomas Holt and Philip Gleason The three American centuries are discussed in the second part with chapters by Gordon Wood George Fredrickson and James Patterson The third part is a chronological survey of non American histories including that of Western civilization ancient history the middle ages early modern and modern Europe Russia and Asia Contributors are Eugen Weber Richard Saller Gabrielle Spiegel Anthony Molho Philip Benedict Richard Kagan Keith Baker Joseph Zizak Volker Berghahn Charles Maier Martin Malia and Carol Gluck Together these scholars reveal the unique perspective American historians have brought to the past of their own nation as well as that of the world Formerly writing from a conviction that America had a singular destiny American historians have gradually come to share viewpoints of historians in other countries about which they write The result is the virtual disappearance of what was a distinctive American voice That voice is the subject of this book

Modernist Idealism

Michael J. Subialka, 2021-11-11 Italy at the Banquet of Nations Hegel in Politics and Philosophy Italy s Modernist Idealism and the Artistic Reception of Schopenhauer Aesthetic Decadence and Modernist Idealism Schopenhauer s Literary Artistic Legacy Avant Garde Idealism The Ambivalence of Futurist Vitalism Occult Spiritualism and Modernist Idealism Reanimating the Dead World Cinematic Idealism Modernist Visions of Spiritual Vitality Mediated by the Machine

The Oxford

Handbook of the Ancien Régime William Doyle, 2011-11-10 In The Oxford Handbook of the Ancien Régime an international team of thirty contributors survey and present current thinking about the world of pre revolutionary France and Europe The idea of the Ancien Régime was invented by the French revolutionaries to define what they hoped to destroy and replace But it was not a precise definition and although historians have found it conceptually useful there is wide disagreement about what the Ancien Régime s main features were how they worked how old they were how far they stretched how dynamic or inert they were and how far the revolutionaries succeeded in their ambitions to eradicate them In this wide ranging and authoritative collection old and newer areas of research into the Ancien Régime are presented and assessed and there has been no attempt to impose any sort of consensus The result shows what a lively field of historical enquiry the Ancien Régime remains and points the way towards a range of promising new directions for thinking and writing about the intriguing complex of historical problems which it continues to pose

Art History: The Basics Diana Newall, Grant Pooke, 2008-03-10 Art History The Basics is a concise and accessible introduction for the general reader and the undergraduate approaching

the history of art for the first time at college or university It will give you answers to questions like What is art and art history What are the main methodologies used to understand art How have ideas about form sex and gender shaped representation What connects art with psychoanalysis semiotics and Marxism How are globalization and postmodernism changing art and art history Each chapter introduces key ideas issues and debates in art history including information on relevant websites and image archives Fully illustrated with an international range of artistic examples Art History The Basics also includes helpful subject summaries further ideas for reading in each chapter and a useful glossary for easy reference

The Symbolic Construction of Reality Jeffrey Andrew Barash, 2010-10 In 1933 eminent philosopher Ernst Cassirer 1874 1945 fled Nazi Germany for the United States His fame in Europe having already been established through a public debate with Martin Heidegger in 1929 Cassirer would go on to become a noteworthy influence on American culture His most important early writings focused on the symbol and symbolic

Ancient Models in the Early Modern Republican Imagination, 2017-10-02 Ancient Models in the Early Modern Republican Imagination edited by Wyger Velema and Arthur Weststeijn approaches the early modern republican political imagination from a fresh perspective While most scholars agree on the importance of the classical world to early modern republican theorists its role is all too often described in rather abstract and general terms such as classical republicanism or the neo roman theory of free states The contributions to this volume propose a different approach and all focus on the specific ways in which ancient republics such as Rome Athens Sparta and the Hebrew Republic served as models for early modern republican thought The result is a novel interpretation of the impact of antiquity on early modern republicanism

The Art of Commedia M A Katritzky, 2006-01-01 Italian comedians attracted audiences to performances at every level from the magnificent Italian German and French court festival appearances of Orlando di Lasso or Isabella Andreini to the humble street trestle lazzi of anonymous quacks The characters they inspired continue to exercise a profound cultural influence and an understanding of the commedia dell arte and its visual record is fundamental for scholars of post 1550 European drama literature art and music The 340 plates presented here are considered in the light of the rise and spread of commedia stock types and especially Harlequin Zanni and the actresses Intensively researched in public and private collections in Oxford Munich Florence Venice Paris and elsewhere they complement the familiar images of Jacques Callot and the Stockholm Recueil Fossard within a framework of hundreds of significant pictures still virtually unknown in this context These range from anonymous popular prints to pictures by artists such as Ambrogio Brambilla Sebastian Vrancx Jan Bruegel Louis de Caulery Marten de Vos and members of the Valckenborch and Francken clans This volume essential for commedia dell arte specialists represents an invaluable reference resource for scholars students theatre practitioners and artists concerned with commedia related aspects of visual dramatic and festival culture in and beyond Italy

Artaud and His Doubles Kimberly Jannarone, 2012-06-26 Artaud and His Doubles is a radical re thinking of one of the most influential theater figures of the twentieth century Placing Artaud's writing within the specific context of European

political theatrical and intellectual history the book reveals Artaud's affinities with a disturbing array of anti intellectual and reactionary writers and artists whose ranks swelled catastrophically between the wars in Western Europe Kimberly Jannarone shows that Artaud's work reveals two sets of doubles one a body of peculiarly persistent received interpretations from the American experimental theater and French post structuralist readings of the 1960s and two a darker set of doubles those of Artaud's contemporaries who in the tumultuous alienated and pessimistic atmosphere enveloping much of Europe after World War I denounced the degradation of civilization yearned for cosmic purification and called for an ecstatic loss of the self Artaud and His Doubles will generate provocative new discussions about Artaud and fundamentally challenge the way we look at his work and ideas Defining Art, Creating the Canon Paul Crowther, 2007-03-15 A lively and accessible read suitable for non philosophers this book reinvestigates central debates in aesthetics and art theory The book is split into three parts Culture and Artistic Value The Aesthetic and the Artistic and Distinctive Modes of Imaging **New Approaches to Naples c.1500-c.1800** Helen Hills, 2016-04-22 Early modern Naples has been characterized as a marginal wild and exotic place on the fringes of the European world and as such an appropriate target of attempts by Catholic missionaries and others to civilize the city Historiographically bypassed in favour of Venice Florence and Rome Naples is frequently seen as emblematic of the cultural and political decline in the Italian peninsula and as epitomizing the problems of southern Italy Yet as this volume makes plain such views blind us to some of its most extraordinary qualities and limit our understanding not only of one of the world's great capital cities but also of the wider social cultural and political dynamics of early modern Europe As the centre of Spanish colonial power within Europe during the vicerealty and with a population second only to Paris in early modern Europe Naples is a city that deserves serious study Further as a Habsburg dominion it offers vital points of comparison with non European sites which were subject to European colonialism While European colonization outside Europe has received intense scholarly attention its cultural impact and representation within Europe remain under explored Too much has been taken for granted Too few questions have been posed In the sphere of the visual arts investigation reveals that Neapolitan urbanism architecture painting and sculpture were of the highest quality during this period while differing significantly from those of other Italian cities For long ignored or treated as the subaltern sister of Rome this urban treasure house is only now receiving the attention from scholars that it has so long deserved This volume addresses the central paradoxes operating in early modern Italian scholarship It seeks to illuminate both the historiographical pressures that have marginalized Naples and to showcase important new developments in Neapolitan cultural history and art history Those developments showcased here include bot **The Universe Within** Neil Turok, 2012-09-05 With The Universe Within's deeply thoughtful reflections on the place of science in society on the need to educate the underserved and on plenty of other topics rarely addressed in this sort of book Turok takes you where no physicist has gone before It's well worth making the journey with him TIME Magazine Winner of the Lane Anderson Award

longlisted for the Charles Taylor Prize shortlisted for the Libris Award for Non Fiction and selected as an Amazon.ca Best Book The most anticipated nonfiction book of the season this year's Massey Lectures is a visionary look at the way the human mind can shape the future by world renowned physicist Neil Turok Every technology we rely on today was created by the human mind seeking to understand the universe around us Scientific knowledge is our most precious possession and our future will be shaped by the breakthroughs to come In this personal visionary and fascinating work Neil Turok Director of the Perimeter Institute for Theoretical Physics explores the transformative scientific discoveries of the past three centuries from classical mechanics to the nature of light to the bizarre world of the quantum and the evolution of the cosmos Each new discovery has over time yielded new technologies causing paradigm shifts in the organization of society Now he argues we are on the cusp of another major transformation the coming quantum revolution that will supplant our current dissatisfying digital age Facing this brave new world Turok calls for creatively re-inventing the way advanced knowledge is developed and shared and opening access to the vast untapped pools of intellectual talent in the developing world Scientific research training and outreach are vital to our future economy as well as powerful forces for peaceful global progress Elegantly written deeply provocative and highly inspirational *The Universe Within* is above all about the future of science of society of ourselves

Women on Philosophy of Art Alison Stone, 2024-08-14 *Women on Philosophy of Art* is the first study of women's philosophies of art in long nineteenth century Britain It looks at seven women spanning the time from the Enlightenment to the beginning of modernism They are Anna Barbauld Joanna Baillie Harriet Martineau Anna Jameson Frances Power Cobbe Emilia Dilke and Vernon Lee The central issue that concerned them was how art related to morality and religion Baillie and Martineau treated art as an agency of moral instruction whereas Dilke and Lee argued that art must be made for beauty's sake Barbauld Jameson and Cobbe thought that beauty and religion were linked while other women believed that art and religion must be decoupled Other topics explored are gender and genius tragedy literary realism why we enjoy the sufferings of fictional characters the hierarchy of the art forms whether art can transcend its historical circumstances and critical issues around the artistic canon Examining the print culture that made these women's interventions possible this book shows that these women were doing a particular kind of philosophy of art which was interdisciplinary and closely tied to artistic criticism and practice The book traces how these seven women influenced one another as well as engaging with their male contemporaries But unlike their male interlocutors these women have been unjustly left out of narratives about the history of aesthetics By including these women we can enrich and broaden our understanding of the history of philosophy of art

Europe, 1500-1600 J. A. P. Jones, 1997 *Challenging History* encourages your students to take responsibility for their own learning through individual research It motivates your students with accessible and attractive layouts clear vocabulary and text and engages their interest providing them with intellectual and analytical challenges Evidence sections talking points and well structured activities encourage students to think deeply

about the issues presented to them Covering all key aspects of European history the Challenging History series provides a wealth of information from the fifteenth to the twentieth century

The Oxford Handbook of Andrew Marvell Martin Dzelzainis, Edward Holberton, 2019-03-28 The Oxford Handbook of Andrew Marvell is the most comprehensive and informative collection of essays ever assembled dealing with the life and writings of the poet and politician Andrew Marvell 1621-78 Like his friend and colleague John Milton Marvell is now seen as a dominant figure in the literary landscape of the mid-seventeenth century producing a stunning oeuvre of poetry and prose either side of the Restoration In the 1640s and 1650s he was the author of hypercanonical lyrics like *To His Coy Mistress* and *The Garden* as well as three epoch-defining poems about Oliver Cromwell After 1660 he virtually invented the verse genre of state satire as well as becoming the most influential prose satirist of the day in the process forging a long-lived reputation as an incorruptible patriot Although Marvell himself was an intensely private and self-contained character whose literary, religious, and political commitments are notoriously difficult to discern the interdisciplinary contributions by an array of experts in the fields of seventeenth-century literature, history, and politics gathered together in the Handbook constitute a decisive step forward in our understanding of him They offer a fully rounded account of his life and writings individual readings of his key works considerations of his relations with his major contemporaries and surveys of his rich and varied afterlives Informed by the wealth of editorial and biographical work on Marvell that has been produced in the last twenty years the volume is both a conspectus of the state of the art in Marvell studies and the springboard for future research

Basel in the Age of Burckhardt Lionel Gossman, 2002-04-15 This remarkable history tells the story of the independent city-republic of Basel in the nineteenth century and of four major thinkers who shaped its intellectual history: the historian Jacob Burckhardt, the philologist and anthropologist Johann Jacob Bachofen, the theologian Franz Overbeck, and the philosopher Friedrich Nietzsche Remarkable and exceptionally readable There is wit, wisdom, and an immense erudition on every page Jonathan Steinberg *Times Literary Supplement* Gossman's book, a product of many years of active contemplation, is a tour de force It is at once an intellectual history, a cultural history of Basel and Europe, and an important contribution to the study of nineteenth-century historiography Written with a grace and elegance that many aspire to, few seldom achieve, this is model scholarship John R. Hinde *American Historical Review*

Essential Skills for Historians J. Laurence Hare, Jack Wells, Bruce E. Baker, 2019-10-31 *Essential Skills for Historians* helps undergraduate students make the transition from general university study to a more in-depth study of history and to gain the skills and techniques they need to conduct an independent research project or embark on a career as a professional historian The book begins with an examination of the historical discipline and its relevance to contemporary culture It then guides readers through the steps of developing a research project using two sample projects that illustrate the connections between core proficiencies such as critical thinking and effective time management and professional proficiencies such as source criticism and historical interpretation By following these source

projects as they develop the book also highlights the importance of sound historical practice and a critical understanding of the past in contemporary society Finally the book discusses the outcomes of historical research and reveals the wide array of possibilities for careers built upon the skills gained from studying history Covering key topics such as research strategies reading sources effective writing and professional ethics and with useful features such as glossaries guidelines for student projects hands on exercises further reading and a companion website containing extra resources Essential Skills for Historians equips aspiring historians with everything they need to succeed whilst also demonstrating the value of history in the wider world
