**Pre-legislative Scrutiny of the Draft Apprenticeships Bill** Great Britain. Parliament. House of Commons. Innovation, Universities, Science and Skills Committee, 2008 This is the Committee s scrutiny of the draft Apprenticeships Bill which was published on 16 July 2008 While putting much of the current arrangements for apprenticeships onto a statutory basis the draft Bill provides greater flexibility to allow employers to design and bring forward for approval their own apprenticeship frameworks The extent of this flexibility was not clear as a key document the specification of apprenticeship standards which

will determine the core components of frameworks was not published with the draft Bill Nor did the Government set out in detail how the National Apprenticeship Service would be resourced or organised or how the legislation would apply in Wales These as key omissions impeded the scrutiny process With this in mind it was concluded that in general the legislation is justified because it has the potential to strengthen the structure for apprenticeships in England However there was a major concern of volume at the expense of quality The Government must ensure that the draft Bill is re written to promote monitor and report on the quality of apprenticeships Without provisions underpinning quality the legislation risks the devaluation of apprenticeships and employers parents and young people as well as adults will cease to see apprenticeships as a progressive route through to a future career **Teaching Creative Arts & Media 14+** May, Markham, Warr, Sue, 2011-04-01 This book offers guidance and ideas on how to make creative arts and media teaching relevant stimulating and above all creative
