

Education In A Divided World

Annie Abrams

Education In A Divided World:

Education in a Divided World James Bryant Conant, 1969 **Education in a Divided World the Function of the Public Schools in Our Unique Society, by James Bryant Conant** James Bryant Conant, 1948 **World Yearbook of Education 2001** Jo Cairns, Roy Gardner, Denis Lawton, 2012-11-12 This yearbook on education for 2001 brings together leading international voices on values in education and presents a window on current debates These include such fundamental issues as who should decide upon the values we adopt *Scholarly Leadership in Higher Education* Wayne J. Urban, 2020-04-02 Urban provides an intellectual history of Harvard presidency of James Bryant Conant 1933 1953 situating it within the broader international landscape and drawing out the implication for the current state of higher education with reference to specific leadership policy issues in the sector Throughout this volume Urban explores the ways in which Conant achieved largely successful attempts to modernize Harvard by upgrading both its student body and its faculty He explores the intellectual excellence agenda that Conant pursued both with students and academics and the ramifications of this He also considers the nature of Conant s part time handling of the role of president the way he delegated campus control to his Provost Paul Buck and the ways the two operated together and separately Urban also looks at Conant s own intellectual breadth as scientist and humanist which showed itself prominently in his activities in pursuit of general education reform Conant s combination of intellect and agenda was unusual for a president in his own time and is exceedingly rare if not completely missing in contemporary university presidencies In exploring this innovative president s time in office at Harvard Urban offers pertinent ideas to today s leaders of higher education The Rotarian , 1949-11 Established in 1911 The Rotarian is the official magazine of Rotary International and is circulated worldwide Each issue contains feature articles columns and departments about or of interest to Rotarians Seventeen Nobel Prize winners and 19 Pulitzer Prize winners from Mahatma Ghandi to Kurt Vonnegut Jr have written for the magazine **Education Legislation -- 1963** United States. Congress. Senate. Committee on Labor and Public Welfare. Subcommittee on Education, 1963 Considers legislation to expand and extend various educational programs including student loans teacher education and school and library construction

Shortchanged Annie Abrams, 2023-04-25 Shortchanged is a brilliant book The Washington Post Author and high school English teacher Annie Abrams reveals how the College Board s emphasis on standardized testing has led the AP program astray Every year millions of students take Advanced Placement AP exams hoping to score enough points to earn college credit and save on their tuition bill But are they getting a real college education The College Board says that AP classes and exams make the AP program more accessible and represent a step forward for educational justice But the program s commitment to standardized testing no longer reflects its original promise of delivering meaningful college level curriculum to high school students In Shortchanged education scholar Annie Abrams uncovers the political and pedagogical traditions that led to the program s development in the 1950s In revealing the founders intentions of aligning liberal arts education

across high schools and colleges in ways they believed would protect democracy Abrams questions the collateral damage caused by moving away from this vision The AP program is the College Board s greatest source of revenue yet its financial success belies the founding principles it has abandoned Instead of arguing for a wholesale restoration of the program Shortchanged considers the nation s contemporary needs Abrams advocates for broader access to the liberal arts through robust public funding of secondary and higher education and a dismantling of the standardized testing regime Shortchanged illuminates a better way to offer a quality liberal arts education to high school students while preparing them for college

Education Legislation, 1963 United States. Congress. Senate. Committee on Labor and Public Welfare,1963 **James B. Conant** James G. Hershberg,1995 James B Conant 1893 1978 was one of the giants of the American establishment in the twentieth century President of Harvard University from 1933 to 1953 he was also a scientist who led the US government s effort to develop weapons of mass destruction and his story mirrors the transition of the United States from isolationism to global superpower at the dawn of the nuclear age This splendid portrait of Conant illuminates the life of a pivotal figure in the making of US nuclear scientific educational and foreign policy for almost half a century But the book is much more it is not only an insightful narration of Conant s life it is also a brilliant and important account of the making of the nuclear age a chronicle that contains much that is new TheWashington Post The bomb would be as much Conant s as it was anyone s in government His inner response to that burden of responsibility has long been obscured but it is illumined here This is a model of historiography that is evocative reading The New York Times Book Review Vibrantly written and compelling it breaches Conant s shield of public discretion in masterly fashion *Reframing the Subject* Kelly Ritter,2016-01-23 Mental hygiene films developed for classroom use touted vigilance correct behavior morality and model citizenship They also became powerful tools for teaching literacy skills and literacy based behaviors to young people following the Second World War In this study Kelly Ritter offers an extensive theoretical analysis of the alliance of the value systems inherent in mental hygiene films class based ideals democracy patriotism with writing education an alliance that continues today by way of the mass digital technologies used in teaching online She further details the larger material and cultural forces at work in the production of these films behind the scenes and their effects on education trends Through her examination of literacy theory instructional films policy documents and textbooks of the late 1940s to mid 1950s Ritter demonstrates a reliance on pedagogies that emphasize institutional ideologies and correctness over epistemic complexity and de emphasize the role of the student in his or her own learning process To Ritter these practices are sustained in today s pedagogies and media that create a false promise of social uplift through formalized education instead often resulting in negative material consequences

James B. Conant: Harvard to Hiroshima and the Making of the Nuclear Age James Hershberg,2019-07-31 James B Conant 1893 1978 was one of the titans of mid 20th century American history attaining prominence and power in multiple fields Usually remembered as an educational leader he was president of Harvard University for two tumultuous decades from

the Depression to World War II to the Cold War and McCarthyism To take that job he gave up a scientific career as one of the country's top chemists and he left it twenty years later to become Eisenhower's top diplomat in postwar Germany Hershberg's prize winning study however examines a critical aspect of Conant's life that was long obscured by government secrecy his pivotal role in the birth of the nuclear age During World War II as an advisor to Roosevelt and then Truman on the elite Interim Committee that considered how to employ the bomb against Japan Conant was intimately involved in the decisions to build and use the atomic bomb During and after the Manhattan Project he also led efforts to prevent a postwar nuclear arms race between the United States and the Soviet Union that he feared threatened the survival of civilization an apocalyptic prospect he glimpsed in the first instant of the new age when he witnessed the first test of the new weapon at Alamogordo on July 16 1945 a vivid inquiry a model of historiography evocative reading Conant was central to atomic policy and progress the bomb would be as much Conant's as it was anyone's in Government His inner response to that burden responsibility has long been obscured but it is illumined here Philip Morrison The New York Times Book Review In his splendid portrait of Conant James Hershberg has illuminated the life of a pivotal figure in the making of U S nuclear scientific educational and foreign policy for almost a half century But the book is much more It is not only an insightful narration of Conant's life it is also a brilliant and important account of the making of the nuclear age a chronicle that contains much that is new Hershberg's superb study is a chronicle of Conant's moral journey and we are the wiser for his having charted Conant's path S S Schweber Washington Post Book World James G Hershberg ably comes to grips with Conant and his hazardous times His book is vibrantly written and compelling and it breaches Conant's shield of public discretion in masterly fashion making extensive use of unpublished interviews diaries reports and correspondence pried from private and governmental repositories It is a huge ambitious work a history of the Cold War as Conant encountered it as well as a study of the man Daniel J Kevles The New Yorker a well written comprehensive nonjudgmental but sensitive biography Conant was involved in so many and such critical events that students of almost any aspect of our public life over the past half century will find useful the new material and helpful insights in this book This fine biography of one of the most important and complicated of America's twentieth century leaders immediately establishes James Hershberg as one of America's outstanding young historians Stephen E Ambrose Foreign Affairs magnificent Any reader interested in nuclear weapons Cold War history or American politics from FDR to JFK will find this biography riveting Priscilla McMillan Chicago Tribune masterful The prose is clear the narrative forceful and the author's judgments are balanced and judicious This is simply splendid biography The highest praise one can give for a book of this sort is that the historian has not shrunk from speaking truth to power This book quietly but insistently does so It should be read by the public at large as one of the definitive texts on the cold war and the nuclear age Hershberg's triumph is that he has prevailed over all the official lies to give us one more layer of the historical truth Kai Bird The Nation riveting an impressive achievement honest and comprehensive in its scholarship the author has

shown himself to be a historian of notable achievement and promise McGeorge Bundy Nature Hershberg's outstanding balanced biography lifts the self-imposed secrecy surrounding a key architect of U.S. Cold War policy and of the nuclear age Publisher's Weekly an impressive and substantial achievement Hershberg has used the life of one strategically placed individual to illuminate the most important issues surrounding America's role and conduct in the nuclear age His book will be invaluable to scholars assessing the impact and legacy of the group who acquired the epithet wise men now that the Cold War has receded Carol S. Gruber Science definitive a far more textured picture than one finds in Conant's own guarded and unrevealing autobiography an important and rewarding book illuminating Conant led a remarkable and eventful life in remarkable and eventful times James Hershberg has explored that life and those times in exhaustive and revealing detail Paul Boyer The New Republic James G. Hershberg has achieved the impossible He has written a huge biography of a Harvard president that is fascinating informative and as valuable a piece of American history as anything I have read in years Mr Hershberg has brought us back vividly to an age that seems remote so long ago but the questions about nuclear proliferation are the same even while the answers are still ambiguous As we watch men struggling with unanticipated post-Cold War problems and civil wars sprouting like Jason's men at arms it is good to read this story about a complex man who deserves an important place in our history because he helped make that history possible Arnold Beichman The Washington Times engrossing A magisterial study of an awesome and intriguing public career Kirkus Reviews entertaining thought-provocative Dick Teresi The Wall Street Journal Hershberg's book helps us more clearly understand the postwar Establishment and offers a challenging appraisal of the role of elites of universities and of the state Gar Alperovitz In These Times Hershberg deserves great credit for cracking a tough New England walnut analyzing this very important public figure demonstrating how he fit into his own time and showing us what we can learn from the man Daniel R. Mortensen The Friday Review of Defense Literature a compelling account an engaging examination of one of the central figures of the nuclear age It succeeds in showing one man's intersection with great events and issues and in the process illuminates those issues for us all American Historical Review well-written Conant's participation in one of our country's most dynamic periods is thanks to Hershberg now much better understood Library Journal A reader of the book will enter the realm of the greats the shapers of worlds created by the atomic blasts at Hiroshima and Nagasaki Conant was no bit player in Cold War history the book is very successful in weaving Conant's subsurface persona in with his ups and downs as a prominent and committed public figure And it leaves out little detail in describing top-level decisions involving the Cold War geopolitics of nuclear weaponry Conant was a participant in most of these decisions with Presidents Roosevelt and Truman themselves their Secretaries of War and State and of course all the major scientific figures of the time Chemical Engineering News A wonderfully rich portrait that emerges from a carefully documented account of Conant's role in the development of the atomic bomb and post-war nuclear policy An extraordinarily well-written text Hershberg lays bare the person behind the persona warts dimples and all Stanley

Goldberg Bulletin of the Atomic Scientists **The Rotarian** ,1949-11 Established in 1911 The Rotarian is the official magazine of Rotary International and is circulated worldwide Each issue contains feature articles columns and departments about or of interest to Rotarians Seventeen Nobel Prize winners and 19 Pulitzer Prize winners from Mahatma Ghandi to Kurt Vonnegut Jr have written for the magazine *The Rotarian* ,1949-11 Established in 1911 The Rotarian is the official magazine of Rotary International and is circulated worldwide Each issue contains feature articles columns and departments about or of interest to Rotarians Seventeen Nobel Prize winners and 19 Pulitzer Prize winners from Mahatma Ghandi to Kurt Vonnegut Jr have written for the magazine **Hearings** United States. Congress. Senate. Committee on Labor and Public Welfare,1963 **Educating the Global Citizen** George Walker,2011-06-26 Globalization means that no country can afford to ignore what goes on outside its borders International exchanges are part of everyday life As a result international education has been growing at an astonishing rate over the last generation In Educating the Global Citizen George Walker examines in depth the basic concepts of international education the apparent tension between human diversity and our common humanity the importance of intercultural understanding and the search for a set of universal values to unite humankind The Education of Radical Democracy Sarah S. Amsler,2015-04-10 The Education of Radical Democracy explores why radical democracy is so necessary difficult and possible and why it is important to understand it as an educative activity The book draws on critical social theory and critical pedagogy to explain what enables and sustains work for radical democratization and considers how we can begin such work in neoliberal societies today Exploring examples of projects from the nineteenth century to the present day the book sheds light on a wealth of critical tools research studies theoretical concepts and practical methods It offers a critical reading of the crisis of hope in neoliberal capitalist societies focusing on the problem of the contraction of possibilities for democratic agency resistance to domination and practices of freedom It argues that radically democratic thinking practice and forms of social organization are vital for countering and overcoming systemic hegemonies and that these can be learned and cultivated This book will be of interest to academics practitioners researchers and students in education and critical theory and to those interested in the sociology philosophy and politics of hope It also invites new dialogues between theorists of neoliberal power and political possibility those engaged in projects for radical democratization and teachers in formal and informal educational settings Learning to Divide the World John Willinsky,1998 The barbarian rules by force the cultivated conqueror teaches This maxim from the age of empire hints at the usually hidden connections between education and conquest In Learning to Divide the World John Willinsky brings these correlations to light offering a balanced humane and beautifully written account of the ways that imperialism s educational legacy continues to separate us into black and white east and west primitive and civilized *Technology in Higher Education* M.H. Siddiqui, **Annual Report of the Commissioner of Education for the Fiscal Year Ended ...** United States. Office of Education,1941 **Resources in Education** ,1995
