Kathleen Heid,Glendon W. Blume,2008-07-01 According to NCTM s Principles and Standards for School mathematics Technology is essential in teaching and learning of

mathematics it influences the mathematics that is taught and it enhances students learning How does research inform this
 clarion call for technology in mathematics teaching and learning In response to the need to craft appropriate roles for
 technology in school mathematics new technological approaches have been applied to the teaching and learning of
 mathematics and these approaches have been examined by researchers world wide The first volume provides insight into
 what research suggests about the nature of mathematics learning in technological environments Included in this volume are
 syntheses of research on technology in the learning of rational number algebra elementary and secondary geometry
 mathematical modeling and calculus Additional chapters synthesize research on technology in the practice of teaching and
 on equity issues in the use of technology in mathematics instruction Instead of simply reporting achievement scores of
 students who use technology in their learning authors provide thoughtful analyses of bodies of research with the goal of
 understanding the ways in which technology affects what and how students learn Each of the chapters in this volume is
 written by a team of experts whose own research has provided important guidance to the field Basic Income Worldwide
