The result is the most definitive record to date of a unique legal system that integrates criminal, civil, and religious law to form a unified whole of unprecedented range. This four-volume set is an essential resource for academic, legal, and personal libraries. Jewish Law Menachem Elon, 1994 The Documentary History of Judaism and Its Recent Interpreters Jacob Neusner, 2012-07-10. The result for the history of Judaism of a documentary reading of the Rabbinic canonical sources illustrates the working of that hypothesis. It is the first major outcome of that hypothesis, but there are other implications, and a variety of new problems emerge from time to time as the work proceeds. In the recent past, Neusner has continued to explore special problems of the documentary hypothesis of the Rabbinic canon. At the same time, Neusner notes others join in the discussion that have produced important and ambitious analyses of the thesis and its implications. Here, Neuser has collected some of the more ambitious ventures into the hypothesis and its current recapitulations. Neusner begins with the article written by Professor William Scott Green for the *Encyclopaedia Judaica* second edition, as Green places the documentary hypothesis into the context of Neusner's entire oeuvre. Neuser then reproduces what he regards as the single most successful venture of the documentary hypothesis, contrasting between the Mishnah's and the Talmuds' programs for the social order of Israel, the doctrines of economics, politics, and philosophy set forth in those documents respectively. Then come the two foci of discourse: Halakhah or normative law and Aggadah or normative theology. Professors Bernard Jackson of the University of Manchester, England, and Mayer Gruber of Ben Gurion University of the Negev treat the Halakhic program that Neusner has devised, and Kevin Edgecomb of the University of California, Berkeley, has produced a remarkable summary of the theological system Neusner discerns in the Aggadic documents. Neusner concludes with a review of a book by a critic of the documentary hypothesis. The Cambridge History of Judaism: Volume 7, The Early Modern World, 1500-1815 Jonathan Karp, Adam Sutcliffe, 2017-11-30. This seventh volume of *The Cambridge History of Judaism* provides an authoritative and detailed overview of early modern Jewish history from 1500 to 1815. The essays, written by an international team of scholars, situate the Jewish experience in relation to the multiple political, intellectual, and cultural currents of the period. They also explore and problematize the modernization of world Jewry.
