studies of each of these patterns taken from a wide range of settings a fiery soul saving Pentecostal crusade relaxed gatherings at which people drink the narcotic beverage kava deathbeds at which missionaries eagerly await the signs of good Christians happy deaths and the monologic pronouncements of a military led government determined to make the nation speak in a single voice In each of these cases Tomlinson also examines the broad ideologies of motion which frame participants ritual actions such as Pentecostals beliefs that effective worship requires ecstatic movement like jumping dancing and clapping and nineteenth century missionaries insistence that the journeys of the soul in the afterlife should follow a new path By approaching ritual as an act of entextualization in which the flow of discourse is turned into object like texts while analyzing the ways people expect words things and selves to move in performance this book presents a new and compelling way to understand the efficacy of ritual action
