

# KEEPING

An illustration of two children running on a winding path in a park. The boy in the front is wearing a yellow shirt and blue shorts, running towards the right. The girl behind him is wearing a purple tank top and red shorts, also running towards the right. The path is light brown and curves through green grass. There are trees and bushes on either side. The title 'KEEPING PACE' is written in large, white, 3D letters across the top and middle of the image. Below the title, the text 'IF WINNING ISN'T EVERYTHING ... THEN WHAT IS?' is written in white. At the bottom, the author's name 'LAURIE MORRISON' is written in red.

**Social and Economic Impact of New Technology 1978-84: A Select Bibliography** Leslie Grayson, 2012-12-06 Silicon chip technology microprocessor technology information technology or quite simply new technology These are some of the names representing the microelectronics revolution depending upon the audience being addressed by speaker or writer No previous new industrial development has caused such widespread publicity and discussion amongst users and researchers as the new technology Concern is being expressed about the effects of new technology on employment job satisfaction social life leisure activities and the economics of commerce and industry The late 70s saw many doom laden predictions of those effects but by 1983 both management and trade unions were taking a more objective view of the social and economic impacts and many correspondents now see the new technology as a means of opening up new industries and overcoming the effects of world recessions The chip has involved the factory floor the office the supermarket and the home Electronic funds transfer

electronic shopping microelectronic domestic appliances word processors and microprocessor controlled machinery mean that the new technology has pervaded all aspects of social and economic life and the developed countries are now coming to accept it as part of society as a whole Inevitably the flood of literature on the social and economic impacts of new technology has been overwhelming Unfortunately the quality of information and arguments propagated at conferences in journal papers and research reports has indicated that there has been little quantifiable evidence available on the effects of these impacts
