Levy-Peck,Patricia Easteal,2016-12-08 Research shows that intimate partner sexual violence IPSV is the most common form of sexual assault Professional focus is often on the victim but more information is needed about the perpetrators in order to have a fuller understanding of this crime The very nature of IPSV sexual assault within a relationship means that professionals who work with victims must understand the dynamics of perpetrators as well This new book will distill the knowledge that exists about perpetrators of IPSV It includes chapters by authors who have worked directly with IPSV perpetrators and covers important subjects such as addressing IPSV in batterer groups police management strategies the danger of IPSV to children the different types of violence perpetrators use and prevention approaches for young people There is also still a widely held view that rapists are strangers in alleyways This book is

intended to educate professionals about who is a perpetrator as well as to highlight the very real danger these perpetrators represent including a heightened risk of lethality The contributors look at the social context of IPSV and the implications for prevention and provide hands on knowledge to practitioners in a number of fields The book may also be used within the academic context in fields such as social work sociology counseling psychology medicine nursing criminal justice and law

human beings to suffer Drawing on the sixteenth century Spanish mystic Teresa of Avila as well as contemporary political and feminist theologians philosophers and legal scholars author and Associate Professor of theology Julia Feder offers an account of Christian salvation as mystical political Feder begins by describing the breadth of traumatic wounding and the shape of traumatic recovery as articulated by psychologists Since the fullness of post traumatic healing requires reserves deeper than those which can be articulated by the secular field of psychology alone the book then introduces the Spanish Carmelite Saint Teresa of Avila and her theological insights which are most helpful for constructing a post traumatic theology of healing Arguing that God stands against violence and suffering the book also examines the notion of senseless suffering a technical term that comes from Edward Schillebeeckx a Catholic twentieth century Flemish priest and theologian The suffering of sexual violence serves no higher purpose or greater human value and pushes against all ways of making sense of the world as good and orderly In the following chapters Feder turns to two Christian virtues that animate post traumatic recovery courage and hope and explores how Christian hope can provide a language to empower courageous activity undertaken toward healing Incarnating Grace opens a new dialogue about salvation and violence that does not allow evil to have the last word
