Hirschmann,2010-12-22 Will empower all women to stop believing that our bodies are the problems dieting the solution Harriet Lerner Ph D author of *The Dance of Anger* In this revolutionary new book bestselling authors Carol Munter and Jane Hirschmann explore the myriad reasons why women cling to diets despite overwhelming evidence that diets don t work In fact diets turn us into compulsive eaters obsessed with food and weight Munter and Hirschmann call this syndrome Bad Body Fever and demonstrate how bad body thoughts are clues to our emotional lives They explore the difficulties women encounter replacing dieting with demand feeding And finally they teach us how to think about our problems rather than eat about them so that food can resume its proper place in our lives Many women will find in these pages exactly what they need determined optimistic and resourceful coaches pausing at the right moments to acknowledge the difficulty of change then passionately urging them to press on Susan C Wooley Ph D Professor of Psychology Codirector Eating Disorder Center University of Cincinnati Medical Center *Revival: Primitives and the Supernatural (1936)* Lucien Lecy-Bruhl,2018-03-29 Dr Levy Bruhl presents a dramatic picture of the primitives who live in a world that is capricious unpredictable and unstable under the power of spirits both good and evil to be worshipped or propitiated by ceremonies dances and religious rites Dr Levy Bruhl shows how the mind of the primitive has no conception of the world of abstract though natural law causation and categories which has been opened up to the mind by science and philosophy In addition the author explains omens talismans amulets ancestor worship witchcraft insect defilement and purification as fundamental parts of the primitive existence **The Complete Works of Virginia Woolf** Virginia Woolf,2024-02-22 This ebook contains Virginia Woolf s complete works This edition has been professionally formatted and contains several tables of contents The first table of contents at the very beginning of the ebook lists the titles of all novels included in this volume By clicking on one of those titles you will be redirected to the beginning of that work where you ll find a new TOC that lists all the chapters and sub chapters of that specific work **The Liberation of Women (RLE Feminist Theory)** Roberta Hamilton,2012-11-12 In *The Liberation of Women* Roberta Hamilton explores two of the key questions that have been systematically raised by the Women s Liberation Movement why have women occupied a subordinate position in society and how can the variation in the forms and intensity of their exploitation and oppression be explained Within the Women s Liberation Movement there have been seen to be two different and opposed answers to these questions a feminist answer and a Marxist one The feminist analysis has addressed itself to a patriarchal ideology locating the source of male domination and female subordination in the biological differences between the sexes Marxists on the other hand have seen the origins of female subordination in the

growing phenomenon of private property which in their view has made possible and necessary the exploitation of these biological differences in the modern world This new work attempts to examine this debate in specific analytical terms through a study of the changing role of women during a particular historical period the seventeenth century In the course of less than one hundred years the rise of capitalism and the acceptance of Protestantism had separately and together radically altered every aspect of a woman's life Can both a feminist and a Marxist analysis account for these changes Do such accounts conflict with each other making a choice inevitable Do they overlap to such an extent that retaining both would be redundant Or finally are they complementary can they usefully coexist To answer these questions Roberta Hamilton tries to work out the changes that can be attributed to the emergence of capitalism a Marxist explanation and those that stemmed from the transformation in patriarchal ideology a feminist explanation The *Liberation of Women* will be of particular interest to students of history sociology and Women's Studies and to those who have been involved in the Women's Liberation Movement In particular it will prove essential basic reading for an ever growing number of courses on sexual divisions in society and the role of women

Leonard,2015-04-10 Crime Inequality and Power challenges the dominant definitions of crime and the criminal through its uniquely comparative approach In this book Eileen Leonard analyzes multiple forms of criminal behavior in the United States including violence sexual assault theft and drug law violations whilst also asking readers to consider the parallels between crimes that are rarely thought comparable Leonard s juxtaposition of familiar street crimes such as car theft alongside large scale corporate theft vividly exposes profound inequalities in the way crime is defined and the treatment it receives within the criminal justice system Leonard s analysis also reveals the underlying inequalities of race class and gender which enable the perpetuation of such crimes as well as calling into question the reality of fundamental American ideals of fairness and equal justice Moreover the book questions whether current policies that punish street crime excessively while minimizing the crimes of the powerful fail to keep the public safe A broader consideration of crime and the inequalities that underlie it offers a fresh opportunity to rethink public policies and enduring issues of crime and criminal justice Challenging the many persistent inequalities in the perception of and response to crime this critique of American crime and punishment will be of interest to undergraduate and postgraduate students as well as scholars in the fields of criminology sociology and law
