When one young woman Birana questions her society's deception, she finds herself exiled among the very men she has been taught to scorn. She crosses paths with a hunter Arvil and the two grow close as they evade the ever-threatening female forces and the savage wilderness men. The Hill Clan Rabbit Tribe becomes entangled in a series of intriguing space adventures with the flying rats from Rat Star. Among the wooded hills and creeks, they discover a wildling Zack, a lone stripling ill-prepared for survival. In desperation, he fled the Humans and that which was known as home and launched his life into a river of no return. Zack joins the Rabbit Clan and the Star Rats. As a result of a Space Time experiment, certain aspiring space rabbits are drawn into the probing curiosity of the Black Rabbits from planet Ektar. The Clan is stunned by the unexpected arrival of an Ektar space craft and become part of a Star Alliance that allows them access to galactic exploration. Zack, Rudy Rat, and seven rabbits are invited on a special cosmic mission to the planet Ektar where they encounter dangerous alien life forms. Zack, the wildling, wonders how a kid coming on fifteen has become part of an interplanetary war. Eventually, as a cosmic Being, he joins up with his remaining Earth family. **Space City** Jared Austin, 2022-05-27. Armed with only his grandfather's coin and a fake ID, sixteen-year-old Neil Ericson is desperate to join the Air Force like his grandfather before him. A flip of that coin instead launches Neil into an academy onboard Space City, beyond the moon. His first day on board, Neil befriends Riagan Byrne, and together they take on the challenge of field exams set on desolate planets and the Academy Games, which are rife with serpent hawks capable of gutting them if they miss a step. One instructor has already remarked that in a few rare instances, particularly undesirable students are launched into outer space. A joke, right? Despite the danger, Neil thinks he's finally found a home and friends. Plus, he attracts the attention of the beautiful Maellyn Trevena, even though his ability to talk to girls consists of noting that the moon is shrinking on their way to Mars. She probably thinks he's an idiot now. But traitors within Space City are attempting to smuggle away its newest and most prized piece of tech to the Dahaka, a blood-eyed warring alien race. After stumbling into the plot, Neil is forced to risk the friendships and home he's gained because if the traitors succeed, Space City will end up a husk, and he'll be dead or stranded millions of miles from Earth.

Acharya PhD, 2018-12-23 This book attempts to search for answers to some of the fundamental questions about life on earth that humanity has been asking for thousands of years The first question is Why I am on earth Rooted deeply within the human psyche this question often arises with a belief that there must be some meaning and purpose in life and that human life is more than just being born getting an education having jobs raising families and eventually dying The second question is Who am I When we say I do this or I do that what is that I we are referring to What actually is meant by the word I Does it mean the body we have that we see walking seeing doing things or thinking Or it is something larger than the physical body When we say This is good or That is good what is the standard by which we determine that something is good For example what you consider to be good in any situation or activity may not be perceived as such by others Is there any standard that can be generally accepted by humanity despite the difference in people's background and belief systems
