Golf Course Designs By Tom Fazio:

Golf Course Designs By Tom Fazio Tom Fazio, Cal Brown, 2000-11-01 In this illustrated book Tom Fazio shows golfers the inner workings of a master golf designer's mind. It is not a technical book though much valuable technical information can be found in the appendices. Most of the things he talks about are based on common sense and practical experience gained over a period of thirty five years and they are presented in clear and easy to understand fashion. Fazio does not believe in shortcuts or excuses only results and those results can be seen in the magnificent photographs provided by the team of John and Jeannine Henebry and other fine golf photographers. This is a book that will help any golfer better understand how to read a course and how to play it. Fazio accomplishes this by explaining the process by which he creates each hole and the philosophy behind his designs.

Golf Course Designs by Fazio Tom Fazio, 1984 **Secrets of the Great Golf Course Architects** Michael Shiels, Michael Patrick Shiels, The American Society of Golf Course Architects, 2008-11-17 This book offers readers behind the scenes tales from America's master architects themselves in their own words. Elite designers such as Tom Fazio, Jack Nicklaus, Pete Dye, Rees Jones, Robert Trent Jones Jr, Arthur Hills, Arnold Palmer and others share their personal anecdotes related to the creation of some of the world's most famous courses, from run ins with snakes to bulldozers sinking in quicksand to holes created by accident such as the famed island green 17th at the TPC at Sawgrass.

Golf Course Design Robert Muir Graves, Geoffrey S. Cornish, 1998-07-23 When it comes to golf course design Robert Muir Graves and Geoffrey S. Cornish are true masters. Over the past few decades they have produced every type of course imaginable long and short, entry level and upscale courses built on ocean bluffs and swamps, courses located in the United States and around the world. Now drawing on this vast experience and their popular golf course design seminars held at the Harvard Graduate School of Design and nationwide for the Golf Course Superintendents Association of America, Graves and Cornish share a wealth of expertise on all aspects of design and construction in this outstanding book. *Golf Course Design* covers all of the major historic, aesthetic, business and technical issues of the subject from course layout, hole design, drainage, irrigation and turf grass selection to planning, financing, construction and environmental considerations.
