*The Bottom Line- Back to Basics* Ray Cziczko,2005 Many businesses fail today but not because of poor financing outdated technology or lack of qualified employees They fail because they lack the very basic elements that are characteristic of all successful businesses They have become reliant on high priced consultants to advise them on a course of action to make their companies profitable without looking internally for the answers that are already there Businesses look to technology as the answer for many of all of their financial shortcomings Rather than increasing revenues through aggressive and creative sales programs they opt for the short sighted approach of cutting expenses and dispensing with valuable experienced employees But there is another option As a struggling golfer must step back and reexamine his setup approach and follow through so too must company owners step back and reexamine the mechanics of their business They do not need to reinvent the wheel they need to use the wheel It is time for businesses to concentrate on The Bottom Line and get Back to Basics      **Golf Swing** Jack Woods,2016-08-22 Learn how to get the perfect golf swing with this book Learn the best tips known about how to get the perfect golf swing
