The Routledge Handbook of Materials Development for Language Teaching Julie Norton, Heather Buchanan, 2022-03-16

The Routledge Handbook of Materials Development for Language Teaching is the definitive resource for all working in this area of language and English language teaching. With 34 chapters authored by leading figures from around the world, the Handbook provides an historical overview of the development of language teaching materials, critical discussion of core issues and an assessment of future directions. The contributions represent a range of different international contexts providing insightful state of the art coverage of the field. Structured in nine sections, the Handbook covers changes and developments in language teaching materials, controversial issues in materials development research and materials development materials for language learning and skills development, materials evaluation and adaptation materials for specific contexts, materials development and technology, developing materials for publication, professional development and materials writing. Demonstrating throughout the dynamic relationship between theory and practice, this accessible Handbook is essential reading for researchers, scholars and students on MA programmes in ELT, TESOL and applied linguistics.

**Handbook of Japanese Applied Linguistics** Masahiko Minami, 2016-01-15 Applied linguistics is the best single label to represent a wide range of contemporary research at the intersection of linguistics, anthropology, psychology and sociology, to name a few. The Handbook of Japanese Applied Linguistics reflects crosscurrents in applied linguistics, an ever-developing branch/discipline of linguistics. The book is divided into seven sections where each chapter discusses in depth the importance of particular topics, presenting not only new findings in Japanese but also practical implications for other languages. Section 1 examines first language acquisition development, whereas Section 2 covers issues related to second language acquisition development and bilingualism/multilingualism. Section 3 presents problems associated with the teaching and learning of foreign languages. Section 4 undertakes questions in corpus/computational linguistics. Section 5 deals with clinical linguistics and Section 6 takes up concerns in the area of translation/interpretation. Finally, Section 7 discusses Japanese sign language. Covering a wide range of current issues in an in-depth, comprehensive manner, the book will be useful for researchers as well as graduate students who are interested in Japanese linguistics in general and applied linguistics in particular.
