Women, Men and Language Jennifer Coates, 2014-01-09 Women Men and Language 3rd Ed provides an up to date account of gender differences in language to answer the question Do women and men talk differently The book takes the reader from an initial men talk like this women talk like that approach to a more nuanced idea of women and men performing gender in their everyday interactions It covers a range of sociolinguistic

research looking at grammatical and phonological features as well as at aspects of conversation such as compliments or swearing and the growing use of the word like by younger speakers. Written in a clear and accessible manner, the book explores the idea that gender is not a given but is socially constructed; the linguistic strategies used by male speakers to dominate female speakers; the characteristics of language use in same sex groups; the way children develop gender appropriate speech; the role played by gender in language change; the social consequences of gender differentiated language in the workplace and in the classroom. This updated third edition concludes with a new chapter summarising new developments and assessing possible future trends for the area. Using both historical record and contemporary sociolinguistic research, *Women, Men and Language* succinctly demonstrates that women and men do talk differently. *Language, Gender and Sexual Identity* Heiko Motschenbacher, 2010. This book makes an innovative contribution to the relatively young field of Queer Linguistics. Subscribing to a poststructuralist framework, it presents a critical deconstructionist perspective on the discursive construction of heteronormativity and gender binarism from a linguistic point of view. On the one hand, the book provides an outline of Queer approaches to issues of language, gender and sexual identity that is of interest to students and scholars new to the field. On the other hand, the empirical analyses of language data represent material that also appeals to experts in the field. The book deals with repercussions of the discursive materialisation of heteronormativity and gender binarism in various kinds of linguistic data. These include stereotypical genderlects, structural linguistic gender categories, especially from a contrastive linguistic point of view, the discursive sedimentation of female and feminine generics, linguistic constructions of the gendered body in advertising and the usage of personal reference forms to create characters in Queer Cinema. Throughout the book, readers become aware of the wounding potential that gendered linguistic forms may possess in certain contexts. **Language, Gender, and Sexuality** Scott F. Kiesling, 2024-07-01. *Language, Gender and Sexuality* offers a panoramic and accessible introduction to the ways in which linguistic patterns are sensitive to social categories of gender and sexuality, as well as an overview of how speakers use language to create and display gender and sexuality. Revised to include the latest developments, this book covers discussions of trans, nonbinary, genderqueer identities, embodiment, new media and the role of language and interaction in sexual harassment, assault and rape. Drawing on an international range of examples to illustrate key points, this book addresses the questions of how language categorizes the gender/sexuality world in both grammar and interaction; how speakers display, create and orient to gender/sexuality and desire in interaction; how and why people display different ways of speaking based on their gender/sexual identities. The second edition has been fully updated and now includes new sections on political discourse and social media, more discussion questions and new extensive online resources with student activities and instructor materials. Aimed at students with no background in linguistics or gender studies, this book is essential reading for anyone studying language, gender and sexuality for the first time.

Language, Gender and Children's Fiction Jane Sunderland, 2010-11-11. This is an original, scholarly yet accessible

contribution to the field of children's fiction. It focuses on gender in relation to children's fiction and the role that language plays in this relationship. Girls and boys reading itself is looked at as well as the books that they encounter including the Harry Potter series, Louis Sachar's prizewinning *Holes*, fairy tales and school reading schemes. The book treats fiction as fiction using as its guiding principles the multimodality of much children's fiction that fiction is almost always dialogic that the feminist movement has had considerable influence on textual representations of women, men, boys and girls and that language including what the characters say and how and what is said about them is a key to the different readings of fictional texts. This will be a valuable resource for researchers in and students of linguistics, language studies and English literature.

Challenging Leadership Stereotypes Through Discourse Cornelia Ilie, Stephanie Schnurr, 2017-08-31 This multidisciplinary volume brings together wide ranging empirical research that goes behind the scenes of diverse organizations dealing with business, politics, law, media, education and sports to unravel stereotypes of discursive leadership practices as they unfold in situ. It includes contributions that explore how leadership discourse is impacted by increasing pressures of globalization, the need to communicate across cultures and languages, mediatization, leaving ubiquitous digital traces, standardization with quality management programmes, negotiating organizational procedures, mobility, endless fast paced long distance synchronization and acceleration, permanent co-adaptation and change. The discussion of purposefully chosen case studies moves beyond questions of who is a leader and what leaders do to how leadership stereotypes are being challenged in various communities of practice and thereby making change possible. Cross cultural and interdisciplinary approaches are used to get deeper insights into the competing, multi-voiced, controversial and complex identities and relationships enacted in leadership discourse practices.

Gender Representation in Learning Materials Abolaji S. Mustapha, Sara Mills, 2015-08-11 Representations of gender in learning materials convey an implicit message to students about attitudes towards culturally appropriate gender roles for women and men. This collection takes a linguistic approach to exploring theories about gender representation within the sphere of education and textbooks and their effects on readers and students within an international context. In the opening section contributors discuss theories of representation and effect, challenging the conventional Althusserian model of interpellation and acknowledging the challenges of applying Western feminist models within an international context. Following chapters provide detailed analyses focusing on a number of different countries: Australia, Japan, Brazil, Finland, Russia, Hong Kong, Nigeria, Germany, Qatar, Tanzania and Poland. Through linguistic analysis of vocabulary associated with women and men, content analysis of what women and men say in textbooks and discourse analysis of the types of linguistic moves associated with women and men, contributors evaluate the extent to which gendered representations in textbooks perpetuate stereotypical gender roles, what the impact may be on learners and the ways that both teachers and learners interact and engage with these texts.

Language and Society Andrew Simpson, 2019-01-02 *Language and Society* is a broad introduction to the interaction of language and society intended for

undergraduate students majoring in any academic discipline The book discusses the complex socio political roles played by large dominant languages around the world and how the growth of major national and official languages is threatening the continued existence of smaller minority languages As individuals adopt new ways of speaking many languages are disappearing others are evolving into hybrid languages with distinctive new forms and even long established languages are experiencing significant change with young speakers creating novel expressions and innovative pronunciations Making use of a wide range of case studies selected from the Americas Europe Asia and Africa Andrew Simpson describes and explains key factors causing language variation and change which relate to societal structures and the expression of group and personal identity The volume also examines how speakers knowledge of language acts as an important force controlling access to education advances in employment and the development of social status Additional topics discussed in the volume focus on the global growth of English gendered patterns of language use and the influence of language on perception

Women, Gender, and Language in Morocco Fatima Sadiqi, 2003 This text is an original investigation in the complex relationship between women gender and language in a Muslim multilingual and multicultural setting Moroccan women s use of monolingualism oral literature and multilingualism code switching reflects their agency and gender role subversion in a heavily patriarchal society
