Handbook of Logic in Artificial Intelligence and Logic Programming Dov M. Gabbay,Christopher John Hogger,John Alan Robinson,1998   **Logic, Language and Reasoning** Hans Jürgen Ohlbach,U. Reyle,2012-12-06 th This volume is dedicated to Dov Gabbay who celebrated his 50 birthday in October 1995 Dov is one of the most outstanding and most productive researchers we have ever met He has exerted a profound influence in major fields of logic linguistics and computer science His contributions in the areas of logic language and reasoning are so numerous that a comprehensive survey would already fill half of this book Instead of summarizing his work we decided to let him speak for himself Sitting in a car on the way to Amsterdam airport he gave an interview to Jelle Gerbrandy and Anne Marie Mineur This recorded conversation with him which is included gives a deep insight into his motivations and into his view of the world the Almighty and of course the role of logic In addition this volume contains a partially annotated bibliography of his main papers and books The length of the bibliography and the broadness of the topics covered there speaks for itself   Logic Programming John Lloyd,1995 The International Logic Programming Symposium is one of two major international conferences sponsored by the Association of Logic Programming Both conferences are held annually The theme for the 1995 conference was Declarative Systems particularly the integration of the logic programming functional programming and object oriented programming paradigms   **Foundations of Computational Intelligence Volume 2** Aboul-Ella Hassanien,Ajith

Abraham,Francisco Herrera,2009-05-27 Foundations of Computational Intelligence Volume 2 Approximation Reasoning Theoretical Foundations and Applications Human reasoning usually is very approximate and involves various types of certainties Approximate reasoning is the computational modelling of any part of the process used by humans to reason about natural phenomena or to solve real world problems The scope of this book includes fuzzy sets Dempster Shafer theory multi valued logic probability random sets and rough set near set and hybrid intelligent systems Besides research articles and expository papers on t ory and algorithms of approximation reasoning papers on numerical experiments and real world applications were also encouraged This Volume comprises of 12 chapters including an overview chapter providing an up to date and state of the research on the applications of Computational Intelligence techniques for proximation reasoning The Volume is divided into 2 parts Part I Approximate Reasoning Theoretical Foundations Part II Approximate Reasoning Success Stories and Real World Applications Part I on Approximate Reasoning Theoretical Foundations contains four ch ters that describe several approaches of fuzzy and Para consistent annotated logic approximation reasoning In Chapter 1 Fuzzy Sets Near Sets and Rough Sets for Your Computational Intelligence Toolbox by Peters considers how a user might utilize fuzzy sets near sets and rough sets taken separately or taken together in hybridizations as part of a computational intelligence toolbox In multi criteria decision making it is necessary to aggregate combine utility values corresponding to several criteria parameters   **Computational Logic: Logic Programming and Beyond** Antonis C. Kakas,Fariba Sadri,2003-08-02 Alan Robinson This set of essays pays tribute to Bob Kowalski on his 60th birthday an anniversary which gives his friends and colleagues an excuse to celebrate his career as an original thinker a charismatic communicator and a forceful intellectual leader The logic programming community hereby and herein conveys its respect and thanks to him for his pivotal role in creating and fostering the conceptual paradigm which is its raison d tre The diversity of interests covered here reflects the variety of Bob s concerns Read on It is an intellectual feast Before you begin permit me to send him a brief personal but public message Bob how right you were and how wrong I was I should explain When Bob arrived in Edinburgh in 1967 resolution was as yet fairly new having taken several years to become at all widely known Research groups to investigate various aspects of resolution sprang up at several institutions the one organized by Bernard Meltzer at Edinburgh University being among the first For the half dozen years that Bob was a leading member of Bernard s group I was a frequent visitor to it and I saw a lot of him We had many discussions about logic computation and language   , **New Advances in Information Systems and Technologies** Álvaro Rocha,Ana Maria Correia,Hojjat Adeli,Luis Paulo Reis,Marcelo Mendonça Teixeira,2016-03-15 This book contains a selection of articles from The 2016 World Conference on Information Systems and Technologies WorldCIST 16 held between the 22nd and 24th of March at Recife Pernambuco Brazil WorldCIST is a global forum for researchers and practitioners to present and discuss recent results and innovations current trends professional experiences and challenges of modern Information Systems and Technologies research together with their technological
