Top Student, Top School? Alexandria Walton Radford, 2013-06-07 Most of us think that valedictorians can write their own ticket By reaching the top of their class they have proven their merit so their next logical step should be to attend the nation s very best universities Yet in Top Student Top School Alexandria Walton Radford of American Institutes for Research reveals that many valedictorians do not enroll in prestigious institutions Employing an original five state study that surveyed nine hundred public high school valedictorians she sets out to determine when and why valedictorians end up at less selective schools showing that social class makes all the difference Radford traces valedictorians paths to college and presents damning evidence that high schools do not provide sufficient guidance on crucial factors affecting college selection such as reputation financial aid and even the application process itself Left in a bewildering environment of seemingly similar options many students depend on their parents for assistance and this allows social class to rear its head and have a profound impact on where students attend Simply put parents from less affluent backgrounds are far less informed about differences in colleges quality the college application process and financial aid options which significantly limits their child s chances of attending a competitive school even when their child has already managed to become valedictorian Top Student Top School pinpoints an overlooked yet critical juncture in the education process one that stands as a barrier to class mobility By focusing solely on valedictorians it shows that students paths diverge

by social class even when they are similarly well prepared academically and this divergence is traceable to specific failures by society failures that we can and should address Watch an interview of Alexandria Walton Radford discussing her book here <http://www.youtube.com/watch?v=F81c1D1BpY0> **Reorganizing the Joint Chiefs of Staff** Gordon

Lederman, 1999-11-30 The Goldwater Nichols Department of Defense Reorganization Act of 1986 is the most important legislation to affecting U S national defense in the last 50 years This act resulted from frustration in Congress and among certain military officers concerning what they believed to be the poor quality of military advice available to civilian decision makers It also derived from the U S military s perceived inability to conduct successful joint or multi service operations The act passes after four years of legislative debate designated the Chairman of the Joint Chiefs of Staff as the principal military advisor to the President and sought to foster greater cooperation among the military services Goldwater Nichols marks the latest attempt to balance competing tendencies within the Department of Defense namely centralization versus decentralization and geographic versus functional distributions of power As a result of the Goldwater Nichols Act the Chairman of the Joint Chiefs has achieved prominence but his assignment is somewhat contradictory the spokesman and thus the advocate for the Commander in Chief while simultaneously the provider of objective advice to the President While the act did succeed in strengthening the CINCs authority and in contributing to the dramatic U S achievements in the Gulf War the air and ground campaigns revealed weaknesses in the CINCs capability to plan joint operations In addition the increased role of the military in ad hoc peacekeeping operations has challenged the U S military s current organizational structure for the quick deployment of troops from the various services Rapid technological advances and post Cold War strategic uncertainty also complicate the U S military s organizational structure *Insider's Guide to Book Editors, Publishers, and Literary Agents, 1996-1997* Jeff Herman, 1995-10-25 No other book gives aspiring authors the inside scoop on the names and specialties of acquisitions editors This vital information makes all the difference when submitting a book proposal or manuscript by keeping writers of all genres on top of the rapidly changing world of publishing Who s moved where who s new to the scene who s gone for good it s all here in one big volume [Women, Minorities, and Persons with Disabilities in Science and Engineering](#) , 1998 [Who Gets In?](#) Rebecca Zwick, 2017-05-15 On the disputed topic of U S college admissions everyone agrees that this high stakes competition is unfair But few agree on what a fair process would be Stressing transparency in evaluating applicants Rebecca Zwick assesses the goals and criteria of different admissions policies and shows how they can fail to produce the desired results
