*Insight and Solidarity* William Rehg,1997     *Insight and Solidarity* William Richard Rehg,1991     *Rationality, Virtue, and Liberation* Stephen Petro,2013-11-19 This book explores the overlooked but vital theoretical relationships between R M Hare Alan Gewirth and Jürgen Habermas The author claims their accounts of value while failing to address classic virtue theoretical critiques bear the seeds of a resolution to the ultimate question What is most valuable These dialectical approaches as claimed justify a reinterpretation of value and value judgment according to the Carnapian conception of an empirical linguistic framework or grammar Through a further synthesis with the work of Philippa Foot and Thomas Magnell the author shows that value would be literally meaningless without four fundamental phenomena which constitute such a framework Logical Judgment Conceptual Synthesis Conceptual Abstraction and Freedom As part of the grammar of goodness the excellence of these phenomena in a highly concrete way constitute the essence of the greatest good as this book explains

**The Burden of Democracy** Geneviève Souillac,2011-01-01 In *The Burden of Democracy The Claims of Cultures and Public Culture* Geneviève Souillac offers an original contribution to the debate on contemporary democratic ethics and vindicates the universal development of democracy This book argues that a public culture articulated around the three principles of deliberative justice history and encounter can deepen inclusion mediation and democratic pluralism under conditions of postmodernity     *Speaking Together and with God* John S. McClure,2018-04-09 Ours is a time of unprecedented pessimism regarding the possibility of achieving consensus around moral issues Christian liturgical practices which are grounded in a communicative economy of love and mercy contain wisdom that might be of significant help What difference might it make if we confessed sin learned epistemic humility worked at overcoming self deception interceded for others learned to go beyond empathy to compassion and advocacy for the well being of all persons became willing to look beyond the possible for solutions etc and learned from the best homiletical practices how to justify and apply moral positions within an ethic of hospitality and care *Speaking Together* focuses on the roles that liturgical practices play in promoting genuinely communicative understanding oriented forms of action and explores how liturgical practices contribute to sincere multi perspectival empathetic and truth seeking conversations regarding moral norms in an increasingly pluralistic world What this means is that our liturgical practices are a way of speaking together and this shapes how we organize and inhabit a shared social life     *The Politics of Care in Habermas and Derrida* Richard Ganis,2010-12-28 *The Politics of Care in Habermas and Derrida* provides a penetrating analysis of the tensions and possibilities that animate the dialogue between two of the most significant frameworks of moral philosophy in the contemporary Continental tradition The dispute between Habermasian discourse ethics and Derridean deconstruction is the backdrop for the book's excursus on the problem of care for the otherness of the other a question with profound implications at the level of both ethics and politics In addressing this

problem the study reaches beyond the idioms of Habermas and Derrida and considers care from a number of divergent vantage points including feminist theory ecological ethics the recognition theory of Axel Honneth and the perspectives of Frankfurt School writers such as Max Horkheimer and Theodor Adorno In its concluding chapter the book offers an innovative reconstruction of Habermas's discourse ethical model which affirms the latter's overarching commitment to the tradition of moral universalism even as it accords due weight to the contravening standpoint of Derrida and kindred exponents of the ethics of care This book will be of interest to students and scholars of contemporary moral and ethical philosophy especially those concerned with the work of Habermas and Derrida both as individual thinkers and as philosophical interlocutors

*Strong Hermeneutics* Nicholas H. Smith, 2002-09-11 Recent years have seen a resurgence of interest in ethics particularly in the approaches of deconstruction and hermeneutics At the same time questions of identity have risen to prominence in philosophy and beyond into cultural studies and literature *Strong Hermeneutics* is a clear and accessible investigation of both the enlightenment and postmodern or weak approaches to contemporary discussions of ethics The weak view which can be traced back to Nietzsche and seen in the recent work of Rorty and Lyotard is sceptical of any universal principles in ethics The enlightenment view starting with Kant and more recently seen in the work of Habermas views identity as subject to universal but formal moral constraints the renewing of which is the proper task of ethics Nicholas Smith argues that neither of these views can provide a proper framework for ethics He puts forward a third position a strong hermeneutics drawing on the work of Hans Georg Gadamer Paul Ricoeur and Charles Taylor *Strong Hermeneutics* presents a defence of this view compares it with the realism and anti realism debate in philosophy and demonstrates its relevance to contemporary issues particularly ecological responsibility
