Institutional Design In New Democracies Eastern Europe And Latin America:

Institutional Design In New Democracies Arend Lijphart, 2018-10-08 This volume focuses on the relationship between the tasks of institutional design and the outcomes of the process of economic and political liberalization in Latin America and in Central and Eastern Europe The contributors emphasize the design of institutions to serve a market economy the design of electoral laws and the design of executive legislative relations Within this framework each chapter discusses the legacy of the pre existing authoritarian regime the range of preferences among various strategic actors with regard to the pace and mix of reforms and the consequences of final choices for the institutionalization of effective economies and the process of democratization Countries throughout Latin America and Central and Eastern Europe are moving from semi closed to open economies and from authoritarian to democratic political systems Despite important differences between the regions these transitions involve similar tasks the establishment of governmental institutions and electoral systems conducive to legitimation of the new and fragile democracies and expansion of the institutional infrastructure of a market economy This volume looks at both regions focusing on the relationship between the tasks of institutional design and the outcomes of the process of economic and political liberalization In particular the contributors emphasize the design of institutions to serve a market economy the design of electoral laws and the design of executive legislative relations Each chapter discusses the legacy of the pre existing authoritarian regime the range of preferences among various strategic actors the government state bureaucracies opposition parties and interest groups with regard to the pace and mix of reforms and the consequences of final choices for the institutionalization of effective economies and the process of democratization Democratic Consolidation in Eastern Europe: Volume 1: Institutional Engineering Jan Zielonka, 2001 This is the first volume in a series of books on democratic consolidation in Eastern Europe The series focuses on three major aspects of democratic consolidation in Eastern Europe institutional engineering transnational pressures and civil society This first volume analyses constraints on and opportunities of institutional engineering in Eastern Europe to what extent and how elites in Eastern Europe have been able to shape if not manipulate the politics of democratic consolidation through institutional means The aim is to contrast a set of democracy theories with empirical evidence accumulated in Eastern Europe over the last ten years The volume tries to avoid complex debates about definitions methods and the uses and misuses of comparative research Instead it tries to establish what has really happened in the region and which of the existing theories have proved helpful in explaining these developments The volume starts with a presentation of conceptual and comparative frameworks followed by in depth empirical analyses of the thirteen individual countries undergoing democratic consolidation The first conceptual and comparative part contains three chapters The first chapter explains what institutional engineering is about and describes our experiences with institutional engineering in former transitions to democracy It also focuses on the import and export of institutional designs The second chapter analyses the utility of constitutions in the process of democratic consolidation The

third chapter compares constitutional designs and problems of implementation in Southern and Eastern Europe The empirical case studies deal with the following countries Estonia Latvia Lithuania Bulgaria Romania Ukraine Russia Belarus the Czech Republic Slovakia Slovenia Hungary and Poland And the conclusions evaluate the enormous impact of institutions on politics in Eastern Europe and show how central constitutional designs are to the institutional engineering in the societies undergoing transitions to democracy *eBook: Representative Government in Modern Europe, 5e* GALLAGHER,2021-04-09

Policy Reform and the Development of Democracy in

Eastern Europe Chris Hasselmann,2017-11-30 Integrating the international pressures emanating from the Washington Consensus with an analysis of domestic interest representation this book explores the political consequences of privatization and the progress of democracy in Eastern Europe Chris Hasselmann investigates whether the issue of pension reform offers a natural controlled experiment with which to explore both issues throughout the region and the former Soviet Union The volume will prove of value to those with an interest in public policy and governance issues the politics of Eastern Europe and political theory more generally

The Media in Transitional Democracies Katrin Voltmer,2013-07-10 The last quarter of a century has seen an unprecedented wave of democratization around the globe In these transitions from authoritarian rule to a more democratic order the media have played a key role both by facilitating but frequently also inhibiting democratic practices to take root This book provides an accessible and systematic introduction to the media in transitional democracies It analyses the problems that occur when transforming the media into independent institutions that are able to inform citizens and hold governments to account The book covers the following topics normative conceptions of media and democracy the role of the past in the transition process the internet as a new space for democratic change the persistence of political interference in emerging democracies the interlocking power of media markets and political ownership the challenges to journalistic professionalism in post authoritarian contexts the role of the media in divided societies The book takes a global view by exploring the interplay of political and media transitions in different pathways of democratization that have taken place in Eastern Europe Latin America Africa and Asia It will be of interest to advanced students and scholars who want a better understanding of the media outside established Western democracies The book will also be of great value to policymakers and activists who are involved in strengthening the media in transitional democracies

The Politics of Presidential Term Limits Alexander Baturo,Robert Elgie,2019-06-20 Presidential term limits restrict the maximum length of time that presidents can serve in office They stipulate the length of term the presidents can serve between elections and the number of terms that presidents are permitted to serve While comparative scholarship has long studied important institutions such presidentialism vs parliamentarism and the effects of different electoral systems we lack a comprehensive understanding of the role and effects of presidential term limits Yet presidential term limits and term lengths are one of the most fundamental institutions of democracy By ensuring compulsory rotation in office they are at the heart of a democratic

dilemma What is the appropriate trade off between allowing the unrestricted selection of candidates at presidential elections vs restricting selection procedures to prevent the possibility of dictatorial takeover by presidents who are unwilling to step down In the context of a long and on going history of changes to presidential term limits and the many and varied ways in which term limits have been both applied and avoided this book explains the factors behind the introduction stability abolition and avoidance of presidential term limits as well as the consequences of changes to presidential term limits and it does so in the context of non democracies third wave countries and consolidated democracies It includes comparative theoretical and practitioner oriented chapters as well as detailed country case studies of presidential term limits across the world and over time

Norms and Nannies Ronald Haly Linden,2002 As the Central and East European states seek to join the European Union and NATO they face challenging demands to adhere to specific European norms and standards In this first comprehensive analysis contributors examine how this process operates in a variety of domains including civil military relations social labor and regional relations economic and information policies and foreign policy Each author considers what norms are generated by or absent from European international organizations how they are communicated to prospective members and most important what impact they have had on the policies and actions of individual countries as well as on the region as a whole These on the ground studies provide the empirical foundation needed to support theories of norm diffusion constructivism and liberalism in international relations and comparative politics alike

Political Parties and Democracy Kay Lawson,2010-07-20 Native scholars explore the relationship between political parties and democracy in regions around the world The development of political parties over the past century is the story of three stages in the pursuit of power liberation democratization and de democratization Political Parties and Democracy is comprised of five stand alone volumes that probe the realities of political parties at all three stages In each volume contributors explore the relationship between political parties and democracy or democratization in their nations providing necessary historical socioeconomic and institutional context as well as the details of contemporary political tensions Contributors are distinguished indigenous scholars who have lived the truths they tell and are thus able to write with unique breadth depth and scope They show the parties of their respective nations as they have developed through history and changing institutional structures and they explain the balance of power among them and between them and competing agencies of power today

Impeachment in the Nigerian Presidential System Omololu Fagbadebo,2020-08-26 This book explores the politics associated with the exercise of the legislative power of impeachment as intended by the drafters of the Constitution in Nigeria It interrogates the exercise of the power of impeachment with reference to the intended purpose and examines its failures in the cases of impeachment in the country It analyzes the interplay of power in the governing institutions in Nigeria s political system which involved the understanding of a web of interactions among elites within a political structure relating with others outside its sphere of operation It presents an analysis of the politics associated with impeachment within the framework of the activities of

different political actors operating in different political structures assigned to perform certain statutory roles in the political system The book shows how the selective use of impeachment provisions as instrument of political vendetta and harassment has weakened the potency of this oversight power of the legislature thereby engendering accountability problem in the Nigerian presidential system *Comparative Constitutional Law* Tom Ginsburg, Rosalind Dixon, 2011-01-01 This landmark volume of specially commissioned original contributions by top international scholars organizes the issues and controversies of the rich and rapidly maturing field of comparative constitutional law Divided into sections on constitutional design and redesign identity structure individual rights and state duties courts and constitutional interpretation this comprehensive volume covers over 100 countries as well as a range of approaches to the boundaries of constitutional law While some chapters reference the text of legal instruments expressly labeled constitutional others focus on the idea of entrenchment or take a more functional approach Challenging the current boundaries of the field the contributors offer diverse perspectives cultural historical and institutional as well as suggestions for future research A unique and enlightening volume **Comparative Constitutional Law** is an essential resource for students and scholars of the subject **Handbook of Parliamentary Studies** Cyril Benoît, Olivier Rozenberg, 2020-11-27 This comprehensive Handbook takes a multidisciplinary approach to the study of parliaments offering novel insights into the key aspects of legislatures legislative institutions and legislative politics Connecting rich and diverse fields of inquiry it illuminates how the study of parliaments has shaped a wider understanding surrounding politics and society over the past decades **Party Systems in Post-Soviet Countries A.** Meleshevich, 2007-01-22 This book conducts a comparative analysis of political institutions and develops rigorous methods suitable for cross national longitudinal analysis An examination of political party systems in Estonia Latvia Lithuania Russia and Ukraine shows striking differences of degrees and dynamics of political institutionalization in the five nations

Routledge Handbook of Comparative Political Institutions Jennifer Gandhi, Rubén Ruiz-Rufino, 2015-04-10 The Routledge Handbook of Comparative Political Institutions HCPI is designed to serve as a comprehensive reference guide to our accumulated knowledge and the cutting edge of scholarship about political institutions in the comparative context It differs from existing handbooks in that it focuses squarely on institutions but also discusses how they intersect with the study of mass behaviour and explain important outcomes drawing on the perspective of comparative politics The Handbook is organized into three sections The first section consisting of six chapters is organized around broad theoretical and empirical challenges affecting the study of institutions It highlights the major issues that emerge among scholars defining measuring and analyzing institutions The second section includes fifteen chapters each of which handles a different substantive institution of importance in comparative politics This section covers traditional topics such as electoral rules and federalism as well as less conventional but equally important areas including authoritarian institutions labor market institutions and the military Each chapter not only provides a summary of our current state of knowledge on the topic but also advances claims

that emphasise the research frontier on the topic and that should encourage greater investigation The final section encompassing seven chapters examines the relationship between institutions and a variety of important outcomes such as political violence economic performance and voting behavior The idea is to consider what features of the political sociological and economic world we understand better because of the scholarly attention to institutions Featuring contributions from leading researchers in the field from the US UK Europe and elsewhere this Handbook will be of great interest to all students and scholars of political institutions political behaviour and comparative politics Jennifer Gandhi is Associate Professor Department of Political Science Emory University Rub n Ruiz Rufino is Lecturer in International Politics Department of Political Economy King s College London

Elusive Reform Mark Ungar, 2002 Democracy cannot exist proclaims Ungar political science City U of New York Brooklyn College without the rule of law which he defines as comprising an independent effective judiciary state accountability to the law and citizen accessibility to conflict resolution mechanisms He looks to Latin American countries to illustrate how stable democracies are undermined by executive power and judicial disarray that prevent the rule of law from taking hold Annotation copyrighted by Book News Inc Portland OR

Democracy and Post-Communism Graeme Gill, 2003-08-27 The collapse of communism was widely heralded as the dawn of democracy across the former Soviet region However the political outcome has been much less uniform The post communist states have developed political systems from democracy to dictatorship Using examples and empirical data collected from twenty six former Soviet states Graeme Gill provides a detailed comparative analysis of the core issues of regime change the creation of civil society economic reform and the changing nature of post communism Within these individual cases it becomes clear that political outcomes have not been arbitrary but directly reflect the circumstances surrounding the birth of independence Students of Comparative Politics International Relations and Russian and Post Soviet Studies should find this book essential reading

Politics of Democratic Breakdown Gangsheng Bao, 2022-05-30 Democratic breakdown as a political and historic event can impact the fate of millions if not hundreds of millions of people by changing the political complexion of a country This book attempts to systematically explain why democracies collapse The author s main theoretical argument is based on the examination of two factors One is political cleavages among voters These can cause serious political conflicts and may lead to fierce political confrontation and major upheaval at the society level The other revolves around the types of political and institutional arrangements under democratic regimes Centrifugal democratic regimes are likely to weaken government capacity or state capacity rendering governments incapable of effectively resolving political conflicts and when these two factors come together political conflicts are less likely to be controlled effectively These situations can evolve into serious political crises and eventually lead to the collapse of democratic regimes The empirical research of this book is based on a comparative historical analysis of Germany Nigeria Chile and India Examining democratic collapses from both theoretical and empirical perspectives this book will be of interest to those engaged in the study of democracy Political

Science Comparative Politics and Political Theory **The Russian Democratic Party Yabloko** David White, 2006 Amid growing concern with President Putin's centralization and control this important volume examines the gradual electoral decline of Russia's leading liberal party the Yabloko Party It provides fascinating insights into the role of opposition the development of the party system and above all the quality of democracy in Russia under President Putin **Democratic Equilibrium** Michael W. Fowler, 2015-11-12 Democratic Equilibrium The Supply and Demand of Democracy defines a model for political change change that results in either an increase or decrease in democracy The book presents a model that builds upon the existing literature to bridge several major gaps in political change theory This book provides a holistic supply and demand model that draws upon works from political science economics and history The work conducts an econometric test of the model and validates the results with field research cases from Mexico the Philippines and Senegal The econometric chapter is a rare quantitative analysis of the effects of violence and development upon democracy This topic is central to contemporary academic and policy debates about how to create democracies consolidate democracies achieve development and improve security especially within developing countries This topic is especially timely as the Arab Spring represents a unique opportunity and challenge for democratic change across the Middle East and North Africa Recent events in Tunisia and Egypt demonstrate that democracy studies remain just as relevant today as they were twenty years ago The findings indicate that common structural explanations of democracy are incomplete since the structural relationships are not stable or constant over time Instead democratic change or lack thereof can be explained using a supply and demand model Key actors including the military political parties NGOs the ruling regime and civil society are the suppliers and consumers that determine a country's resulting level of democracy However stating that actors are important is a major oversimplification Each key actor builds preferences based upon a variety of factors most importantly security income and the adoption of democratic norms It is this key dynamic that explains why insurgency poverty and under development do not have a linearly negative effect on democracy Instead these factors have a centripetal effect on political development pulling a country's government towards an intermediate state of political transition in which regimes stagnate in a partially democratic partially autocratic regime type Conversely the model also explains why high income democratic norms and security do not necessarily lead to democratization in all cases *Eradicating Terrorism from the Middle East* Alexander R. Dawoody, 2016-08-22 This book analyzes the contributing factors responsible for the emergence of terrorism in the Middle East with specific case studies based on empirical data that anchors the analyses in real life observation and posits unbiased bipartisan solutions Terrorists are targeting civilian populations around the world and increasing pressure on civil liberties public policy and democratic institutions With the defeat of one terrorist organization several more take its place This book includes case studies in public administration initiatives from various Middle Eastern countries and investigates regulation public information monetary and financial responsibilities security and civic infrastructure as possible solutions to this ever

worsening problem With terrorism emerging as a major global policy issue this book speaks to global security and public policy and administrative issues in the Middle East and will be of interest to researchers in terrorism and security in the Middle East public administration international relations political economy and to government officials security analysts and investors *Elections in the Americas A Data Handbook Volume 1* Dieter Nohlen, 2005-04-14 This two volume work continues the series of election data handbooks published by OUP It presents a first ever compendium of electoral data for all 35 countries in the Americas since the introduction of universal male suffrage Following the overall structure of the series an initial comparative introduction on elections and electoral systems is followed by chapters on each country Written by knowledgeable and renowned scholars the contributions examine the evolution of constitutional and electoral arrangements and provide systematic surveys of the up to date electoral provisions and electoral rules These widely differing rules exert considerable influence on party systems and political processes Exhaustive statistics on all national elections and referendums are given in each chapter Together with the other books of this series *Elections in the Americas* is a highly reliable resource for historical and cross national comparisons of elections and electoral systems worldwide

Thank you utterly much for downloading **Institutional Design In New Democracies Eastern Europe And Latin America**. Most likely you have knowledge that, people have look numerous period for their favorite books considering this Institutional Design In New Democracies Eastern Europe And Latin America, but stop up in harmful downloads.

Rather than enjoying a fine PDF in the same way as a mug of coffee in the afternoon, on the other hand they juggled like some harmful virus inside their computer. **Institutional Design In New Democracies Eastern Europe And Latin America** is reachable in our digital library an online permission to it is set as public so you can download it instantly. Our digital library saves in multiple countries, allowing you to get the most less latency times to download any of our books as soon as this one. Merely said, the Institutional Design In New Democracies Eastern Europe And Latin America is universally compatible behind any devices to read.
