Handbook Of Certification Requirements For School Administrators:

Handbook of Certification Requirements for School Administrators Sherri Zimmerman, 2002 Qualified school administrators particularly district superintendents are among the most sought after professionals of the new century Due to a perceived national shortage consultants search firms and state school board associations are courting these highly trained women and men with attractive salaries lucrative benefits packages and other perks usually reserved for chief executive officers in the corporate world As a result the long held tradition by school administrators of practicing within a particular state for the duration of their career is no longer necessary Historically these educators were forced to accumulate total years of service in a particular state in order to maximize their retirement benefits These benefits are most often based upon years of service within a system or state and an average of the four or five highest years of salary Because there are no nationally accepted certification requirements for either principals or superintendents qualifications vary dramatically from state to state Sherri Zimmerman has designed this handbook to provide school administrators with the information they need when considering positions in other states Certification requirements for both the positions of principal and superintendent in all 50 states are included in this easy to use reference *A Manual on Certification Requirements for School Personnel in the United States* ,1951 **Occupational Outlook Handbook** ,2006 **Resources in Education** ,1992-03 **The**
