Social Motivation Joseph P. Forgas, Kipling D. Williams, Simon M. Laham, 2005 Sample Text The Positive Side of Negative Emotions W. Gerrod Parrott, 2014-01-22 This unique volume brings together state of the art research showing the value of emotions that many believe to be undesirable Leading investigators explore the functions and benefits of sadness anxiety anger embarrassment shame guilt jealousy and envy The role of these emotions in social interactions and relationships is examined as are cultural differences in how they are valued and expressed The volume considers how people seek out these feelings in everyday life to improve performance gain insight and express cares and commitments Negative *Integrated Models of Cognitive Systems* emotions are shown to have an important place in a rich and meaningful life Wayne D. Gray, 2007-04-19 The field of cognitive modeling has progressed beyond modeling cognition in the context of simple laboratory tasks and begun to attack the problem of modeling it in more complex realistic environments such as those studied by researchers in the field of human factors The problems that the cognitive modeling community is tackling focus on modeling certain problems of communication and control that arise when integrating with the external environment factors such as implicit and explicit knowledge emotion cognition and the cognitive system These problems must be solved in order to produce integrated cognitive models of moderately complex tasks Architectures of cognition in these tasks focus on the control of a central system which includes control of the central processor itself initiation of functional processes such as visual search and memory retrieval and harvesting the results of these functional processes Because the control of the central system is conceptually different from the internal control required by individual functional processes a complete architecture of cognition must incorporate two types of theories of control Type 1 theories of the structure functionality and operation of the controller and type 2 theories of the internal control of functional processes including how and what they communicate to the controller This book presents the current state of the art for both types of theories as well as contrasts among current approaches to human performance models It will be an important resource for professional and student researchers in cognitive science cognitive engineering and human factors Contributors Kevin A Gluck Jerry T Ball Michael A Krusmark Richard W Pew Chris R Sims Vladislav D Veksler John R Anderson Ron Sun Nicholas L Cassimatis Randy J Brou Andrew D Egerton Stephanie M Doane Christopher W Myers Hansj rg Neth Jeremy M Wolfe Marc Pomplun Ronald A Rensink Hansj rg Neth Chris R Sims Peter M Todd Lael J Schooler Wai Tat Fu Michael C Mozer Sachiko Kinoshita Michael Shettel Alex Kirlik Vladislav D Veksler Michael J Schoelles Jerome R Busemeyer Eric Dimperio Ryan K Jessup Jonathan Gratch Stacy Marsella Glenn Gunzelmann Kevin A Gluck Scott Price Hans P A Van Dongen David F Dinges Frank E Ritter Andrew L Reifers Laura Cousino Klein Michael J Schoelles Eva Hudlicka Hansj rg Neth Christopher W Myers Dana Ballard Nathan Sprague Laurence T Maloney Julia Trommersh user Michael S Landy A Hornof Michael J Schoelles David Kieras Dario D Salvucci Niels Taatgen Erik M Altmann Richard A Carlson Andrew Howes Richard L Lewis Alonso Vera Richard P Cooper and Michael D Byrne Social Identities Rupert Brown, Dora Capozza, 2016-07-22 The concept of social identity occupies a

central position in contemporary social psychology Social Identities Motivational Emotional Cultural Influences reports recent developments in the analysis of motivational and affective aspects of social identity processes. The book also examines the cross cultural generality of Social Identity Theory explanations of intergroup competitiveness which have strongly influenced international research in this area People's social identities and self evaluation are thought to be largely derived from group memberships it is presumed that people are motivated to attain positivity in these identities by favouring the ingroup in intergroup comparisons An increasing stream of research is being devoted to extending the applicability of social identity concepts to intergroup relations and related fields. The editors present here a collection of contributions from leading figures in social psychology which explore the state of the art in social identity theory. The most prominent motivational theories of identification are reported Central themes concern motivations which lead individuals to join a group and identify with it the role emotions have in favouring or hindering intergroup relations the effect of emotions on intergroup behaviour how people react to social identity threats Shedding new light on important social problems like prejudice bigotry and intense conflicts around the world this unique volume will be indispensable to students and researchers of social psychology sociology and cultural studies Attribution, Communication Behavior, and Close Relationships Valerie Lynn Manusov, John H. Harvey, 2001-01-15 Attribution Communication Behavior and Close Relationships brings together scholars from a variety of disciplines whose work focuses on the interplay of attribution processes and communication behavior in close relationships The book shows ways in which diverse scholarly perspectives can blend to provide insight into areas of common interest In this case it is the ways that people in relationships think about communication make attributions through communication and communicate about the attributions they make The Psychology of Social Conflict and Aggression Joseph P. Forgas, Arie W. Kruglanski, Kipling D Williams, 2011-05-09 This book offers an informative scholarly vet readable overview of recent advances in research on the nature antecedents management and consequences of interpersonal and intergroup conflict and aggression Advances in the Psychology of Justice and Affect David DeCremer, 2007-08-01 Leading scholars attempting to illuminate the developing trends in explaining and understanding the role that affect plays in justice and vice versa The book comes at a particular fitting time as it is recognized that justice is in the eye of the beholder but unfortunately clear theoretical perspectives have not been clearly outlined yet This book addresses this need by presenting a variety of perspectives advocating the further integration between both fields and how this may be achieved Moreover the book also provides a discussion of what we know as yet and where this integrative field should be going The book is divided in three parts discussing the nature of justice and affect justice morality and affect and justice and affect at work The market for this book is students researchers in social psychology organizational behavior and management behavioral economics philosophy and other related social sciences fields Graduate students and upper level undergraduates can make use of the book as a supplementary text
