The lens of transitional justice has only rarely been extended to the United States and never in a comprehensive way This book aims to provide a contemporary and critical analysis of relevant developments and debates within the United States related to transitional justice Using the framework of the five main pillars of transitional justice truth reparation accountability quarantee of non repetition and memory the book identifies and explores relevant justice initiatives both historical and contemporary across federal state and local levels in the United States The empirical examples taken up show how a broad array of civil society actors are driving transitional justice processes across the country By recognizing both extraordinary and ordinary justice processes as

transitional justice the book offers a broader understanding of how groups navigate transitions to more democratic peaceful and socially just societies. The examples further shed light on the expansion of the field to nontraditional contexts the relationship between global norms and local practices and the role of law and political compromise. The book concludes by emphasizing the value and power of the plurality of initiatives taking shape across the United States but calls for a more coherent transitional justice policy at the national level. Public Policy David E Wilson, 2019-07-11 This book explores the eventful but process largely forgotten history of national planning efforts in the United States first identifying and comparing five alternative approaches to contemporary national planning then using these approaches to assess the events of 1973 1976 a period when crisis pressures brought a vigorous resurgence of national planning activity and debate Dr Wilson concludes that two new approaches to planning learning adaptive and general systems are increasingly being used in lieu of the long established and less flexible rational and incremental approaches and that these might eventually achieve a beneficial new synthesis in both federal policy practice and social science theory.
