Freedom From Fat:

Freedom from Fat Evelyn Kliever, 1977 **Freedom from Disease** Peter M. Kash, Linda Friedland, Jay Lombard, 2017-03-12 With the latest scientific research this simple guide shows how insulin and inflammation affect your health and what you can do to take control. Insulin is a scary word for anyone. Levels too high or too low can have grave medical consequences and the rigorous testing and change in diet it takes to manage it can be daunting. Inflammation is this the cause of damage within the body? Worse still, insulin and inflammation have increasingly been found to affect much more than diabetes. Heart disease, cancer, Alzheimer's disease, and strokes have all been found to possibly link back to insulin resistance. The good news: You've got armor. While managing your insulin and inflammation levels can seem like impossible work, Dr. Peter Kash, Dr. Linda Friedland, and Dr. Jay Lombard have created an easy-to-follow guide that not only breaks down how insulin and inflammation affect your health but also provides the information you need to keep it in check. Drs. Kash, Friedland, and Lombard finally put together the real story of the underlying cause of our epidemic of chronic illness: from ADD to Alzheimer's, from depression to heart attacks, from cancer to obesity, it is the insulin flooding through our bodies triggering a deadly cascade. Read this book; it will save your life. Mark Hyman MD, author of the New York Times bestseller *UltraMetabolism*.

Deprivation and Freedom Richard Hull,2013-01-11 Deprivation and Freedom investigates the key issue of social

deprivation It looks at how serious that issue is what we should do about it and how we might motivate people to respond to it It covers core areas in moral and political philosophy in new and interesting ways presents the topical example of disability as a form of social deprivation shows that we are not doing nearly enough for certain sections of our communities and encourages that we think differently about how we should best organise our societies in the future The book develops a comprehensive yet refreshingly simple account of human freedom which shows how the ability to realise our freedom is partly definitive of freedom itself That account conclusively illustrates how many deprivations represent remediable inequalities of important and very basic human freedoms posing the question as to why societies continue to do so little about them In answering that question Hull shows how the idea of social exclusion is misleading and instead tackles the far more pertinent and challenging issue of societies failure to include The moral seriousness of non inclusion the failure to provide for freedom is evaluated via critical discussion of a variety of central themes and distinctions in ethical and political theory The author shows how such themes and distinctions comprise a framework for evaluating a raft of social issues in turn providing a unique resource for students of moral political and applied philosophy The book concludes with an innovative challenging and effective combination of analytic and continental styles so to address the critical question of how we might actually motivate constructive social change In doing so it shows how a variety of approaches can work successfully together to provide an emphatic case for greater social inclusion Deprivation and Freedom shows how even fairly modest claims about social provision illustrate that we should be doing a lot more about social deprivation than we are now It should be of interest to anyone who is concerned with questions about the type of society in which they live what it says about us to continue as we are and how we might motivate realistically achievable social change

Breaking the Chains: Reclaiming Freedom in the Modern

Psyche and Society Peter Rundev, In Breaking the Chains Reclaiming Freedom in the Modern Psyche and Society Peter Rundev presents a powerful and timely critique of modern life arguing that our societal psychological and economic structures often mistaken for freedom are in fact a new form of captivity Drawing on an interdisciplinary approach that

combines insights from Jungian psychology neuroscience economics and his unique background as an Eastern Orthodox iconographer Rundev exposes the invisible chains that silently shape our thoughts and actions He challenges the reader to look at how systems like the traditional education model and cultural narratives about masculinity contribute to a sense of purposelessness and passivity This book is a call to action offering a path to personal and societal liberation Rundev proposes that true freedom is not found in external change but through an internal journey of self awareness and intentional action He outlines a vision for a new utopia built on a conscious re evaluation of our values and a cultivation of empathy and foresight Breaking the Chains is for anyone who feels a disconnect in modern society and seeks to understand the root causes of their unease It s an essential read for those ready to confront their own unseen limitations and embark on a journey to reclaim authentic freedom
