French Decision:

French Negotiating Behavior Charles Cogan, 2003 Even before it led opposition to the recent war on Iraq France was considered the most difficult of the United States major European allies Each side tends to irritate the other not least at the negotiating table where Americans complain of French pretensions and arrogance and the French fulminate against U S hegemonism and egoism But whether they like it or not the two nations are going to have to deal with one another for a long time to come Charles Cogan's timely and insightful study can't guarantee to make those encounters more fruitful but it will help France's negotiating counterparts understand how and why French officials behave as they do With impressive objectivity and authority Cogan first explores the cultural and historical factors that have shaped the French approach and then dissects its key elements Mixing rationalism and nationalism rhetoric and brio self importance and embattled vulnerability French negotiators often seem more interested in asserting their country's universal mission than in reaching agreement Three recent case studies illustrate this distinctively French m l n g e Yet agreement is by no means always elusive Cogan offers practical suggestions for making negotiations more cooperative and productive although he also emphasizes the long term damage inflicted by the crisis over Iraq Drawing on candid interviews with many of today's leading players on the French American British and German sides this engaging volume will inform and stimulate both seasoned practitioners and academics as well as students of France and the negotiating process This book is the recipient of the Prix Ernest L monon from L Acad mie des Sciences Morales et Politiques 2006

French International Arbitration Law Reports: 1963-2007 Thomas Clay, Philippe Pinsolle, Thomas Voisin, 2014-04-01 The French law of international arbitration has a beginning 1963 and a culminating point 2007 but fortunately it does not have an ending Indeed it does not cease to evolve to improve to perfect itself Thus it invites one to carefully observe it But before undertaking this careful observation by annually identifying the most important decisions as this collection has been doing since 2008 it is important to recall the origins of French law on international arbitration how it was built and in so doing predict where it is heading Looking into the past to anticipate the future that is also the interest of a book like the present one This selection necessarily subjective is also shaped by the advantages that a retrospective look offers The benefit of hindsight allows one to confidently distinguish between the decisions that deserve mention and those which did not make it into history Only the former are printed in the following pages but all of such decisions are included Conversely all decisions from 2008 onwards will be methodically published in the annual reports of

this collection of which two editions have already been released for the years 2008 and 2009 Aimed for practitioners and academics alike the knowledge of French case law is indispensable to understanding international arbitration and its important influence around the world
