French Party System:

The French party system Jocelyn Evans, 2018-07-30 This electronic version has been made available under a Creative Commons BY NC ND open access license This book provides a complete overview of the of parties in France The social and ideological profiles of all the major parties are analysed chapter by chapter highlighting their principal functions and dynamics within the system These are complemented by analyses of bloc and system features including the pluralist left Europe and the ideological space in which the parties operate In particular the book addresses the impressive capacity of French parties and their leaders to adapt themselves to the changing concerns of their electorates and to a shifting institutional context The French Centre Right and the Challenges of a Party System in Transition William Rispin, 2020-11-30 This book argues that the defeat of the main French Centre Right party in the 2017 presidential and legislative elections and its subsequent disintegration were the result of a failure to respond effectively to the challenges posed by a continuing realignment of the party system By the start of the Hollande presidency many sections of the electorate had lost faith in the traditional parties of government and the ideologies which they represented and were adopting a more individualist approach to politics The Left Right divide which had determined relations between parties since the creation of the Fifth Republic in 1958 gave way to a new arrangement based on three axes identity liberal economics and Europe These policy areas would provoke major differences of opinion among supporters of the Centre Right and lead a significant number of them to abandon Les R publicains which was a major factor in the election of Emmanuel Macron Changing Party Systems in Western Europe David Broughton, Mark Donovan, 1999-01-04 This is an analysis of the changing pressures and demands placed on party systems in 11 countries in Western Europe since 1945 This book includes studies of the party system in Britain France Italy and Germany as well as studies of Spain Portugal Ireland Sweden Austria Belgium and the Netherlands Five major themes are examined in each chapter First the broad development of the party system is accompanied by a discussion of how different party system typologies have been applied to each country Secondly a detailed discussion of the historical background to party system developments is provided dealing with the main divisions derived from the typology of Lipset and Rokkan Thirdly the most important contextual variables are considered in terms of the electoral environment within which the party system operates Next consideration is given to the degree of unfreezing of the party system since 1945 and the changing balance between stability and change Finally major questions of change and adaptation are examined updating the text **Fascism, Populism and the French Fifth Republic** Catherine Fieschi, 2004-09-04 How can a nation associated with the Declaration of the Rights of Man serve as the context for a successful populist party of the far right This book explains how since the late 1950s French institutions have provided the Front National with ways in which to permeate national politics **Parties and the Party System in France A.** Knapp, 2004-03-12 The French elections of 2002 broke all records for fragmentation abstention and far right protest voting
