French Politics In Transition The Years After De Gaulle:

French Politics in Transition Roy C. Macridis, 1975 *Chronology of Twentieth-Century History: Business and Commerce* Frank N. Magill, 2014-04-23 First Published in 2004 Volume II provides the hard facts and the history behind the headlines significant 20th century events in the evolution of all aspects of business and commerce are described in chronologically arranged articles The text of each article is divided into two sections Summary of the Event describes the event itself and the circumstances leading up to it and Impact of the Event analyzes the influence of the event on the evolution of business practice or on a major industry in both the short and long terms Each article concludes with a fully annotated Bibliography **Communism And Political Systems In Western Europe** David Albright, 2019-08-16 Developments of the 1970s suggest the need for a new approach to the analysis of communism in Western Europe During the early years after World War II Western observers tended to look upon the West European Communist parties as fundamentally an extension of communism in the USSR as national only in the narrow formal sense With the growing signs

French Presidential Elections M. Lewis-Beck, R. Nadeau, É. Bélanger, 2012-01-06 An original and comprehensive study of the sociological and psychological forces driving individual choices in French Presidential elections Based on a unique comparative analysis of four French presidential contests over the last two decades this book presents a rigorous examination of long term and short term voter motivations **The Impact of the Fifth Republic on France** William G. Andrews, Stanley Hoffmann, 1984-06-30 The French have searched for five generations through five republics and several other regimes for a stable political system The Fifth Republic born in 1958 seems to be succeeding where many others have failed What are the reasons and conditions for the French consensus on a system of government for the first time since the ancien regime The first twenty years of the Fifth Republic encompass four presidential elections alternating political control of the National Assembly and years of rapid economic growth and contraction Thus a variety of events now allow an evaluation of the efficacy of the Fifth Republic The chapters of this book examine the governmental framework and various political groups that have vied for control of it industrial development and modernization education and culture and foreign policy Containing both favorable and critical assessments the book provides a comprehensive balance sheet on the Fifth Republic and the influence of Charles De Gaulle *Historical Dictionary of France* Gino Raymond, 2008-10-23 From the construction of Notre Dame and the Eiffel Tower to the Fall of the Bastille and the Declaration of the Rights of Man and the Citizen to Napoleon Bonaparte's defeat at Waterloo to Albert Camus *L'Étranger* and the existentialism of Jean Paul Sartre France has been a part of some of the greatest and most memorable events in human history Author Gino Raymond relates the history of these events in the second edition of the *Historical Dictionary of France* Through a chronology an introductory essay a bibliography and hundreds of cross referenced dictionary entries on kings politicians authors architects composers artists and philosophers a thorough history of France is presented *Electoral Change in Advanced Industrial Democracies*

Russell J. Dalton, Scott E. Flanagan, 2017-03-14 In this study of the breakdown of traditional party loyalties and voting patterns prominent comparativists and country specialists examine the changes now occurring in the political systems of advanced industrial democracies Originally published in 1985 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Political Parties and Elections in the French Fifth Republic J. R. Frears, 1977 Parties and the Party System in France A. Knapp, 2004-03-12

The French elections of 2002 broke all records for fragmentation abstention and far right protest voting yet returned incumbent President Chirac in triumph and gave him a solid basis of parliamentary support Parties and the Party System in France seeks to explain the paradox of France's current relationship to politics through a comprehensive analysis of French political parties and their interaction over the last fifty years set against the two contexts of French history and of contemporary theories of parties and party systems

Problems of Communism, 1976 The Fifth Republic at Twenty William G. Andrews, Stanley Hoffmann, 2015-03-17 The first twenty years of the Fifth Republic encompass four presidential elections alternating political control of the National Assembly and years of rapid economic growth and contraction Thus a variety of events now allow an evaluation of the efficacy of the Fifth Republic The chapters of this book examine the governmental framework and various political groups that have vied for control of it industrial development and modernization education and culture and foreign policy Containing both favorable and critical assessments the book provides a comprehensive balance sheet on the Fifth Republic and the influence of Charles de Gaulle Its 25 essays were written by such well known scholars as Crozier Gagnon Gourvitch Ross Suleiman and others as well as some of the younger generation of French specialists with concluding synthesis by Stanley Hoffmann The book features an essay of historical importance on the Constitution of the Fifth Republic by the Constitution's own father the former Prime Minister of France Michel Debré Looking into the areas of government politics economy society culture and foreign policy this volume gives the reader an understanding of the considerable impact of Charles de Gaulle's administration on contemporary France

French Political Parties Under the Fifth Republic Frank Lee Wilson, 1982 **The Power Of Politics** Jan Willem Duyvendak, 2019-07-11 In the turbulent years of the 1960s and 1970s France like other European countries and the United States was rocked by a new wave of social movements The early development of a strong antinuclear movement during the 1970s made France the prototypical country for new social movements NSMs However in the 1980s these French NSMs experienced a strong decline In this book Jan Willem Duyvendak compares the surprising development of these NSMs in France for peace the environment an end to nuclear technology solidarity squatters rights women's rights and gay rights to the development of

similar campaigns in Germany Switzerland and the Netherlands Although all of these countries share more or less the same economic characteristics they have different political traditions Duyvendak finds that by the 1980s the new social movements were weaker in France because of France s tradition of old political conflicts He concludes that because France was still beset with political splits between center periphery and urban country as well as religious and class strife the development of French society during the 1980s took place at the expense of these new social movements

Problems of Contemporary French Politics Dorothy Pickles,2023-02-14 First published in 1982 *Problems of Contemporary French Politics* looks at the most important political controversies that have preoccupied France from the death of de Gaulle up to and including 1981 presidential and legislative elections Three areas are discussed the evolution of government and opposition parties focusing in particular on their electoral attitudes and on the relations between parties making up the respective coalitions the changes in the European and world situation and their effects on French political thinking in the field of foreign policy and the political situation in which the fourth President of the Fifth Republic and the first socialist President takes up his office Dorothy Pickles looks dispassionately at what promise to be the main issues dominating French politics in the 1980s asking questions rather than suggesting answers This book is a must read for students and scholars of French politics French history European politics and international relations

Ideology, Party Change, and Electoral Campaigns in Israel, 1965-2001 Jonathan Mendilow,2012-02-01 The tumultuous and rapid political change experienced by Israel since 1965 has been reflected in the history of its party system In this book Jonathan Mendilow examines the party and party system transformations through the lens of the electoral campaigns that defined and reflected them He shows that the relative stability of the dominant party system bequeathed from the pre independence era was shattered in the 1960s and replaced by cluster parties that vied for power in the ideological center only to decline and be replaced in turn in the 1980s and early 1990s by ideological party blocs locked in centrifugal competition With the separate direct election of the prime minister since the mid 1990s there has been yet a third profound realignment in party structures ideologies and modes of campaigning according to Mendilow
