*The God of Philosophy* Roy Jackson, 2014-09-03 For centuries philosophers have argued about the existence and nature of God. Do we need God to explain the origins of the universe? Can there be morality without a divine source of goodness? How can God exist when there is so much evil and suffering in the world? All these questions and many more are brought to life with clarity and style in *The God of Philosophy*. The arguments for and against God's existence are weighed up along with discussion of the meaning of religious language the concept of God and the possibility of life after death. This new edition brings the debate right up to date by exploring the philosophical arguments of the new atheists such as Richard Dawkins as well as considering what the latest discoveries in science can tell us about why many believe in the existence of the divine.

*Richard J. Bernstein and the Expansion of American Philosophy* Marcia Morgan, Megan Craig, 2016-12-24 Thinking The Plural Richard J Bernstein and the Expansion of American Philosophy is a text devoted to highlighting scrutinizing and deploying Bernstein's philosophical research as it has intersected and impacted American and European philosophy Collecting essays written explicitly for the volume from former students of Bernstein's the book shows the breadth and scope of his work while expanding key insights into new contexts and testing his work against thinkers outside the canon of his own scholarship In light of urgent contemporary ethical and political problems the papers collected here show the continuing relevance of Bernstein's lifelong focus on democracy dialogue pragmatism fallibilism and pluralism Bernstein has always contested the supposed Analytic Continental divide insisting on the pluralism of philosophical discourses and styles that contribute to genuine debate and save philosophy from stale academicism This book enacts Bernstein's pluralistic spirit by crossing traditions and generating new avenues for ongoing research A central argument of the book is that thinkers of different backgrounds using diverse and even clashing methodologies contribute to the understanding of a given problem issue or theme This argument lies at the heart of Bernstein's published works and is central to the fallibilistic pragmatism of his pedagogy This book therefore does not rest on a single answer to a question or a univocal theme but shows the differentiation of Bernstein's scholarship through the extension of pluralism into territory Bernstein himself did not enter The

chapters individually and collectively demonstrate the force of Bernstein's pluralism beyond mere commentary on his works. This book will be of interest to many people: 1 scholars, students and others in American philosophy who have worked on or with Richard J. Bernstein or in the tradition of American Pragmatism widely construed; 2 those interested in the intersections between American and European philosophy or between the Analytic and Continental traditions; 3 professional philosophers, philosophy students and public intellectuals concerned with the application of theory to contemporary ethical and political problems; and 4 those interested in an introduction to the key concepts animating Bernstein's work and their relationship to the history of philosophy.

*Autobiographics in Freud and Derrida* Jane Marie Todd, 2015-08-14. Originally published in 1990. This uniquely fascinating study approaches the problem of autobiography from two directions: first assessing theories of the self-consciousness and language developed by both Freud and Derrida; second, through the reading of the autobiographical aspects of their writings. The book begins with looking at the issue of making sense of a life by means of representation through autobiography within the field of psychological phenomena: screen memories, mourning, obsession, hysteria, transference. Part 1 focuses on Freud's case histories and psychoanalysis being used to make a narrative of behaviour in language. Part two considers Freud's own Interpretation of Dreams and its autobiographical nature. Part 3 examines intellectual movements such as phenomenology, speech act theory and structuralism, while Parts 4 and 5 turn to Derrida's use of autobiography as self-criticism and his debt to Freud.

Transitions in Continental Philosophy Arleen B. Dallery, Stephen H. Watson, E. Marya Bower, 1994-01-01. This book challenges and renews the discussions that have historically characterized the tradition of continental thought in the areas of ethics, feminism, aesthetics and political theory. The classical origins of this tradition: phenomenology, existentialism and hermeneutics emerged according to models that were foundational and systematic in character. The book shows that continental philosophy is now woven between counter-discourses and concrete interventions complicated in the relationship between theory and practice that is in the transition between concept and determination, idea and intuition, the ontic and the ontological experience and judgment.

A Primer of Freudian Psychology introduces Freud's theories on the dynamics and development of the human mind. Hall also provides a brief biography of Sigmund Freud and examines how he arrived at his groundbreaking conclusions. In discussing

educators of adults to think in new ways about their assumptions theories and practices Part I provides readers with a short history of the notion of experiential learning Part II brings the insights and concerns of feminist theory to bear on mainstream theories of experiential learning Part III examines the assessment of prior experiential learning for academic credit and or professional credentials Part IV addresses a second pedagogical practice that is ubiquitous in adult learning namely the assigning of life narratives Gender Experience and Knowledge in Adult Learning will be of value to scholars and graduate students exploring adult and experiential learning as well as academics wishing to introduce students to a broad range of feminist critical race materialist and postmodernist thinking in the field **The Freud Encyclopedia** Edward
