### **Freudian Analysts Feminist Issues:**

*Freudian Analysts/Feminist Issues* Judith M. Hughes, 1999-01-01 In this book Judith M Hughes makes a highly original case for conceptualizing gender identity as potentially multiple She does so by situating her argument within the history of psychoanalysis Hughes traces a series of conceptual lineages each descending from Freud In the study Helene Deutsch Karen Horney and Melanie Klein occupy prominent places So too do Erik H Erikson and Robert J Stoller Among contemporary theorists Carol Gilligan and Nancy Chodorow are included in Hughes s roster In each lineage Hughes discerns an evolutionary narrative Deutsch tells a story of retrogression Erikson names his epigenesis and Gilligan continues in that vein Horney s discussion recalls sexual selection Stoller s and Chodorow s theorizing brings artificial selection to mind and finally in Klein s work Hughes sees a story of natural selection and adds to it her own notion of multiple gender identities

*Intersexualization* Lena Eckert, 2016-12-08 Since the 1970s research into Intersex has been a central fascination for feminist theorists seeking to make arguments about how men and women are created as social gender categories *Intersexualization The Clinic and the Colony* takes the case of Olympic runner Caster Semenya as a starting point to explore the issue of determining sex and the ways in which intersexuality is a threat to the distinction between men women homosexuality heterosexuality and white black By focusing on the 1950s and the 40 years after Eckert shows how what she calls intersexualization began in psycho medical research at the Johns Hopkins Hospital in Baltimore and UCLA and has from there spread into cross cultural anthropological accounts conducted in Papua New Guinea and the Dominican Republic With cross cultural intersexualization having been largely neglected in recent literature on intersex this timely volume describes how such intersexualization derives from the combination of medicalization and pathologization through two crucial parts The first part *The Clinic* describes historical psycho medical material engaging with hermaphroditism ranging from Greek Mythology up to today This is followed by *The Colony* which analyzes in several close readings cross cultural anthropological sexological and psychoanalytical accounts contributing to cross cultural intersexualization Enclosing a wide range of inter and transdisciplinary approaches to heteronormative and dichotomously organized frames of knowledge and organization this volume is essential reading for upper undergraduate and post graduate students within the fields of gender studies social studies of medicine anthropology science and technology studies cultural studies sociology and history of medicine

**Enlightenment, Passion, Modernity** Mark S. Micale, Robert L. Dietle, Peter Gay, 2000 Enriched by the methods and insights of social history the history of mentalities linguistics anthropology literary theory and art history intellectual and cultural history are experiencing a renewed vitality The far ranging essays in this volume by an internationally distinguished group of scholars represent a generous sampling of these new studies *The Multicultural Imagination* Michael Vannoy Adams, 2019-07-16 *The Multicultural Imagination* is a challenging inquiry into the complex interrelationship between our ideas about race and color and the unconscious Michael Vannoy Adams takes a fresh look at the contributions of

psychoanalysis to a question which affects every individual who tries to establish an effective personal identity in the context of their received racial identity Adams argues that race is just as important as sex or any other content of the unconscious drawing on clinical case material from contemporary patients for whom race or color is a vitally significant social and political concern that impacts on them personally He does not assume that racism or colorism will simply vanish if we psychoanalyse them but shows how a non defensive ego and a self image that is receptive to other images can move us towards a more productive discourse of cultural differences Wide ranging in its references and scope this is a book that provokes the reader analyst or not to confront personally those unconscious attitudes which stand in the way of authentic multicultural relationships

*Guilt and Its Vicissitudes* Judith M. Hughes, 2007-11-21 How do psychoanalysts explain human morality *Guilt and Its Vicissitudes* Psychoanalytic Reflections on Morality focuses on the way Melanie Klein and successive generations of her followers pursued and deepened Freud's project of explaining man's moral sense as a wholly natural phenomenon With the introduction of the superego Freud laid claim to the study of moral development as part of the psychoanalytic enterprise At the same time he reconceptualized guilt he thought of it not only as conscious but as unconscious as well and it was the unconscious sense of guilt that became a particular concern of the discipline he was founding As Klein saw it his work merely pointed the way Judith M Hughes argues that Klein and contemporary Kleinians went on to provide a more consistent and comprehensive psychological account of moral development Hughes shows how Klein and her followers came to appreciate that moral and cognitive questions are complexly interwoven and makes clear how this complexity prompted them to extend the range of their theory Hughes demonstrates both a detailed knowledge of the major figures in post war British psychoanalysis and a keen sensitivity to the way clinical experience informed theory building She writes with vigor and grace not only about Freud and Klein but also about such key thinkers as Riviere Isaacs Heimann Segal Bion and Joseph Guilt and Its Vicissitudes speaks to those concerned with the clinical application of psychoanalytic theory and to those interested in the contribution psychoanalysis makes to understanding questions of human morality

**Women's Studies** Linda Krikos, Cindy Ingold, 2004-08-30 This truly monumental work maps the literature of women's studies covering thousands of titles and Web sites in 19 subject areas published between 1985 and 1999 Intended as a reference and collection development tool this bibliography provides a guide for women's studies information for each title along with a detailed often evaluative review The annotations summarize each work's content its importance or contribution to women's studies and its relationship to other titles on the subject Core titles and titles that are out of print are noted and reviews indicate which titles are appropriate as texts or supplemental texts This definitive guide to the literature of women's studies is a must purchase for academic libraries that support women's studies programs and it is a useful addition to any academic or public library that endeavors to represent the field A team of subject specialists has taken on the immense task of documenting publications in the area of women's studies in the last decades of the 20th century The

result is this truly monumental work which maps the field covering thousands of titles and Web sites in 19 subject areas published between 1985 and 1999. Intended as a reference and collection development tool, this bibliography provides a guide for women's studies information for each title along with a detailed, often evaluative review. The annotations summarize each work's content, its importance or contribution to women's studies, and its relationship to other titles on the subject. Most reviews cite and describe similar and contrasting titles, substantially extending the coverage. Core titles and titles that are out of print are noted, and reviews indicate which titles are appropriate as texts or supplemental texts. Taking up where the previous volume by Loeb, Searing, and Stineman left off, this is the definitive guide to the literature of women's studies. It is a must purchase for academic libraries that support women's studies programs and a welcome addition to any academic or public library that endeavors to represent the field.

**The Formation of 20th-Century Queer Autobiography** G.

Johnston, 2016-04-30 In their literary autobiographies, modernists Vita Sackville West, Gertrude Stein, Virginia Woolf, and H. D. Hilda Doolittle challenge the scientific figures of the perverse lesbian, particularly those promulgated by Havelock Ellis and Sigmund Freud. By multiplying their I's, manipulating subject and object divisions, undermining boundaries between writer and audience, and using repetition to code erotic moments, these writers queer the terms of autobiography. That queering requires understanding autobiography as more institutional than introspective, and the autobiographies themselves question the very theories that determine them—theories of lesbianism, female development, and memory.

*Jesus in Our Wombs*  
Rebecca J. Lester, 2005-04-04 A stunning first book, *Jesus in Our Wombs* is a haunting ethnography with fresh theoretical insights. Blending psychoanalytic theories with postmodern imageries, Lester demonstrates that the body is both a source and object of analysis. This is a model ethnography.

Vicki Ruiz, author of *From Out of the Shadows: Mexican Women in the Twentieth Century America*. In *Jesus in Our Wombs*, Rebecca Lester uses her rich, evocative ethnography of the first year experiences of nuns in training to explore the formation and transformation of selves, the relationships of bodily practices, and the centrality of gender to these intertwined processes of self-formation and embodiment. This work will spark renewed interest in the potential of psychoanalysis and psychoanalytic theories of change to offer insights for crucial theoretical issues in anthropology and the social sciences more generally.

A superb book. Dorothy Hodgson, author of *The Church of Women: Gendered Encounters between Maasai and Missionaries*. This study of young Mexican nuns in their first year of training is a thought-provoking and ethnographically rich work that will be an important contribution to the anthropological study of religion, gender, and embodiment. Through her careful analysis of the ways the postulantes negotiate their training intellectually, emotionally, and bodily, Lester provides unique insights into the religious processes of personal transformation. A beautifully observed ethnography of life in a Catholic convent.

Joel Robbins, author of *Becoming Sinners: Christianity and Moral Torment in a Papua New Guinea Society*.

classical and contemporary psychoanalysis The chapters included in this book span the course of David James Fisher's career They contextualize significant cases from the recent history of psychoanalysis critically analyze key aspects of psychoanalytic work consider the role of psychoanalysis in the history of the twentieth century and provide biographical sketches of major figures in the field The book concludes with a cogent interview of the author by a distinguished psychohistorian depicting how subjectivity family themes politics and cultural affinities marked his choice of subject matter and methodology his identifications and his antipathies The Subversive Edge of Psychoanalysis will appeal to mental health professionals and students with an interest in psychoanalytic practice and theory and academics and researchers who are fascinated by the subversive non conforming aspects of both classical and contemporary psychoanalysis      **From Obstacle to Ally** Judith M. Hughes, 2004 From Obstacle to Ally explores the evolution of psychoanalysis and succeeds in bringing alive the ideas clinical struggles and evolving practices of some of the most influential psychoanalysts of the last century      *The Holocaust and the Revival of Psychological History* Judith M. Hughes, 2015 Why did men and women in one of the best educated countries in the Western world set out to get rid of Jews In this book Judith M Hughes focuses on how historians efforts to grapple anew with matters of actors meanings intentions and purposes have prompted a return to psychoanalytically informed ways of thinking Hughes makes her case with fine grained analyses of books by Hugh Trevor Roper Ian Kershaw Daniel Goldhagen Saul Friedlander Christopher Browning Jan Gross Hannah Arendt and Gitta Sereny All of the authors pose psychological questions the more astute among them shed fresh light on the Holocaust without making the past any less disturbing      *The Perversion of Holocaust Memory* Judith M. Hughes, 2022-02-24 In the early years of the 21st century it appeared that the memory of the Holocaust was secure in Western Europe that in order to gain entry into the European Union the countries of Eastern Europe would have to acknowledge their compatriots complicity in genocide Fifteen years later the landscape looks starkly different Shedding fresh light on these developments The Perversion of Holocaust Memory explores the politicization and distortion of Holocaust remembrance since 1989 This innovative book opens with an analysis of events across Europe which buttressed confidence in the stability of Holocaust memory and brought home the full extent of nations participation in the Final Solution And yet as Judith M Hughes reveals in later chapters mainstream accountability began to crumble as the 21st century progressed German and Jewish suffering was equated anti Semitic rhetoric re entered contemporary discourse populist leaders side stepped inconvenient facts and more recently with the revival of ethno nationalism Holocaust remembrance has been caught in the backlash of the European refugee crisis The four countries analyzed here France Germany Hungary and Poland could all claim to be victims of Nazi Germany the Allies or the Communist Soviet Union but they were also all perpetrators Ultimately it is this complex legacy which Hughes adroitly untangles in her sophisticated study of Holocaust memory in modern Europe      *Freudians And Feminists* Edith Kurzweil, 2019-03-04 This book traces the intellectual history of the interaction between feminists and Freudian thought charting the essence of psychoanalytic theories

through the years to show specific notions were adapted readapted and discarded by successive generations of feminists
