Harrod And His Trade Cycle Group:

Harrod and His Trade Cycle Group Warren Young, 1989-06-18 This book discusses the origins and development of the growth research programme in economics Warren Young has also written *Minorities and the Military* and *Interpreting Mr Keynes The IS LM Enigma* The Keynesian Tradition R. Leeson, 2008-04-30 This volume examines the process by which Keynes message got interpreted and re interpreted and thus separated into a Left and a Right political economic stream Archival evidence is used to shed a fresh light on many of the controversies and colourful characters of the Keynesian tradition **Harrod and his Trade Cycle Group** Warren Young, 1989 Roy Harrod Esteban Pérez Caldentey, 2019-09-10 This landmark book describes and analyzes the original contributions Sir Roy Harrod made to fields including microeconomics macroeconomics international trade and finance growth theory trade cycle analysis and economic methodology Harrod s prolific writings reflect an astounding and unique intellectual capacity and a wide range of interests He became Keynes biographer and wrote a volume on inductive logic At the policy level Harrod played a central role in the formulation of the Keynes Clearing Union plan for international monetary reform He also actively participated in British politics and government and gained recognition as an expert in the field of international economics Yet until now Harrod has remained an underrated economist commonly misunderstood and misrepresented This is the first major intellectual biography of Harrod to be published Booms and Busts: An Encyclopedia of Economic History from the First Stock Market Crash of 1792 to the Current Global Economic Crisis Mehmet Odekon, 2015-03-17 This timely and authoritative set explores three centuries of good times and hard times in major economies throughout the world More than 400 signed articles cover events from Tulipmania during the 1630s to the U S federal stimulus package of 2009 and introduce readers to underlying concepts recurring themes major institutions and notable figures Written in a clear accessible style Booms and Busts provides vital insight and perspective for students teachers librarians and the general public anyone interested in understanding the historical precedents causes and effects of the global economic crisis Special features include a chronology of major booms and busts through history a glossary of economic terms a guide to further research an appendix of primary documents a topic finder and a comprehensive index It features 1 050 pages three volumes 8 1 2 X 11 topic finder photos chronology glossary primary documents bibliography and index Economic Dynamics, Trade and Growth A.P. Thirlwall, Giorgio Rampa, Luciano Stella, 2015-12-31 Sir Roy Harrod was one of the foremost economists of the twentieth century who made pioneering contributions in several branches of economics including trade cycle theory growth theory trade theory monetary economics imperfect competition theory and methodology This volume arises out of a conference to celebrate the sixtieth anniversary of the publication of his book *The Trade Cycle* in 1936 After an introductory essay by Walter Eltis a student of Harrod this volume contains important essays on the interpretation of Harrod s work in the field of economic dynamics by Danial Besomi and Maurizio Pugno and in the field of trade and growth by Tony Thirlwall John

McCombie and Luca Bendictis Finally Warren Young in the process of writing Harrod s biography uses correspondence between Harrod and Haberler to elucidate Harrod s views on trade theory international monetary reform and inflation

Business Cycles and Depressions David Glasner,2013-12-16 Experts define review and evaluate economic fluctuations Economic and business uncertainty dominate today s economic analyses This new Encyclopedia illuminates the subject by offering 323 original articles on every major aspect of business cycles fluctuations financial crises recessions and depressions The work of more than 200 experts including many of the leading researchers in the field the articles cover a broad range of subjects including capsule biographies of leading economists born before 1920 Individual entries explore banking panics the cobweb cycle consumer durables the depression of 1937 1938 Otto Eckstein Friedrich Engels experimental price bubbles forced savings lass Steagall Act Friedrich hagen qualitative indicators use of macro econometric models monetary neutrality Phillips Curve Paul Samuelson Say s law supply side recessions James Tokin trend and random wages Thorstein Veblen worker job turnover and more *The Making of Harrod's Dynamics* D. Besomi,1999-08-12 This book inquires into the origin and early development of Roy Harrod s notion of economic dynamics It examines how Harrod gathered the analytical methodological and epistemic components of his theory and how these are logically connected It shows that the organizing concept is the instability principle a premise rather than a result of Harrod s trade cycle theory The relationship of Harrod s dynamics with the orthodox theory and with the alternative approaches to dynamics is also examined *An Encyclopedia of Keynesian Economics, Second edition* Thomas Cate,2013-01-01 Acclaim for the first edition This easy to read collection tells the whole story Filled with short well written pieces the encyclopedia covers the names and ideas that preceded Keynes that carried his work to the center of the profession and that eventually supplanted him there There are excellent and unexpected articles on the Austrian school the Lausanne school and the Ricardo effect There are well done pieces on all the basic theoretical models at the heart of Keynesianism the volume has been well put together The editors deserve special praise for letting each contributor tell his own story Those who oppose Keynes s ideas are just as well represented as those who carry the torch for him This evenhandedness helps to ensure a volume that is truly representative and that will allow its users to get a full picture of the life and times of Keynesian economics Bradley W Bateman Grinnell College US The book will also be of some interest to serious scholars partly because it includes biographies of many economists too young to have been included in the New Palgrave such as Dornbusch Fisher Herschel Grossman Kregel Lucas and Robert Townsend It also includes some very interesting longer essays Peter Howitt The Economic Journal This book provides an excellent summary of the many strands of Keynesian style thought both before and after 1936 Its well considered entries take care to make explicit the assumptions and fundamental points of difference between theories too often concealed by the parents and advocates of specific theories in their zeal to promote the universality of the ideas There is scarcely an entry that suffers from wordiness and repetition the reader s scarce time is not abused Elizabeth Webster Economic Record This reviewer found using this

source exhilarating and endowed with additional interest in view of the 1997 discussion on the inclusion or noninclusion of Keynesian economics in introductory economics textbooks The editors should be applauded for helping to preserve a part of intellectual heritage Bogdan Mieczkowski American Reference Books It is the best single reference source on Keynesian economics and will be welcomed by students and teachers in economics as well as scholars in related social sciences and government policy makers Educational Book Review This thoroughly revised and updated second edition of a highly acclaimed and authoritative reference work introduces the major concepts in the field of Keynesian economics The comprehensive Encyclopedia features accessible informative and provocative contributions by leading international scholars working in the tradition of Keynes It brings together widely dispersed yet theoretically congruent ideas presents concise biographies of economists who have contributed to the debate on Keynes and the Keynesian Revolution and outlines the basic principles models and tools used to discuss the economic consequences of The General Theory Longer entries on specific topics associated with Keynes and the Keynesian Revolution analyse the principal factors that contributed to The General Theory the economics of Keynes and the rise and apparent decline of Keynesian economics in greater detail The second edition will ensure that An Encyclopedia of Keynesian Economics will remain the best single reference source on Keynesian economics and will continue to be welcomed by academics students and teachers of economics as well as by scholars in related social sciences and government policymakers **The Palgrave Companion to Oxford Economics** Robert A.

Cord,2021-06-16 The University of Oxford has been and continues to be one of the most important global centres for economics With six chapters on themes in Oxford economics and 24 chapters on the lives and work of Oxford economists this volume shows how economics became established at the University how it produced some of the world s best known economists including Francis Ysidro Edgeworth Roy Harrod and David Hendry and how it remains a global force for the very best in teaching and research in economics With original contributions from a stellar cast this volume provides economists especially those interested in macroeconomics and the history of economic thought with the first in depth analysis of Oxford economics The Elgar Companion to Post Keynesian Economics J. E. King,2012-01-01 The Elgar Companion to Post

Keynesian Economics is a comprehensive guide to economic analyses in the tradition of Keynes and the so called Cambridge UK school of economics The coverage of themes and different theoretical orientations within Post Keynesianism is remarkable and the quality of the various entries is impressive John Kings invisible hand is responsible for a minimum of overlaps and an optimum in quality and comprehensibility This book has already proved to be of interest to a wide range of economists and can be expected to continue to do so for a long time to come Heinz D Kurz University of Graz Austria This thoroughly revised and updated second edition provides a comprehensive guide to Post Keynesian methodology theory and policy prescriptions The Companion reflects the challenges posed by the global financial crisis that began in 2008 and by the consolidation of the New Neoclassical Synthesis in macroeconomic theory There are 41 entirely new entries marking the

emergence of a new generation of Post Keynesian scholars The central issues that were dealt with in the first edition remain at the core of the book but much more attention is paid in this second edition to financial markets to Post Keynesian economics outside its traditional Anglo American heartland and to gender issues and environmental policy Including major theoretical methodological and policy issues in Post Keynesian economics this enriching Companion will strongly appeal to postgraduate and advanced undergraduate students in economics as well as related social science disciplines including international political economy international relations politics public policy and sociology

British national identity and opposition to membership of Europe, 1961-63 Robert Dewey, 2013-07-19 This book provides a comprehensive analysis of the opponents of Britain's first attempt to join the European Economic Community EEC between the announcement of Harold Macmillan's new policy initiative in July 1961 and General de Gaulle's veto of Britain's application for membership in January 1963 In particular this study examines the role of national identity in shaping both the formulation and articulation of arguments put forward by these opponents of Britain's policy To date studies of Britain's unsuccessful bid for entry have focused on high political analysis of diplomacy and policy formulation In most accounts only passing reference is made to domestic opposition This book redresses the balance by providing a more complete depiction of the opposition movement and a distinctive approach that proceeds from a low political viewpoint As such the book emphasises protest and populism of the kind exercised by among others Fleet Street crusaders at the Daily Express pressure groups such as the Anti Common Market League and Forward Britain Movement expert pundits like A J P Taylor Sir Arthur Bryant and William Pickles as well as constituency activists independent parliamentary candidates pamphleteers letter writers and maverick MPs In its consideration of a group largely overlooked in previous accounts the book provides essential insights into the intellectual structural populist and nationalist dimensions of early Euroscepticism The book will be of significant interest to both scholars and students of national identity Britain's relationship with Europe and the Commonwealth pressure groups and party politics and the trajectory of the Eurosceptic phenomenon

The New Palgrave Dictionary of Economics, 2016-05-18

The award winning The New Palgrave Dictionary of Economics 2nd edition is now available as a dynamic online resource Consisting of over 1 900 articles written by leading figures in the field including Nobel prize winners this is the definitive scholarly reference work for a new generation of economists Regularly updated This product is a subscription based product

Post Keynesian Price Theory Frederic S. Lee, 1999-02-04 This book sets out the foundations of post Keynesian price theory Blending theory and analysis it is the first comprehensive assessment of post Keynesian price theory and its foundations Scholars and students will particularly welcome the emphasis on the non neoclassical and non equilibrium nature of post Keynesian price theory

Political Events and Economic Ideas Ingo Barens, Volker Caspari, Bertram

Schefold, 2004-01-01 The influence of political developments on the evolution of economic thought is the main theme behind this book As the authors reveal throughout the book history has shown many times that political events can trigger the

formulation of new economic conceptions that in turn influence the future economic development of a country The papers are arranged into five main areas of interest monetary theory and policy economic crisis in France and the emergence of the physiocratic school the co evolution of political ideas and economic thought in different countries and periods in Europe continuity and discontinuity in Russian economic thought attempted economic solutions to the problems posed by the Great Depression and the associated political transformation Political Events and Economic Ideas will hold great appeal and interest for researchers and scholars of political thought as well as historians of economic thought worldwide **Keynes's**

Theoretical Development Toshiaki Hirai,2007-09-14 Comprehensive and authoritative this book written by a recognized authority on the subject explores the contributions to modern economics by John Maynard Keynes and addresses neglected yet crucial aspects of the genesis of Keynesian economics In this book the author elucidates Keynes development as an economic theoretician through an examination of his books articles various manuscripts lecture notes and controversial correspondence Departing from a narrative account and analyzing processes of theory building and re building which constitute Keynes s intellectual journey from the Tract to the General Theory this volume shows Keynes theoretical development as a theoretical hypothesis An excellent exposition of Keynes contribution this is a valuable addition to the bookshelves of all to students and researchers interested in Keynes and more widely the history of economic thought and macroeconomics **Interpreting Mr. Keynes** Warren Young,1987 **Oxford Economics And Oxford Economists** W.

Young,F. Lee,1993-02-19 This book focuses upon the development of economics at Oxford after the establishment of PPE and the contributions of Oxford economists during the years of high theory and afterwards Students recollections of tutorials and lectures and their tutors and lecturers along with examination questions and results amongst other aspects of teaching at Oxford are presented here for the first time In addition the many contributions of Oxford economists such as Harrod Allen Andrews Hicks Meade Richardson and Steindl including the staff of the Oxford Institute of Statistics along with the story of the Institute itself are dealt with Unpublished correspondence memoranda and papers are collected at various archives are cited to show that Oxford s contribution to the development of economics was equal to that of Cambridge **Economists in**

Cambridge Maria Cristina Marcuzzo,Annalisa Rosselli,2013-02-01 The University of Cambridge has produced more Nobel Prize winning economists than the whole of France This impressive book collects together largely unpublished correspondence from some of the twentieth century s key figures including Keynes Robinson Hayek and Sraffa The Value of Applied Economics Kenneth Button,2017-12-29 This biography of the applied English economist Arthur A J Brown an English economist from the late 1930s to the 1980s sets his work in the context of the Great Depression the emergence of Oxford University as a centre of applied economic research the contraction of British colonialism in Africa the enlarging of the UK university system the post war arms race the UK joining the Common Market and significant changes in the industrial structure of Britain
