the world Uniquely presented the chapters are organized thematically as mini exhibitions and offer readings of select works by contemporary artists including Tehching Hsieh Byron Kim Simon Leung Mary Lum and Nikki S Lee Inspired above all by their art practice the author argues for an alternative approach to exhibition making and methods of reading that conceives of these works not as exemplary instances of Asian American art but as engaged in an aesthetic practice that remains open ended challenging the assumptions that racialize artists within an Asian American context In this book the author insists that in order to reassess Asian American art beyond its place in art history she suggests the possible need to let go not only of established viewing and curatorial practices but even the category of Asian American art itself *Children's Book Review Index* Gary C.
