Periodizing Secularization Clive D. Field, 2019-10-31 Moving beyond the now somewhat tired debates about secularization as paradigm theory or master narrative Periodizing Secularization focuses upon the empirical evidence for secularization viewed in its descriptive sense as the waning social influence of religion in Britain Particular emphasis is attached to the two key performance indicators of religious allegiance and churchgoing each subsuming several sub indicators between 1880 and 1945 including the first substantive account of secularization during the fin de siècle A wide range of primary sources is deployed many of them relatively or entirely unknown and with due regard to their methodological and interpretative challenges On the back of them a cross cutting statistical measure of active church adherence is devised which clearly shows how secularization has been a reality and a gradual not revolutionary process The most likely causes of secularization were an incremental demise of a Sabbatarian culture coupled with the associated emergence of new leisure opportunities and transport links and of religious socialization in the church at home and in the school The analysis is also extended backwards to include a summary of developments during the eighteenth and early nineteenth centuries and laterally to incorporate a preliminary evaluation of a six dimensional model of diffusive religion

demonstrating that these alternative performance indicators have hitherto failed to prove that secularization has not occurred The book is designed as a prequel to the author s previous volumes on the chronology of British secularization Britain s Last Religious Revival 2015 and Secularization in the Long 1960s 2017 Together they offer a holistic picture of religious transformation in Britain during the key secularizing century of 1880 1980 **The Freethinker** ,1890

Lightman,2023-05-31 Scholars have tended to portray T H Huxley John Tyndall and their allies as the dominant cultural authority in the second half of the 19th century Defenders of Darwin and his theory of evolution these men of science are often seen as a potent force for the secularization of British intellectual and social life In this collection of essays Bernard Lightman argues that historians have exaggerated the power of scientific naturalism to undermine the role of religion in middle and late Victorian Britain The essays deal with the evolutionary naturalists especially the biologist Thomas Henry Huxley the physicist John Tyndall and the philosopher of evolution Herbert Spencer But they look also at those who criticized this influential group of elite intellectuals including aristocratic spokesman A J Balfour the novelist Samuel Butler and the popularizer of science Frank Buckland Focusing on the theme of the limitations of the cultural power of evolutionary naturalism the volume points to the enduring strength of religion in Britain in the latter half of the 19th century *Atheism,*

Ayn Rand, and Other Heresies George H. Smith, 2010-06-03 In this wide ranging collection of articles essays and speeches George H Smith analyzes atheism and its relevance to society today The featured essay in this volume provides a full analysis of Ayn Rand s unique contribution to atheism explaining how her objectivist metaphysics and laissez faire economic principles rested on a purely godless worldview Several chapters address the evolution of atheism arguments in favor of religious toleration the efforts of early Church fathers to discredit Roman polytheism and how these arguments can be used with equal force against later Christian descriptions of God and a survey of the contributions to freethought made by the deists of the 18th and 19th centuries With incisive logic and considerable wit Smith ties atheism to reason and argues that reason itself can be a moral virtue In one penetrating chapter Smith salutes three Christian theorists who he believes embody the spirit of reason Thomas Aquinas Desiderius Erasmus and John Locke This is followed by a philosophical drubbing of his least favorite Christians St Paul St Augustine and John Calvin In subsequent chapters Smith examines religion and education addresses the 20th century fundamentalist revival offers suggestions on how to debate atheism with religious believers critiques new religions including pop therapy est and transactional analysis and provides a comprehensive bibliographic essay on the literature of freethought
