Freud And His Early Circle

Robert S. Wistrich

Freud And His Early Circle:

Nietzsche's Presence in Freud's Life and Thought Ronald Lehrer, 1995-01-01 This book examines the nature of Freud's relationship to the philosopher Friedrich Nietzsche. Nietzsche regarded himself among other things as a psychologist. His psychological explorations included an understanding of the meaning and function of dreams, the unconscious, sublimation of drives, drives turned inward upon the self, unconscious guilt, unconscious envy, unconscious resistance, and much more that anticipated some of Freud's fundamental psychoanalytic concepts. Although Freud wrote of Nietzsche having anticipated psychoanalytic concepts, he denied that Nietzsche had any influence on his thought. *Freud and his early circle* Vincent Brome, 1967

The Wounded Jung Robert C. Smith, 1996 By exploring Carl Jung's transformative life experience and its effect on his thoughts and writings, *The Wounded Jung* shows how Jung's interest in the healing of the psyche was rooted in the conflicts of his childhood. Conundrums Jon Mills, 2012 First Published in 2012 Routledge is an imprint of Taylor

Francis, an informa company. **The Subjectivity of Scientists and the Bayesian Approach** S. James Press, Judith M. Tanur, 2016-03-16 Originally published New York: John Wiley & Sons Inc, 2001. The New York Times Book Review, 1988

Collaborative Circles Michael P. Farrell, 2003-11 Many artists, writers, and other creative people do their best work when collaborating within a circle of likeminded friends. Experimenting together and challenging one another, they develop the courage to rebel against the established traditions in their field. Out of their discussions, they develop a new shared vision that guides their work, even when they work alone. In a unique study that will become a rich source of ideas for professionals and anyone interested in fostering creative work in the arts and sciences, Michael P. Farrell looks at the group dynamics in six collaborative circles: the French Impressionists, Sigmund Freud and his friends, C. S. Lewis, J. R. R. Tolkien, and the Inklings, social reformers Elizabeth Cady Stanton and Susan B. Anthony, the Fugitive poets, and the writers Joseph Conrad and Ford Madox Ford. He demonstrates how the unusual interactions in these collaborative circles drew out the creativity in each member. Farrell also presents vivid narrative accounts of the roles played by the members of each circle. He considers how working in such circles sustains the motivation of each member to do creative work, how collaborative circles shape the individual styles of the persons within them, how leadership roles and interpersonal relationships change as circles develop, and why some circles flourish while others flounder.

In Freud's Shadow Paul E. Stepansky, 2013-04-15 In its detailed interpretive reconsideration of Adler's involvement with Freud and psychoanalysis, *In Freud's Shadow* constitutes a seminal contribution to our historical understanding of the early psychoanalytic movement. Making extensive use of the Minutes of the Vienna Psychoanalytic Society, Freud's correspondence, and the diaries of Lou Andreas-Salomé, Stepansky reconstructs the ambience and reanalyzes the substance of the ongoing debates about Adler's work within the psychoanalytic discussion group. One valuable by-product of his undertaking is a compelling portrait of the early Vienna Psychoanalytic Society from the standpoint of the sociology of small groups, and more especially of Freud's status as the group leader of the Society.

Thoroughly researched meticulously documented and brilliantly written *In Freud's Shadow: Adler in Context* represents a watershed in the literature on Adler, Freud and the history of psychoanalysis. It will be of major interest not only to psychoanalysts, psychiatrists and psychologists but to social scientists, historians and lay readers interested in the politics of scientific controversy, the sociology of small groups and the relationship of psychology to contemporary systems of belief.

The Jews of Vienna in the Age of Franz Joseph Robert S. Wistrich, 2019-08-18 Robert Wistrich's exemplary scholarly analysis of the Viennese Jewish community in the 19th century is the first well-written, reliable study of its kind. It gives elegant portraits of the crucial Jewish figures of the new Viennese politics at the turn of the century, focuses on the internal history of the highly diversified Jewish community. Wistrich analyzes effectively the genesis of Herzl's Zionism from within the Viennese context. Although his sympathies for Zionism are clear, he is respectful of Jewish critics of Zionism. What is refreshing in his narrative is the absence of retrospective critical moralizing about assimilation and the remarkable participation of Jews in German culture. Assimilated Jewish aristocrats and intellectuals, even Jews who converted to Christianity, are presented with as much evenhandedness as those Viennese Jewish nationalists and traditionalist theologians whose mistrust of assimilation and acculturation as reliable defenses against prejudice seems to have been vindicated by the Holocaust. *The Jews of Vienna in the Age of Franz Joseph* is not merely a descriptive history of Viennese Jewry. It vindicates the centrality of Jewishness and anti-Semitism as dynamic and changing forces in the evolution of 19th-century Austro-German politics and culture. Mr. Wistrich's poignant narrative reminds us that the struggle for civic equality, social acceptance and economic security by the Jews of 19th-century Vienna resulted among other things in a steady stream of diverse and unforgettable contributions to art, science and culture. Even if the hopes implicit in the political and social struggle of the Jews of Vienna before 1914 were dashed finally by the violence of Nazism, Mr. Wistrich's book is a moving reminder of what high hopes they were. Leon Botstein, *The New York Times Book Review*. The excellence of his book lies in the high quality of scholarship, the sensitivity to nuance, the desire to map the entire Jewish response to the crisis of the empire in all its complexity. Michael Ignatieff, *New York Review of Books*. Will be the standard work for some time to come. Eminently readable. Peter Pulzer, *London Review of Books*. A monumental book which will be indispensable for a long time to come. Ritchie Robertson, *German History*. Wistrich draws all the strands of this complex story very clearly together. Broadly conceived, his book has a compelling dramatic interest and is certain to remain a standard guide to its subject for a long time. Roger Morgan, *Times Literary Supplement*. A paradigm of fine Jewish historical writing and analysis. Wistrich builds his work by exhaustively treating the important trends and figures which Viennese Jewry produced. Sharon Fleisher, *Jerusalem Post*. A veritable summa of the religious, cultural and political history in which the Viennese Jews were the main agents of change during the decline of the Habsburg monarchy. Victor Karady, *Liber*. [The Biography Book](#) Daniel S. Burt, 2001-02-28 From Marilyn to Mussolini, people captivate people. A.E.'s Biography best-selling autobiographies and biographical novels testify to the popularity of the

genre But where does one begin Collected here are descriptions and evaluations of over 10 000 biographical works including books of fact and fiction biographies for young readers and documentaries and movies all based on the lives of over 500 historical figures from scientists and writers to political and military leaders to artists and musicians Each entry includes a brief profile autobiographical and primary sources and recommended works Short reviews describe the pertinent biographical works and offer insight into the qualities and special features of each title helping readers to find the best biographical material available on hundreds of fascinating individuals

Psychoanalytic Filiations Ernst Falzeder, 2019-08-22 This book presents the early history of psychoanalysis focusing on the network of psychoanalytic filiations and the context of discovery of crucial concepts such as Freud's technical recommendations the therapeutic use of countertransference and the psychotherapeutic treatment of psychoses

Edward Bibring Photographs the Psychoanalysts of His Time Edward Bibring, 2005

London Kleinians in Los Angeles Jennifer Langham, 2023-02-09 In 1968 Wilfred Bion and Albert Mason emigrated to Los Angeles at the invitation of a group of young analysts to teach and train local clinicians in the British object relations tradition They were joined by Susanna Isaacs Elmhirst for a period London Kleinians in Los Angeles is a colorful account of the early days of psychoanalysis in LA punctuated by in person presentations from the leading Kleinians of the day including Hanna Segal Herbert Rosenfeld Donald Meltzer and Wilfred Bion himself Their unpublished lectures from the 1960s and 1970s appear in Part I Part II features seminal papers by the founding fathers of the Psychoanalytic Center of California PCC James Gooch James Grotstein Arthur Malin and Albert Mason the group's leading spokesperson PCC continues to function as a vital center of psychoanalytic training and education in the British object relations tradition The unearthing of four unpublished contributions from four founding Kleinians is an incredible find for psychoanalysis and this book is highly recommended to all professionals and trainees in the field Those with an interest in the history of psychoanalysis will find much to excite them

Freud's World Luis A. Córdón, 2012-05-08 Comprising well known and obscure information this compendium provides a historical context to the facts of Sigmund Freud's life theories and influence on society Sigmund Freud is one of the most influential 20th century intellectuals in Europe and the United States His innovative theories and unprecedented practices are topics worthy of extensive review but just as fascinating are the events of his life and the origins of his core beliefs Freud's World An Encyclopedia of His Life and Times organizes the important components of Freud's life and work in an encyclopedia format enabling readers to quickly zero in on the particular ideas individuals and circumstances that contributed to his vast influence Controversy about the scientific utility of psychoanalytic concepts is specifically addressed Gathering a wide range of information into a single easy to read volume this book serves as an ideal starting point for any student interested in learning about Sigmund Freud

Fire in the Dragon and Other Psychoanalytic Essays on Folklore Géza Róheim, 2021-08-10 The only Freudian to have been originally trained in folklore and the first psychoanalytic anthropologist to carry out fieldwork Géza Róheim 1891-1953 contributed substantially to

the worldwide study of cultures Combining a global perspective with encyclopedic knowledge of ethnographic sources this Hungarian analyst demonstrates the validity of Freudian theory in both Western and non Western settings These seventeen essays written between 1922 and 1953 are among Rcheim s most significant published writings and are collected here for the first time to introduce a new generation of readers to his unique interpretations of myths folktales and legends From Australian aboriginal mythology to Native American trickster tales from the Grimm folktale canon to Hungarian folk belief Rcheim explores a wide range of issues such as the relationship of dreams to folklore and the primacy of infantile conditioning in the formation of adult fantasy An introduction by folklorist Alan Dundes describes Rcheim s career and each essay is prefaced by a brief consideration of its intellectual and bibliographical context **Psychogenic Movement**

Disorders Mark Hallett,C. Robert Cloninger,2006 This groundbreaking volume is the first text devoted to psychogenic movement disorders Co published by Lippincott Williams Wilkins and the American Academy of Neurology the book contains the highlights of an international multidisciplinary conference on these disorders and features contributions from leading neurologists psychiatrists psychologists physiatrists and basic scientists Major sections discuss the phenomenology of psychogenic movement disorders from both the neurologist s and the psychiatrist s viewpoint Subsequent sections examine recent findings on pathophysiology and describe current diagnostic techniques and therapies Also included are abstracts of 16 seminal free communications presented at the conference *A Short Introduction to Psychoanalysis* Jane Milton,Caroline Polmear,Julia Fabricius,2011-03-28 Electronic Inspection Copy available here The best simply got better The first edition of this book was already quite simply the best introduction to psychoanalysis ever written and has been appropriately extremely popular with teachers and students alike The thoroughly updated second edition retains all the powerful features of the first including its remarkable clarity and accessibility The field will be greatly indebted to these authors for many years Professor Peter Fonagy University College London *A Short Introduction to Psychoanalysis* offers a user friendly introduction to arguably the most misunderstood of all the psychological therapies This fully updated and revised second edition explains what psychoanalysis really is and provides the reader with an overview of its basic concepts historical development critiques and research base Demonstrating the far reaching influence of psychoanalysis the authors all practicing psychoanalysts describe how its concepts have been applied beyond the consulting room and examine its place within the spectrum of other psychological theories The text is enlivened by numerous clinical examples New to this edition the book o discusses parent infant psychotherapy and mentalization based therapy MBT o further investigates psychotherapy in the NHS and the IAPT programme with more on the debate between CBT and analytic approaches o includes more on dreaming and attachment theory with added examples o includes new research studies and addresses the new field of psychosocial studies This down to earth guide provides the ideal way in to the subject for new trainees For anyone thinking of becoming a psychoanalyst the book also provides information on the training process and the structure of the profession *Oedipus Unbound* René

Girard, Mark Rogin Anspach, 2004 These hard to find writings afford an inside look at the emergence of Girard's scapegoat theory from his pioneering analysis of rivalry and desire Girard unbinds the Oedipal triangle from its Freudian moorings replacing desire for the mother with desire for anyone or anything a rival desires **Karl Abraham** Anna Bentinck van Schoonheten, 2018-05-08 This book provides the reader with rich evidence of the very contemporaneity of Karl Abraham reminding the reader of his unique clinical contributions to such diverse areas of concentration as the psychoses depression and the pre oedipal **The Austrian Mind** William M. Johnston, 2023-09-01 Part One of this book shows how bureaucracy sustained the Habsburg Empire while inciting economists legal theorists and socialists to urge reform Part Two examines how Vienna's coffeehouses theaters and concert halls stimulated creativity together with complacency Part Three explores the fin de siècle world view known as Viennese Impressionism Interacting with positivistic science this reverence for the ephemeral inspired such pioneers as Mach Wittgenstein Buber and Freud Part Four describes the vision of an ordered cosmos which flourished among Germans in Bohemia Their philosophers cultivated a Leibnizian faith whose eventual collapse haunted Kafka and Mahler Part Five explains how in Hungary wishful thinking reinforced a political activism rare elsewhere in Habsburg domains Engage intellectuals like Lukacs and Mannheim systematized the sociology of knowledge while two other Hungarians Herzl and Nordau initiated political Zionism Part Six investigates certain attributes that have permeated Austrian thought such as hostility to technology and delight in polar opposites Part One of this book shows how bureaucracy sustained the Habsburg Empire while inciting economists legal theorists and socialists to urge reform Part Two examines how Vienna's coffeehouses theaters and concert halls stimulated creativity together with
