

Freud Revisited

*Psychoanalytic Themes
in the Postmodern Age*

EDITED BY
JO CAMPLING

Freud Revisited

Jerome C. Wakefield

Freud Revisited:

Freud Revisited R. Horrocks, 2001-02-13 Freud Revisited sees Freud as one of the last great exponents of Enlightenment rationalism yet he also forms part of modernism which shattered traditional forms in art and he leads forward to certain postmodern ideas The book examines some of Freud's themes which remain challenging and relevant today for example psychoanalysis as a form of narrative construction the creative nature of memory the revolutionary nature of the knowledge gained through psychotherapy and the unconscious which subverts any notion of stable human identity *Sigmund Freud Revisited* Richard W. Noland, 1999 Noland's chronological analysis covers the totality of Freud's career and presents the material in such a way that a humanist can understand and make use of it He makes this complicated material accessible to the reader who has not been trained in medicine empirical science or social science **BOOK JACKET** **Freud's Principal Case Studies Revisited** Helena Texier, Eve Watson, 2025-05-30 Freud's Principal Case Studies Revisited explores Freud's six principal case studies studies Dora Little Hans Schreber the Wolf Man the Rat Man and the Young Homosexual Girl through the lens of contemporary psychoanalytic practice Thirteen leading Freudian Lacanian psychoanalysts reassess these cases in light of their significance to psychoanalytic theory and practice and consider their relevance in the twenty first century With new case material theory and analysis the cases are critically reinvigorated and restored to a privileged place within psychoanalysis Each of the cases is approached via a pairing of two psychoanalysts who engage with the clinical material as well as with each other in addressing their contributions to an assembled audience of clinicians trainees and scholars This book will be of great interest to psychoanalysts in practice and in training as well as psychologists psychotherapists and psychiatrists It will also be relevant for academics and students of psychoanalytic studies philosophy critical and cultural theory social studies critical psychology gender and sexuality studies and queer theory *Eros Revisited* Isaac B. Rosler, 2007-01-01 Dr Isaac B Rosler draws from the works of Plato Butler and Derrida to explore the unreadability of Eros's enigma and the desire to address its mystery through assertive and noncontradictory discourse resulting in the modern objectification of Eros into defined sexual orientations French Psychoanalysis Revisited Sven Hroar Klempe, Anna Madill, 2024-10-14 This Volume of Annals of Theoretical Psychology highlights the fact that the flourishing aftermath of both Freud's and Lacan's ideas still exist This is done in different ways Some papers focus on rereading core texts of Freud and Lacan Others apply Freud's and Lacan's principles in a new and contemporaneous actuality Others again transform and develop some of the core principles in psychoanalysis whereas others discuss the scientific principles that lie behind psychoanalysis This book will be important for scholars interested in psychoanalysis in general The readers should be both clinicians and others interested in psychoanalysis all over the world Freud's Argument for the Oedipus Complex Jerome C. Wakefield, 2022-09-23 In this close reading of Freudian theory Jerome C Wakefield reconstructs Freud's argument for the Oedipal theory of the psychoneuroses placing the case of Little Hans into a philosophy of science context and critically

rethinking the epistemological foundations of psychoanalysis Wakefield logically evaluates four central Freudian arguments the undirected anxiety argument which contends that Hans suffered from anxiety before he developed his horse phobia the day the horse fell down argument where engaging in some scholarly detective work Wakefield resolves a century old dispute between behaviorists and psychoanalysts about when Hans witnessed a frightening horse accident the N 1 sexual repression argument that the trajectory of Hans s sexual desires matches the Oedipal theory s predictions and lastly the detailed symptom characteristics argument that the Oedipal theory is needed to understand otherwise inexplicable details of Hans s symptoms Wakefield demonstrates that although Freud s arguments are brilliantly conceived he misread the facts of the Hans case and failed to support the Oedipal theory as judged by his own stated evidential standards However this failure creates an opportunity for renewed consideration of psychoanalysis s distinctive contribution the understanding of an individual s unique meaning system and confrontation with meanings outside of focal awareness in order to reshape an individual s fate This book will be of interest to psychoanalysts and psychotherapists alike and will prove essential for scholars working in the fields of psychoanalysis philosophy of science and the history of psychiatry

Freud, the Reluctant Philosopher Alfred I. Tauber, 2010-07-01 Freud began university intending to study both medicine and philosophy But he was ambivalent about philosophy regarding it as metaphysical too limited to the conscious mind and ignorant of empirical knowledge Yet his private correspondence and his writings on culture and history reveal that he never forsook his original philosophical ambitions Indeed while Freud remained firmly committed to positivist ideals his thought was permeated with other aspects of German philosophy Placed in dialogue with his intellectual contemporaries Freud appears as a reluctant philosopher who failed to recognize his own metaphysical commitments thereby crippling the defense of his theory and misrepresenting his true achievement Recasting Freud as an inspired humanist and reconceiving psychoanalysis as a form of moral inquiry Alfred Tauber argues that Freudianism still offers a rich approach to self inquiry one that reaffirms the enduring task of philosophy and many of the abiding ethical values of Western civilization

Sigmund Freud Alistair Ross, 2022-04-29 Sigmund Freud s name is known throughout the world He opened up the world of the unconscious so people can understand themselves so much better than before His unique ideas are discussed in academic circles His psychoanalytic techniques influenced mental health counselling psychotherapy and psychiatry His words form part of everyday language Lying on a couch and having dreams interpreted by an analyst is an iconic picture of modern life and popular culture Sigmund Freud A Reference Guide to Her Life and Work captures his eventful life his works and his legacy The volume features a chronology an introduction a comprehensive bibliography and the dictionary section lists entries on Freud his family friends and foes colleagues and the evolution of psychoanalysis

Freud Revisited Roger Horrocks, 2001

Freud and the History of Psychoanalysis Toby Gelfand, John Kerr, 2013-05-13 The recent upsurge of fresh historical research concerning the early years of psychoanalysis has left many professional readers struggling to keep

abreast of the latest findings and more than a little perplexed as to what it all adds up to Freud and the History of Psychoanalysis addresses this state of affairs by providing in a single volume original essays by fourteen leading historians of psychoanalysis and philosophers of science it is the most impressive collection of contemporary Freud scholarship yet to appear in print The contributions span virtually the entirety of Freud's career from his coming of professional age in Charcot's Paris to his clandestine rendezvous in the Harz Mountains with members of The Committee more than 30 years later The collection also encompasses a host of conceptual issues ranging from Freud's theory of dream formation to the impact of his conflicting masculine and feminine identifications on his attitude toward treatment Beyond providing an invaluable overview of Freud's life and times the volume will challenge readers to deeper reflection on a host of critical episodes and issues that have shaped the special character of the psychoanalytic endeavor Indispensable as a reference work Freud and the History of Psychoanalysis constitutes a rewarding and accessible introduction to rigorous historical research It will be prized by all who care deeply about the past and future of psychoanalytic theory Freud Rosine Jozef Perelberg, 2008-09-15 This much awaited textbook makes accessible the ideas of one of the most important thinkers of our time as well as indicating how Freud's theories are put into clinical practice today The collection of papers have been written by some of the most eminent psychoanalysts both from Britain and abroad who have made an original contribution to psychoanalysis Each chapter introduces one of Freud's key texts and links it to contemporary thinking in the field of psychoanalysis The book combines a deep understanding of Freud's work with some of the most modern debates surrounding it This book will be of great value across a wide spectrum of courses in psychoanalysis as well as to the scholar interested in psychoanalytic ideas **Freud's Requiem** Matthew Von Unwerth, 2005-07-07 In this absorbing thoughtful narrative a young writer explores Sigmund Freud's provocative ideas on creativity and mortality and their roots in his history while searching for broader lessons about love memory mourning and creativity Written in 1915 during winter and wartime Freud's little known essay On Transience records an afternoon conversation with a young but already famous poet and his taciturn friend about mortality eternity and the sense of life In Freud's Requiem the philosophical disagreement between Freud and his companions who may have been the poet Rainer Maria Rilke and his muse and former lover Lou Andreas Salom becomes a prism through which to consider Freud's creativity as a response to his own experiences from his passionately curious lovestruck teenage years to his death after a long struggle with cancer in 1939 Drawing on a variety of literary and historical sources Homer Shakespeare and Goethe as well as Freud's own writings including his letters Freud's Requiem is both an intimate personal drama and a spirited intellectual inquiry By tracing the connections among Freud's ideas his personality and the world he lived in Matthew von Unwerth examines the links that Freud made between art and memory Freud's Requiem contemplates how in mourning we tell stories about our lives that give form and meaning to the events and feelings that threaten to overwhelm us In recounting our stories especially our darkest moments we make sense of them and reclaim lost aspects of our lives just as

Freud did in his account of an afternoon walk with a poet and a taciturn companion

The Postmodern Mythology of Michel Tournier Melissa Panek, 2012-03-15 Michel Tournier defines the supreme mission of a writer to be the creation of a mythology which allows for interaction with his readers who seem to be losing their critical faculties in our contemporary postmodern world dominated by consumption and dizzying technological advances Our contemporary society has changed due to the end of the modern era with its reigning ideologies Collapsing after the atrocities of the Second World War Modernity and the artistic and literary reactions referred to as modernism have likewise been transformed Myth continues to represent the collectivity of human existence yet in the short stories and novels of Michel Tournier myth represents the collapse of the all encompassing ideologies inherent to the Modern era The grand narratives of Modernity such as Christianity and Man's reason have been deconstructed in the postmodern era The mythology of Michel Tournier expresses these trends towards the dissolution of Modernity and creates individual mini narratives which emphasize the particularity of individual existence Tournier takes established mythical models rooted in Christianity fables and legends of Western Civilization and re contextualizes them Through a semiotic reworking of core binary pairs of a myth Tournier creates a third order level of representation which modifies the mythical model The works of *le Roi des Aulnes*, *Gilles et Jeanne* and *Vendredi* are illustrious of this third order level of signification According to Ferdinand de Saussure Roland Barthes and Claude Lévi Strauss the structural make up of myth transforms established meanings according to the dominant cultural code Barthes' semiological study of myth reveals the levels of representation through which myth creates meaning Myth builds upon the denotative first order level of language and through a connotative process creates a second order level This connotative process does not end on this second order for in the writings of Tournier this semiological process is continued to a third order which re contextualizes the myth again Tournier adapts myth to the unique traits of the postmodern era including deconstruction and playfulness by allowing the reader to provide the context of the story As such we the reader take the place as author of our own individual mythology

Freud's Patients Mikkel Borch-Jacobsen, 2021-10-13 Portraits of the thirty eight known patients Sigmund Freud treated clinically some well known many obscure reveal a darker more complex picture of the famed psychoanalyst Everyone knows the characters described by Freud in his case histories Dora the Rat Man the Wolf Man But what do we know of the people the lives behind these famous pseudonyms Ida Bauer Ernst Lanzer Sergius Pankejeff Do we know the circumstances that led them to Freud's consulting room or how they fared how they really fared following their treatments And what of those patients about whom Freud wrote nothing or very little Pauline Silberstein who threw herself from the fourth floor of her analyst's building Elfriede Hirschfeld Freud's grand patient and chief tormentor the fashionable architect Karl Mayreder the psychotic millionaire Carl Liebmann and so many others In an absorbing sequence of portraits Mikkel Borch-Jacobsen offers the stories of these men and women some comic many tragic all of them deeply moving In total thirty eight lives tell us as much about Freud's clinical practice as his celebrated case studies revealing a

darker and more complex Freud than is usually portrayed the doctor as his patients their friends and their families saw him

The forgotten book by Freud and Bullit Fanny Elman Schutt,2012-05-01 This book is for anybody who is interested in leaders and how they captivate others It weaves together important events in the history of the 20th century and psychoanalytical concepts in order to help us understand the mechanisms and psychical conflicts behind leadership and submission to leaders In an example from our times these phenomena can even lead to the extreme of suicidal fanaticism

Freud, the Contemporary Super-ego, and Western Morality Giosuè Ghisalberti,2023-10-09 Freud the Contemporary Super ego and Western Morality traces the origins of the relationship between the morality of the super ego and the destructive impulse of the death drive in the liberal democracies of the 21st century Giosuè Ghisalberti begins by refuting the analysis by contemporary social theorists of the phenomenon described as the return of the religious presenting instead a comprehensive set of ideas as outlined by Freud in the writings of the 1920s and the analysis of a contemporary theological political unconscious Ghisalberti argues that the psyche of the liberal West has regressed to an infantile and primitive present driven by an unconscious hostility towards the Oedipus complex and more comprehensively to Western civilization as a whole The book re examines Freud s psychoanalytic ideas on the nature of obsessions interpreted first from the murder of the primal father in Totem and Taboo and turns to his grounding ideals of intelligence creativity and freedom as the affirmation of the coming to be human in modernity Freud the Contemporary Super ego and Western Morality will be of great interest to psychoanalysts in practice and in training It will also be key reading for academics and scholars of psychoanalytic studies philosophy political theory and the humanities

Lacan and Psychoanalytic Obsolescence Jean-Michel Rabaté,2024-09-23 This book explores the importance of Lacan s role as an irritant within psychoanalysis and how Freud and Lacan saw that as key to ensuring that psychoanalysis remained fresh and vital rather than becoming obsolescent Drawing on Freud s thinking as well as Lacan s Rabaté examines how Lacan s unwillingness to allow psychoanalytic thinking to become stale or pigeonholed into one part of life was key in his thinking By constantly returning to psychoanalytic ideas in new and evolving ways Lacan kept psychoanalysis moving and changing much as Socrates did for philosophical thinking in classical Athens This gadfly or irritant role gave him free reign to explore all aspects of psychoanalytic thinking and treatment and how it can permeate all aspects of life both in the consulting room and beyond Drawing on a deep understanding of Lacan s work as well as Freud s this book is key reading for all those seeking to understand why Lacan s work remains so important and so challenging for contemporary psychoanalysis

The Problem of the Passions Cynthia Burack,1995-03 Women says conventional wisdom are warm nurturing caregivers with an intrinsically enhanced capacity for attachment and compassion Feminists says the popular image are full of rage devoid of the feelings that are natural to women How have feminists themselves dealt with this dualism and more specifically with the disagreeable passions What has too often been missing from discussions of women s psychology in social theory is an account of women as

ambivalent both empathic and enraged loving and hating The Problem of the Passions fills this void Examining the work of such feminist theorists as Carol Gilligan Nancy Chodorow Jessica Benjamin and Dorothy Dinnerstein in a new light Burack argues that feminist social theory can be repaired through attention to the pioneering psychoanalytic work of Melanie Klein Sure to be of interest to feminists psychoanalysts political scientists and social theorists The Problem of the Passions is essential reading for anyone concerned with feminism and questions of identity in social thought Attachment, Sexuality, Power Jerome C. Wakefield, 2022-09-23 In Attachment Sexuality Power Jerome C Wakefield challenges established views of Freudian psychoanalysis by applying Foucault's concept of power knowledge to Freud's case of Little Hans illuminating the role that Oedipal theory has played in reorganizing intimate family relationships Combining close examination of the Hans case with accounts of the history of marriage and psychology of co sleeping this book argues that the Oedipal theory achieved prominence because its implications for family dynamics supported changing social values Wakefield identifies a previously overlooked reason for Hans's anxiety his father attempted to protect Hans from his supposed Oedipal desires by separating Hans from his mother Thus Wakefield argues the father's exercise of power based on his belief in Oedipal theory not an actual Oedipus complex caused Hans's vulnerability to anxiety revealing the theory's potential to cause harm by distancing children from their parents even as such distancing made the theory socially appealing This book's novel and carefully documented articulation of the mechanisms of power by which Oedipal theory exerts its influence on family life will be of interest to psychoanalysts and psychotherapists alike and essential for scholars in the fields of psychoanalysis philosophy of science and the history of psychiatry *The Cut and the Building of Psychoanalysis: Volume II* Carlo Bonomi, 2017-07-14 The Cut and the Building of Psychoanalysis Volume II explores how the unformulated trauma associated with surgery performed on Emma Eckstein's genitalia and the hallucinations that Eckstein experienced influenced Freud's self analysis oriented his biological speculations and significantly influenced one of his closest followers Sándor Ferenczi This thought provoking and incisive work shows how Ferenczi filled the gaps left open in Freud's system and proved to be a useful example for examining how such gaps are transmitted from one mind to another The first of three parts explores how the mind of the child was viewed prior to Freud what events led Freud to formulate and later abandon his theory of actual trauma and why Freud turned to the phylogenetic past Bonomi delves deeper into Freud's self analysis in part two and reexamines the possible reasons that led Freud to discard the impact and effects of trauma The final part explores the interpersonal effects of Freud's self dissection dream arguing that Ferenczi managed to dream aspects of Freud's self dissection dream on various occasions which helped him to incorporate a part of Freud's psyche that Freud had himself failed to integrate This book questions the subject of a woman's body using discourse between Freud and Ferenczi to build a more integrated and accurate narrative of the origins and theories of psychoanalysis It will therefore be of interest to psychoanalysts psychotherapists psychologists and social scientists as well as historians of medicine science and human

rights Bonomi s work introduces new arguments to the contemporary debate surrounding Female Genital Mutilation

Freud Revisited Introduction

In the digital age, access to information has become easier than ever before. The ability to download Freud Revisited has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Freud Revisited has opened up a world of possibilities. Downloading Freud Revisited provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Freud Revisited has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Freud Revisited. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Freud Revisited. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Freud Revisited, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Freud Revisited has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Freud Revisited Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer webbased readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Freud Revisited is one of the best book in our library for free trial. We provide copy of Freud Revisited in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Freud Revisited. Where to download Freud Revisited online for free? Are you looking for Freud Revisited PDF? This is definitely going to save you time and cash in something you should think about. If you trying to find then search around for online. Without a doubt there are numerous these available and many of them have the freedom. However without doubt you receive whatever you purchase. An alternate way to get ideas is always to check another Freud Revisited. This method for see exactly what may be included and adopt these ideas to your book. This site will almost certainly help you save time and effort, money and stress. If you are looking for free books then you really should consider finding to assist you try this. Several of Freud Revisited are for sale to free while some are payable. If you arent sure if the books you would like to download works with for usage along with your computer, it is possible to download free trials. The free guides make it easy for someone to free access online library for download books to your device. You can get free download on free trial for lots of books categories. Our library is the biggest of these that have literally hundreds of thousands of different products categories represented. You will also see that there are specific sites catered to different product types or categories, brands or niches related with Freud Revisited. So depending on what exactly you are searching, you will be able to choose e books to suit your own need. Need to access completely for Campbell Biology Seventh Edition book? Access Ebook without any digging. And by having access to our ebook online or by storing it on your computer, you have convenient answers with Freud Revisited To get started finding Freud Revisited, you are right to find our website which has a comprehensive collection of books online. Our library is the biggest of these that have literally hundreds of thousands of different products represented. You will also see that there are specific sites catered to different categories or niches related with Freud Revisited So depending on what exactly you are searching, you will be able to choose ebook to suit your own need. Thank you for reading Freud Revisited. Maybe you have knowledge that, people have search numerous times for

their favorite readings like this Freud Revisited, but end up in harmful downloads. Rather than reading a good book with a cup of coffee in the afternoon, instead they juggled with some harmful bugs inside their laptop. Freud Revisited is available in our book collection an online access to it is set as public so you can download it instantly. Our digital library spans in multiple locations, allowing you to get the most less latency time to download any of our books like this one. Merely said, Freud Revisited is universally compatible with any devices to read.
