## **Freud On Femininity And Faith:**

Freud on Femininity and Faith Judith Van Herik, 1985      Freud and Faith Kirk A. Bingham, 2003-02-27 Explores how religious believers can and why they should engage the work of Sigmund Freud despite his well known dismissal of faith

Veiled Desires Maureen Sabine, 2013-08-22 Ingrid Bergman's engaging screen performance as Sister Mary Benedict in *The Bells of St Mary's* made the film nun a star and her character a shining standard of comparison. She represented the religious life as the happy and rewarding choice of a modern woman who had a complete understanding of both erotic and spiritual desire. How did this vibrant and mature nun figure come to be viewed as girlish and naïve? Why have she and her cinematic sisters in postwar popular film so often been stereotyped or selectively analyzed so seldom been seen as women and religious? In *Veiled Desires* a unique full length in depth look at nuns in film Maureen Sabine explores these questions in a groundbreaking interdisciplinary study covering more than sixty years of cinema. She looks at an impressive breadth of films in which the nun features as an ardent lead character including *The Bells of St Mary's* 1945 *Black Narcissus* 1947 *Heaven Knows Mr Allison* 1957 *Sea Wife* 1957 *The Nun's Story* 1959 *The Sound of Music* 1965 *Change of Habit* 1969 *In This House of Brede* 1975 *Agnes of God* 1985 *Dead Man Walking* 1995 and *Doubt* 2008. *Veiled Desires* considers how the beautiful and charismatic stars who play chaste nuns from Ingrid Bergman and Audrey Hepburn to Susan Sarandon and Meryl Streep call attention to desires that the veil concealed and the habit was thought to stifle. In a theologically and psychoanalytically informed argument Sabine responds to the critics who have pigeonholed the film nun as the obedient daughter and religious handmaiden of a patriarchal church and the respectful audience who revered her as an icon of spiritual perfection. Sabine provides a framework for a more complex and holistic picture of nuns onscreen by showing how the films dramatize these women's Christian call to serve, sacrifice and dedicate themselves to God and their erotic desire for intimacy, agency, achievement and fulfillment.

*Faith in the Fires of Criticism* Paul Avis, 2006-03-01 Have the fires of modern criticism melted away Christianity's claim to truth? Seminal thinkers such as Feuerbach, Marx, Nietzsche and Freud argued that religious belief is nothing more than an illusion triggered by our own psychological and social needs. Jung claimed that traditional Christianity was a gross distortion of the divine. Paul Avis does not deny the reality of those human factors which shape our beliefs but he argues that it is possible to take seriously both human distortions of religious truth and also the reality of the transcendent God. These in depth studies of the most unsparing critics of Christianity point to the possibility of a faith chastened and refined in the fires of criticism.

**Religion, Society, And Psychoanalysis** Janet L. Jacobs, 2018-02-12 Distinguished contributors provide an overview of three generations of psychoanalytic theory including the work of Freud, Horney, Winnicott and Kristeva and discuss the evolution of psychoanalytic thought as it relates to the role that religion plays in modern culture. Religion clearly remains a powerful social and political force in Western society. Freudian based theory continues to inform psychoanalytic investigations into personality development, gender relations and traumatic disorders.

Using a historical framework this collection of new essays brings together contemporary scholarship on religion and psychoanalysis. These various yet related psychoanalytic interpretations of religious symbolism and commitment offer a unique social analysis on the meaning of religion. Beginning with Freud's views on religion and mystical experience and continuing with those of Horney, Winnicott, Kristeva, Miller, and others, this volume surveys the work of three generations of psychoanalytic theorists. Special attention is given to objects, relations, theory, and ego psychology as well as to the recent work from the European tradition. Distinguished contributors provide a basic overview of a given theorist's scholarship and discuss its place in the evolution of psychoanalytic thought as it relates to the role that religion plays in modern culture. Religion, Society, and Psychoanalysis marks a major interdisciplinary step forward in filling the void in the social psychology of religion. It is an extremely useful handbook for students and scholars of psychology and religion.

**Methodology in Religious Studies** Arvind Sharma, 2012-02-01. Methodology in Religious Studies assesses the impact of women's studies on the various methods employed in studying religion. Since its inception in the 1860s, the study of religion as an academic discipline has evolved over time, ranging from the classically historical to the boldly hermeneutical. The women's studies movement has since the 1980s become part and parcel of the intellectual landscape of our times, and the study of religion has become increasingly influenced by it. What are the implications of this new development for the methodology of religious studies? Leading practitioners of psychological, theological, sociological, anthropological, phenomenological, historical, and hermeneutic approaches examine the mutually enriching interface between religious studies and women's studies as they explore the broader issue of the interaction between method and the nature of the subject itself.

**Speaking the Unspeakable** Diane Jonte-Pace, 2001-12-03. This rereading of Freud's cultural texts uncovers an undeveloped counterthesis: one that repeatedly interrupts or subverts his well-known Oedipal maserplot. The counterthesis is evident in three clusters of themes within Freud's work.

**Religion and Psychology in Transition** James W. Jones, 2008-10-01. In this thought-provoking book, clinical psychologist and professor of religious studies, James W. Jones, presents a dialogue between contemporary psychoanalytic thinking and contemporary theology. He sheds new light on the interaction of religion and psychology by viewing it from the perspective of world religions, providing an epistemological framework for the psychology of religion that draws on contemporary philosophy of science and bringing out the importance of gender as a category of analysis. Developments in psychoanalysis provide new resources for theological reflection. Jones contends that the Freudian view that human nature is isolated and instinctual has shifted to a vision of the self as constituted in and through relationships. Jones uses this relational model of human nature to explore the convergence between contemporary psychoanalysis, feminist theorizing, and themes in religious thought found in a variety of traditions. He also critiques the reductionism inherent in Freud's discussion of religion and proposes nonreductionistic and genuinely psychoanalytic ways for psychoanalysis to treat religious topics. For therapists, psychologists, theologians, and others interested in spiritual or psychological issues, Jones offers

illuminating clinical material and insightful analysis      *Neither Victim Nor Survivor* Marilyn Nissim-Sabat, 2009-01-01 In *Neither Victim nor Survivor Thinking toward a New Humanity* Marilyn Nissim Sabat offers a comprehensive critique of the interrelated concepts of victim and survivor as they have been ideologically distorted in Western thought Framed by the phenomenological perspective of Edmund Husserl Nissim Sabat carries out her argument through an intense engagement with current scholarly work on Toni Morrison's *Beloved* Sophocles' *Antigone* akrasia psychoanalysis critical race theory feminist philosophy of science and Marxism Nissim Sabat ultimately proposes that a new consciousness enabled by the phenomenological attitude of the way in which ideological distortion of the concepts of victim and survivor helps to perpetuate victimization will empower us to find ways to end victimization and its anti human consequences The book's interdisciplinary approach will make it appealing to a broad range of students and scholars alike      **Religion and**

**Psychology** Diane Jonte-Pace, William B. Parsons, 2002-09-26 *Religion and Psychology* is a thorough and incisive survey of the current relationship between religion and psychology from the leading scholars in the field This is an essential resource for students and researchers in the area of psychology of religion Issues addressed are The Psychology Theology Dialogue The Psychology Comparativist Dialogue Psychology Religion and Gender Studies Psychology as Religion Social Scientific Approaches to the Psychology of Religion The Empirical Approach International Perspectives      Encyclopedia of Women and World Religion: L-Y. Index Serinity Young, 1999      **Dark Traces of the Past** Jürgen Straub, Jörn Rüsen, 2011-12-01 The

relationship between historical studies and psychoanalysis remains an open debate that is full of tension in both a positive and a negative sense In particular the following question has not been answered satisfactorily what distinguishes a psychoanalytically oriented study of historical realities from a historical psychoanalysis Skepticism and fear of collaboration dominate on both sides Initiating a productive dialogue between historical studies and psychoanalysis seems to be plagued by ignorance and at times a sense of helplessness Interdisciplinary collaborations are rare Empirical research formulation of theory and the development of methods are essentially carried out within the conventional disciplinary boundaries This volume undertakes to overcome these limitations by combining psychoanalytical and historical perspectives and thus exploring the underlying unconscious dimensions and by informing academic and nonacademic forms of historical memory Moreover it puts special emphasis on transgenerational forms of remembrance on the notion of trauma as a key concept in this field and on case studies that point the way to further research      **Feminist Thought, Student Economy Edition**

Rosemarie Tong, 2018-10-03 This book provides a clear comprehensive and incisive introduction to the major traditions of feminist theory from liberal feminism radical feminism and Marxist and socialist feminism to care focused feminism psychoanalytic feminism women of color feminisms and ecofeminism      An Introduction to Psychology of Religion Robert W. Crapps, 1986 Developed in almost thirty years of classroom experience this book is designed to introduce students and other readers to the psychological study of religion Robert W Crapps deals with the major questions and figures that have

dominated the psychological study of religion over the past century dividing the discussion into four parts Two chapters in part one suggest the problems and possibilities for the psychological study of religion in light of the nature of religion and the scientific method Part two sketches the contributions to the study of religion of three intellectual currents in contemporary psychology psychoanalysis behaviorism and humanistic psychology part three explores the relationship between religion and human development while part four directs attention to religious lifestyles and that weave differentiated parts of human experience into a cohesive whole Publisher description Virginia Woolf and the Fictions of Psychoanalysis Elizabeth Abel,1989 A stunning brilliant absolutely compelling reading of Woolf through the lens of Kleinian and Freudian psychoanalytic debates about the primacy of maternity and paternity in the construction of consciousness gender politics and the past and of psychoanalysis through the lens of Woolf s novels and essays In addition to transforming our understanding of Woolf this book radically expands our understanding of the historicity and contingent construction of psychoanalytic theory and our vision of the potential of psychoanalytic feminism Nancy J Chodorow University of California at Berkeley Virginia Woolf and the Fictions of Psychoanalysis brings Woolf s extraordinary craftsmanship back into view the book combines powerful claims about sexual politics and intellectual history with the sort of meticulous imaginative close reading that leaves us simply seeing much more in Woolf s words than we did before It is the most exciting book on Woolf to come along in some time Lisa Ruddick Modern Philology **Encyclopedia of Global Religion** Mark Juergensmeyer,Wade Clark Roof,2012 Presents entries A to L of a two volume encyclopedia discussing religion around the globe including biographies concepts and theories places social issues movements texts and traditions **Abraham on Trial** Carol Delaney,2020-09-01 Abraham on Trial questions the foundations of faith that have made a virtue out of the willingness to sacrifice a child Through his desire to obey God at all costs even if it meant sacrificing his son Abraham became the definitive model of faith for the major world religions of Judaism Christianity and Islam In this bold look at the legacy of this biblical and qur anic story Carol Delaney explores how the sacrifice rather than the protection of children became the focus of faith to the point where the abuse and betrayal of children has today become widespread and sometimes institutionalized Her strikingly original analysis also offers a new perspective on what unites and divides the peoples of the sibling religions derived from Abraham and implicitly a way to overcome the increasing violence among them Delaney critically examines evidence from Jewish Christian and Muslim interpretations from archaeology and Freudian theory as well as a recent trial in which a father sacrificed his child in obedience to God s voice and shows how the meaning of Abraham s story is bound up with a specific notion of fatherhood The preeminence of the father which is part of the meaning of the name Abraham comes from the still operative theory of procreation in which men transmit life by means of their seed an image that encapsulates the generative creative power that symbolically allies men with God The communities of faith argue interminably about who is the true seed of Abraham who can claim the patrimony but until now no one has asked what is this seed Kinship and origin

myths the cultural construction of fatherhood and motherhood suspicions of actual child sacrifices in ancient times and a revisiting of Freud's Oedipus complex all contribute to Delaney's remarkably rich discussion. She shows how the story of Abraham legitimates a hierarchical structure of authority a specific form of family definitions of gender and the value of obedience that have become the bedrock of society. The question she leaves us with is whether we should perpetuate this story and the lessons it teaches.

***A Space of Anxiety*** Anne Fuchs, 2024-08-26 *A Space of Anxiety* engages with a body of German Jewish literature that from the beginning of the century onwards explores notions of identity and kinship in the context of migration exile and persecution. The study offers an engaging analysis of how Freud Kafka Roth Drach and Hilsenrath employ to varying degrees the travel paradigm to question those borders and boundaries that define the space between the self and the other. *A Space of Anxiety* argues that from Freud to Hilsenrath German Jewish literature emerges from an ambivalent space of enunciation which challenges the great narrative of an historical identity authenticated by an originary past. Inspired by postcolonial and psychoanalytic theories the author shows that modern German Jewish writers inhabit a Third Space which poses an alternative to an understanding of culture as a homogeneous tradition based on national unity. By endeavouring to explore this third space in examples of modern German Jewish literature the volume also aims to contribute to recent efforts to rewriting literary history. In retracing the inherent ambivalence in how German Jewish literature situates itself in cultural discourse this study focuses on how this literature subverts received notions of identity and racial boundaries. The study is of interest to students of German literature German Jewish literature and Cultural Studies.

clinical psychoanalyst invites us to take an interest in our patients spirituality that is respectful but not diffident curious but not reductionistic welcoming but not indoctrinating Out of this invitation emerges a fascinating and broadening investigation of how contemporary psychoanalysis can mind spirituality in the threefold sense of being bothered by it of attending to it and of cultivating it Both the questions Sorenson asks and the answers he begins to formulate reflect progressive changes in the psychoanalytic understanding of spirituality Sorenson begins by quantitatively analyzing 75 years of journal literature and documenting how psychoanalytic approaches to religious and spiritual experiences have evolved far beyond the wholesale pathologizing of religion prevalent during Freud s lifetime Then in successive chapters he explores and illustrates the kind of clinical technique appropriate to the modern treatment of religious issues And the issue of technique is consequential in more than one way Sorenson presents evidence that how analysts work clinically has a greater impact on their patients spirituality than the patients own parents have Sorenson brings an array of disciplinary perspectives to bear in examining the multiple relationships among psychoanalysis religion and spirituality Empirical analysis psychoanalytic history sociology of religion comparative theory and sustained clinical interpretation all enter into his effort to open a dialogue that is clinically relevant Turning traditional critiques of psychoanalytic training on their head he argues that psychoanalytic education has much to learn from models of contemporary theological education Beautifully crafted and engagingly written *Minding Spirituality* not only invites interdisciplinary dialogue but via Sorenson s wide ranging and passionately open minded scholarship exemplifies it
