This book investigates a number of central problems in the philosophy of Charles Peirce grouped around the realism of his semiotics: the issue of how sign systems are developed and used in the investigation of reality. Thus it deals with the precise character of Peirce's realism with Peirce's special notion of propositions as signs which at the same time denote and describe the same object. It deals with diagrams as signs which depict more or less abstract states of affairs facilitating reasoning about them with assertions as public claims about the truth of propositions. It deals with iconicity in logic, the issue of self-control in reasoning, dependences between phenomena in their realist descriptions. A number of chapters deal with applied semiotics with biosemiotic sign use among pre-human organisms, the multimedia combination of pictorial and linguistic information in human semiotic genres like cartoons, posters, poetry, monuments. All in all, the book makes a strong case for the actual relevance of Peirce's realist semiotics. **Was Superman a Spy?** Brian Cronin, 2009-04-28. Fascinating and often bizarre true stories behind more than 130 urban legends about comic book culture. Was Superman a Spy? demystifies all of the interesting stories, unbelievable anecdotes, wacky rumors and persistent myths that have piled up like priceless back issues in the seventy-plus years of the comic book industry including: Elvis Presley's trademark hairstyle was based on a comic book character. True. Stan Lee featured a gay character in one of Marvel's 1960s war comics. False. Wolverine of the X-Men was originally meant to be an actual wolverine. True. What would have been DC's first black superhero was changed at the last moment to a white hero. True. A Dutch inventor was blocked from getting a patent on a process because it had been used previously in a Donald Duck comic book. True. With many more legends resolved. Was Superman a Spy is a must-have for the legions of comic book fans and all seekers of truth, justice and the American way. **HSA Heritage Auctions Rare Books Auction Catalog #6030** James Gannon, 2009-09. **Children's Literature: Classic Texts and Contemporary Trends** Heather Montgomery, Nicola J. Watson, 2009-08-26. Provides students and teachers of Children's Literature with access to high-quality critical material on the most widely studied classic and contemporary children's books. **Crossover Fiction** Sandra L.
